## *Water District*

1035 Pulaski Street

Riverhead, New York 11901-2596

Telephone: 631-727-3200 Ext .234

---

A Message from the Riverhead Water District:

If you notice that you have no water, we would ask that you check to make sure that there is no water throughout the rest of the house. Before you call the Riverhead Water District, please check all faucets throughout your home. If you do not have water in one faucet, but have water at other faucets inside your home, the problem is within the internal plumbing. If you do not have water in all parts of your home, then there's a chance that your meter is frozen. Should you need further information, you may contact the Riverhead Water District during normal business hours Monday through Friday between 8:30 am and 4:30 pm at 631-727-3205. If you have no water after normal business hours, contact the Riverhead Police Department at 631-727-4500.
