Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for **each** of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- ☐ Principal Executive Officer/Chief Elected Official
- ☒ Duly Authorized Representative
- ☒ Local Stormwater Public Contact
- ☒ Stormwater Management Program (SWMP) Coordinator
- ☒ Report Preparer

Section 3 - Partner Information

Did your MS4 work with partners/coalition to complete some or all permit requirements during this reporting period? ☒ Yes ☐ No

If Yes, complete information below.

Submit a separate sheet for each partner. Information provided in other formats will not be accepted. If your MS4 cooperated with a coalition, submit one sheet with the name of the coalition. It is not necessary to include a separate sheet for each MS4 in the coalition.

If No, proceed to Section 4 - Certification Statement.

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The PEPC website has numerous educational resources for the general public on stormwater management. The website provides training materials for municipal staff on illicit discharge detection, information on stormwater management, landscaping best management practices, as well as stormwater pollution prevention plans, coastal erosion and goose management. The Coordinator will continue to research information and add new materials to the website and their social media accounts as appropriate. The PEPC is developing new presentations regarding nitrogen impacts on water quality, focusing on impacts from stormwater and septic systems. These presentations provide a general background on the composition of the Committee and its activities to facilitate intermunicipal cooperation.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the coronavirus pandemic, all meetings, gatherings and committee correspondence were performed through a virtual format. The PEPC provided four meetings open to the public; 06/04/2020, 08/05/2020, 12/02/2020, and 02/03/2021. The PEPC also designed and implemented a new website at, www.PeconicCommittee.org. This newly launched website has created a user-friendly resource to access the up-to-date information on storm water management and water quality issues and mitigation. The PEPC continues to provide outreach materials and relevant information on their social media accounts of Facebook (1,993 reaches) and Twitter (797 impressions).

C. How many times was this observation measured or evaluated in this reporting period?

			4
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The continued influence on the PEPC social media accounts and their new website has created a larger audience for outreach and promotion of stormwater management and water quality issue mitigation. The PEPC initiated the planning for an estuary wide signage project to continue to inform the public of member activities and water quality issues. The PEPC continues the promotion of area beach clean-ups, habitat restoration projects, monitoring projects by program partners through social media outreach.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	2	1

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	2	1
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

Town of Riverhead

SPDES ID

N	Y	R	2	0	A	0	2	0
---	---	---	---	---	---	---	---	---

4.a. If this report was made available on the internet, what date was it posted?

Leave blank if this report was not posted on the internet.

0	5	/	2	8	/	2	0	2	1
---	---	---	---	---	---	---	---	---	---

4.b. For how many days was/will this report be posted?

3	6	5
---	---	---

If submitting a report for single MS4, answer 5.a.. If submitting a joint report, answer 5.b..

5.a. Was an Annual Report public meeting held in this reporting period?

☒ Yes ☐ No

If Yes, what was the date of the meeting?

0	5	/	2	7	/	2	0	2	1
---	---	---	---	---	---	---	---	---	---

If No, is one planned?

☐ Yes ☐ No

5.b. Was an Annual Report public meeting held for all MS4s contributing to this report during this reporting period?

☐ Yes ☒ No

If No, is one planned for each?

☐ Yes ☒ No

6. Were comments received during this reporting period?

☐ Yes ☒ No

If Yes, attach comments, responses and changes made to SWMP in response to comments to this report.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

PEPC members to continue to attend public outreach events to educate the public on the mission and projects of the PEPC and discuss how the community can become further involved. PEPC to continue to invite regional water quality stakeholders to participate in Bi-monthly PEPC meetings to share experiences and lessons learned and take those messages back to the community. The QAPP was approved by the USEPA and NYSDEC and has been distributed to committee members for local use.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The PEPC provided representation to LINAP, LINAP Fertilizer Workgroup, NYS DEC TMDL Workgroup, NYS DEC MS4 Workgroup, PEP Citizens Advisory Committee, PEP Technical Advisory Committee, PEP Solute Transport Workgroup, PEP Management Committee, PEP Local Government Committee, PEP Water Quality Monitoring Collaborative, SCALP Program through virtual meeting platforms. The PEPC continues to provide public access to their website, social media accounts and the four virtual meetings held this past year.

C. How many times was this observation measured or evaluated in this reporting period?

		1	1
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The PEPC will continue to provide representation to all committees dedicated to improving water quality and stormwater management. With the pandemic seemingly coming to an end, there will likely be more in-person meetings for additional committees, conferences, and symposiums which the PEPC will provide representation and attend. The PEPC will continue to provide numerous resources and meetings agendas and minutes on their website and promote beach cleanups and habitat restoration projects to provide the public with improved stormwater management knowledge and water quality mitigation.

3.b. What types of illicit discharges have been found during this reporting period?

- ☐ Broken Lines From Sanitary Sewer
- ☐ Cross Connections
- ☐ Failing Septic Systems
- ☐ Floor Drains Connected To Storm Sewers
- ☐ Illegal Dumping
- ☐ Other:
- ☐ Industrial Connections
- ☐ Inflow/Infiltration
- ☐ Pump Station Failure
- ☐ Sanitary Sewer Overflows
- ☐ Straight Pipe Sewer Discharges
- ☒ None

[illegible]

4. How many illicit discharges/potential illegal connections have been detected during this reporting period?

		0
--	--	---

5. How many illicit discharges have been confirmed during this reporting period?

		0
--	--	---

6. How many illicit discharges/illegal connections have been eliminated during this reporting period?

		0
--	--	---

7. Has the storm sewershed mapping been completed in this reporting period?

☐ Yes ☒ No

If No, approximately what percent was completed in this reporting period?

	2	4	8
--	---	---	---

8. Is the above information available in GIS?

☒ Yes ☐ No

Is this information available on the web?

☐ Yes ☒ No

If Yes, provide URL(s):

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The PEPC will continue to research and upload training materials to the website for the Committee's use in training staff and employees in IDDE. Relevant materials will be added to the new PEPC website as they come available. The PEPC will maintain contact with the GIS Working Group to update GIS data relevant to the Peconic Estuary Watershed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The QAPP was approved by the USEPA and NYSDEC. The committee is distributing the QAPP to members for local use.

C. How many times was this observation measured or evaluated in this reporting period?

			4
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The PEPC will continue to research, obtain, and provide updated GIS data from Suffolk County and local municipalities to ensure the most up-to-date and relevant information contained within the Peconic Estuary Watershed. The PEPC will work on developing an estuary wide sampling plan to benefit all committee members.

Minimum Control Measures 4 and 5.
Construction Site and Post-Construction Control

The information in this section is being reported (check one):

☒ On behalf of an individual MS4

☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1a. Has each MS4 contributing to this report adopted a law, ordinance or other regulatory mechanism that provides equivalent protection to the NYS SPDES General Permit for Stormwater Discharges from Construction Activities?

☒ Yes ☐ No

1b. Has each Town, City and/or Village contributing to this report documented that the law is equivalent to a NYSDEC Sample Local Law for Stormwater Management and Erosion and Sediment Control through either an attorney certification or using the NYSDEC Gap Analysis Workbook?

☐ Yes ☒ No ☐ NT

If Yes, Towns, Cities and Villages provide date of equivalent NYS Sample Local Law.

☐ 09/2004 ☐ 03/2006 ☐ NT

2. Does your MS4/Coalition have a SWPPP review procedure in place?

☒ Yes ☐ No

3. How many Construction Stormwater Pollution Prevention Plans (SWPPPs) have been reviewed in this reporting period?

		1
--	--	---

4. Does your MS4/Coalition have a mechanism for receipt and consideration of public comments related to construction SWPPPs?

☒ Yes ☐ No ☐ NT

If Yes, how many public comments were received during this reporting period?

		0
--	--	---

5. Does your MS4/Coalition provide education and training for contractors about the local SWPPP process?

☒ Yes ☐ No

6. Identify which of the following types of enforcement actions you used during the reporting period for construction activities, indicate the number of actions, or note those for which you do not have authority:

<input checked="" type="radio"/> Notices of Violation	#	<table border="1"><tr><td></td><td></td><td></td><td></td><td>0</td></tr></table>					0	<input type="radio"/> No Authority

Minimum Control Measure 4. Construction Site Stormwater Runoff Control

The information in this section is being reported (check one):

- ☒ On behalf of an individual MS4
☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. How many construction projects have been authorized for disturbances of one acre or more during this reporting period?

		2
--	--	---

2. How many construction projects disturbing at least one acre were active in your jurisdiction during this reporting period?

		4
--	--	---

3. What percent of active construction sites were inspected during this reporting period? ☐ NT

1	0	0
---	---	---

 %

4. What percent of active construction sites were inspected more than once? ☒ NT

		0
--	--	---

 %

5. Do all inspectors working on behalf of the MS4s contributing to this report use the NYS Construction Stormwater Inspection Manual? ☒ Yes ☐ No ☐ NT

6. Does your MS4/Coalition provide public access to Stormwater Pollution Prevention Plans (SWPPPs) of construction projects that are subject to MS4 review and approval? ☒ Yes ☐ No ☐ NT

If your MS4 is Non-Traditional, are SWPPPs of construction projects made available for public review? ☐ Yes ☐ No

If Yes, use the following page to identify location(s) where SWPPPs can be accessed.

---	---	---	---	---	---	---	---	---

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Continue to track the number of SWPPP resubmittals for each project to determine whether the % of resubmittals from 2019 will be measurably less than the % of resubmittals in 2020. This would indicate either the same consultants are submitting SWPPPs as in previous years and are therefore familiar with the Town's and DEC GP's requirements or the majority of the firms submitting SWPPPs have become familiar with the GP and Town requirements. We will also continue to track the number of inspections conducted in 2020 and the % of sites in compliance.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Tracked the # of SWPPPs received during 2020-2021 period and compared the number of resubmittals to those received in 2019-2020. The number of resubmittals per project has increased by 200%. This can be mainly attributed to the low number of total submittals. It can also be attributed to the reduced experience with the design manual and the general permit. Tracked the # of total inspections annually & determined the % of sites in compliance. Two inspections were performed in this time period and 100% of the sites were in compliance.

C. How many times was this observation measured or evaluated in this reporting period?

			4
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Town will continue to track the amount of inspections that are performed within the reporting period and record the percent compliance of these inspections. Continue to track the number of SWPPP resubmittals for each project and determine whether previous consultants or new consultants are now more familiar with the GP and Town requirements.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Focus on meeting with HOAs regarding BMPs for storm water abatement. Track number of meetings and attendance annually. Continue to progress through priority drainage issues and clean at least two recharge basins annually. Add sediment forebays when appropriate and feasible. Track whether flooding is reduced in these areas. Add swales along farms which historically have flooding issues. Track areas for reduction of flooding once swale are installed. Improve flood protection measures where coastal and/or low lying neighborhoods border creeks or wetlands. Implement annual cleaning events to remove debris and identify eroded areas & restore. Track effectiveness in flood reduction. The PEPC will continue to monitor changes in regulations and advise member municipalities as necessary. The Committee will also continue to serve as NYSDEC representative for MS4 operators to participate in discussions regarding MS4 permit. The PEPC also attended Erosion and Sediment Control Training and received certificate on January 29,2019.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Monitored changes in regulations and advised member municipalities as necessary. The PEPC serves as representatives to NYSDEC for MS4 operators to participate in discussions regarding MS4 permit. The Highway department cleaned a total of 42 leaching pools and 17 catch basins.

C. How many times was this observation measured or evaluated in this reporting period?

			5
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Continue to track meeting attendance with HOAs and ensure valuable information is provided and implemented regarding BMPs. Ensure that all contractors and developers are informed about storm water abatement and track the effectiveness of the outreach. Continue to track any drainage improvements performed to track the effectiveness of all flood prone/problematic areas. The Committee will continue to monitor and advise member municipalities.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- ☒ On behalf of an individual MS4
☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

- 1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Continue to track miles of road and acres of parking lots swept and pounds cleaned from CBs&LPs. Track volume of debris and sediment cleaned from recharge basins. Create database of Town facilities that are unmanned. Create a method of informing new employees of stormwater issues prior to commencing work. Establish policies and procedures for operations including graffiti removal and simple in-house construction activities. The PEPC will plan and participate in municipal staff training events for good housekeeping, including maintenance of facilities, streets and parks; goose oiling, and will add educational resource materials to the website. The PEPC will continue to monitor changes in regulations and advise member municipalities as necessary. The Committee will also continue to serve as NYSDEC representative for MS4 operators to participate in discussions regarding MS4 permit.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Tracked miles of road and acres of parking lots swept and pounds cleaned from CBs&LPs. Tracked volume of debris and sediment cleaned from recharge basins. Total mileage was at 281.37 miles and total yards of debris was 1104.25 yards.

C. How many times was this observation measured or evaluated in this reporting period?

			3
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Continue to track miles of road and acres of parking lots swept and pounds cleaned from catch basins and leaching pools. Continue to track the volume of debris and sediment cleaned from recharge basins. Start development of a more efficient process to increase the amount of debris cleaned. Continue to develop a method of informing new employees of stormwater issues and mitigation prior to commencing work. The PEPC will plan and participate in municipal staff training events for good housekeeping.

Progress Report for Part IX.D

Permit # NYR20A020

Watershed Name

Lower Peconic River and Tribs

MS4 Name Town of Riverhead

Reporting Period Ending

(mm/dd/yyyy)

03 / 09 / 2021

Watershed Improvement Strategy

Describe the strategy to reduce the discharge of nitrogen to this waterbody. Include new sources that may have been identified and any modifications to the strategy to better address new sources.

The historical operation of duck farms is the apparent major nitrogen source from stormwater in the Lower Peconic River and its Tributaries. Tidal flushing through Lower Peconic River which is previously the site of four duck farms serves as a continuous source of nitrogen to the Lower Peconic River. Monitoring the Town outfalls in the Lower Peconic River should remove this waterbody and its tributaries from the TMDL list.

The Town of Riverhead will vie for monetary grants either on its own or with the Peconic Estuary Protection Committee.

The PEPC consists of; Suffolk County, Brookhaven Town, East Hampton Town, Riverhead Town, Shelter Island Town, Southampton Town, Southold Town, Greenport Village, North Haven Village, Sag Harbor Village, and NYSDOT.

Public Education & Outreach**1. Description of the education program**

Due to the coronavirus pandemic, all meetings, gatherings and committee correspondence were performed through a virtual format. The PEPC provided four meetings open to the public; 06/04/2020, 08/05/2020, 12/02/2020, and 02/03/2021. The PEPC also designed and implemented a new website at, www.PeconicCommittee.org. This newly launched website has created a user-friendly resource to access the up-to-date information on storm water management and water quality issues and mitigation. The PEPC also promoted area beach cleanups and habitat restoration projects. The PEPC continues to provide outreach materials and relevant information on their social media accounts of Facebook (1,993 reaches) and Twitter (797 impressions).

2. Who is the target audience and what is the message delivered to each target audience?

Our target audience is the general public, and the public school system in the Town of Riverhead. The Town of Riverhead hosts two STOP Days per year in October and May to provide public education and opportunity to achieve the proper disposal of household chemicals, pharmaceutical products, electronics, automotive products, and lawn and garden products. Bi-monthly PEPC meetings serve to inform the public about comprehensive planning projects. The PEPC has an extensive catalog of all their meetings and informative links to provide the public with the most up to date information about water quality protection and stormwater mitigation.

3. Identify how many educational materials have been developed and distributed

1 0 0

4. Identify how many educational materials have been developed and distributed that focus on:

a. understanding the Nitrogen issues

0

b. Septic systems as a source of Nitrogen

1 5

Non-Traditional MS4 ☐

c. Nitrogen concerns with fertilizer use

5 0

d. Nitrogen concerns with grass clippings and leaves entering the MS4

1 5

Permit # NYR20A020

5. Education plan and goals for the next 6 months

The PEPC will continue to provide representation at all work-groups, advisory committees and collaboratives either on a virtual platform or in-person meetings as they become available. These meetings will allow for the PEPC to provide accurate and up-to-date information to the public. They will continue their influence on social media to reach out to a broader audience and gain more attention. They will continue to promote beach clean-ups, habitat restoration projects, stormwater mitigation practices and water quality issues.

Illicit Discharge Detection and Elimination

6. Number of Illicit Discharges detected within sewershed of listed waterbody in this reporting period. 0

a. Number reported in 6 that have been eliminated

b. List of Illicit Discharge locations that have not been eliminated in this reporting period and the target date for elimination

Post Construction Stormwater Management

7. Number of Stormwater Management Practices (SMPs) located in sewersheds that drain to the listed waterbody 9

a. Number reported in 7 that have been inspected in this reporting period 0

b. Number of SMPs in need of maintenance or rehabilitation 9

c. Number of SMPs where maintenance or rehabilitation has been performed in this reporting period. 0

d. Number of SMPs where Nitrogen pollutant problems have been identified. 0

e. Number reported in 11d where the pollutant problem has been addressed. 0

f. Who is responsible for performing SMP inspections?

Stormwater Management Practices located within the Town of Riverhead street Right of Way are maintained by the Highway Department
Stormwater Management Practices located on Town of Riverhead properties other than streets are maintained by Building and Grounds

Permit #

NYR20A020

- g. Is the criteria in Chapter 5 and 6 of the NYS Stormwater Management Design Manual being applied? (If no, please describe any deviations) Y N
☒ ☐

- h. State procedures to identify sites with Post Construction Controls that are not functioning as designed (ie, rill erosion, pollutant bypass, outlet structure failure)

Sites that are not properly functioning are identified through resident complaints or Town employees of Highway, Sanitation, and Buildings and Grounds Departments who continuously travel throughout the Town and work outdoors.

8. Describe the retrofit program. Include the funding sources and design description of retrofits. Identify all retrofits that have been constructed and maintained during this reporting period.

The current retrofit program is based on a programmatic approach by focusing on MCM 1, MCM 2, and MCM 6. There are currently no funding sources and retrofit construction is not applicable to the current program. The PEPC received approval of the QAPP from the USEPA and NYSDEC and has been distributed to committee members for local use. This will be used to characterize nitrogen in the Lower Peconic River.

9. Post-Construction Stormwater Management plan and goals for the next 6 months

The recently approved QAPP will be used to characterize the nitrogen in the Lower Peconic River watershed.

Municipal Operations Pollution Prevention/Good Housekeeping

10. Amount by weight in pounds of turf fertilizer containing Nitrogen that was applied on municipally owned lands in this reporting period.

2 2 0 0

11. Describe turf management practices implemented during this reporting period. Include strategies implemented to introduce native plants to reduce fertilization and mowing

2200 pounds of fertilizer containing nitrogen were broadcast on Town of Riverhead grounds

12. Who supervises the application of Turf fertilizer containing Nitrogen?

Steve McKay Landscape Supervisor and Grounds Division Town of Riverhead

Progress Report for Part IX.D

Permit # NYR20A020

Watershed Name

Meeting House Creek

MS4 Name Town of Riverhead

Reporting Period Ending

(mm/dd/yyyy)

03 / 09 / 2021

Watershed Improvement Strategy

Describe the strategy to reduce the discharge of nitrogen to this waterbody. Include new sources that may have been identified and any modifications to the strategy to better address new sources.

The historical operation of duck farms is the apparent major nitrogen source from stormwater in Meeting House Creek. Tidal flushing through Meeting House Creek which is previously the site of a duck farm serves as a continuous source of nitrogen to Meeting House Creek. Monitoring of the single Town outfall in Meeting House Creek should remove this waterbody and its tributaries from the TMDL list.

The Town of Riverhead will vie for monetary grants either on its own or with the Peconic Estuary Protection Committee

The PEPC consists of; Suffolk County, Brookhaven Town, East Hampton Town, Riverhead Town, Shelter Island Town, Southampton Town, Southold Town, Greenport Village, North Haven Village, Sag Harbor Village, and NYSDOT.

Public Education & Outreach**1. Description of the education program**

Due to the coronavirus pandemic, all meetings, gatherings and committee correspondence were performed through a virtual format. The PEPC provided four meetings open to the public; 06/04/2020, 08/05/2020, 12/02/2020, and 02/03/2021. The PEPC also designed and implemented a new website at, www.PeconicCommittee.org. This newly launched website has created a user-friendly resource to access the up-to-date information on storm water management and water quality issues and mitigation. The PEPC also promoted area beach cleanups and habitat restoration projects. The PEPC continues to provide outreach materials and relevant information on their social media accounts of Facebook (1,993 reaches) and Twitter (797 impressions).

2. Who is the target audience and what is the message delivered to each target audience?

Our target audience is the general public and the public school system in the Town of Riverhead. The Town of Riverhead hosts two STOP Days per year in October and May to provide public education and opportunity to achieve the proper disposal of household chemicals, pharmaceutical products, electronics, automotive products, and lawn and garden products. Bi-monthly PEPC meetings serve to inform the public about comprehensive planning projects. The PEPC has an extensive catalog of all their meetings and informative links to provide the public with the most up to date information about water quality protection and stormwater mitigation.

3. Identify how many educational materials have been developed and distributed

c. Nitrogen concerns with fertilizer use

5 0

d. Nitrogen concerns with grass clippings and leaves entering the MS4

1 5

Permit # NYR20A020

5. Education plan and goals for the next 6 months

The PEPC will continue to provide representation at all work-groups, advisory committees and collaboratives either on a virtual platform or in-person meetings as they become available. These meetings will allow for the PEPC to provide accurate and up-to-date information to the public. They will continue their influence on social media to reach out to a broader audience and gain more attention. They will continue to promote beach clean-ups, habitat restoration projects, stormwater mitigation practices and water quality issues.
