(631) 727-3200 Ext. 601

## **NYSFC 507.5.5 Clear Space Around Hydrants**

A 3-foot clear space shall be maintained around the circumference of fire hydrants,

# **Keep Fire Hydrants Clear of Snow**

*Every second counts in an emergency*

- ❶ Remove snow and ice from the hydrant
- ❷ Clear an area approximately 3 feet around the hydrant
- ❸ Clear a path from the hydrant to the street

3 feet

3 feet

In New York State, the law requires homeowners to clear snow or ice from around fire hydrants within 24 hours after a snow or ice event. This is to ensure that firefighters can access the hydrants quickly during emergencies. The law also mandates that property owners maintain at least 3 feet of space around fire hydrants to prevent delays in emergency response. Failure to comply with these regulations can result in fines.
