

Subject: Letter of Intent

13 May 2018

To whom it may concern:

I am Victor Sánchez Ruiz. I form part of a company that has 22 stations and hangars throughout Mexico. I am thinking of expanding into United States and I have had preliminary discussions with CAT about locating a MRO facility at Calverton, Long Island. I will be pursuing further discussion exploring the advantages of locating in this strategic part of the North East

I would like to lend my support to CAT as they work to restore the function of this site.

Sincerely

Victor Sánchez Ruiz
