

Minutes of a Regular Town Board Meeting held by the Town Board of the Town of Riverhead at Town Hall, 200 Howell Avenue, Riverhead, New York, on Tuesday, June 3, 2003, at 7:00 p.m.

Present:

Robert Kozakiewicz,	Supervisor
Edward Densieski,	Councilman
James Lull,	Councilman
Barbara Blass,	Councilperson
Rose Sanders,	Councilperson

Also Present:

Barbara Grattan,	Town Clerk
Dawn Thomas, Esq.,	Town Attorney

(Supervisor Kozakiewicz called the meeting to order at 7:02 p.m.)

Supervisor Kozakiewicz: "Tell me when you're ready, Barbara."

Barbara Grattan: "Go ahead, Bob."

Supervisor Kozakiewicz: "All right. Good evening, everybody. Let the record reflect the time of 7:02 p.m. has arrived. Hal, I don't know- do you want to get back up and lead us in the Pledge of Allegiance? Hal Lindstrom. I saw you standing up, I was going to try and catch you before you sat down."

(The Pledge of Allegiance was recited, led by Hal Lindstrom)

Supervisor Kozakiewicz: "Okay. All right. The first item that was on the Agenda tonight was the approval of minutes from the last Town Board meeting. They are still being prepared and have not been circulated for review by the Town Board. Therefore, that matter will be taken up at our next Town Board meeting.

Barbara, Reports."

REPORTS:

Receiver of Taxes	Total collections to date is \$53,226,461.27
Town Clerk	Monthly report for May. Total

Police Department

collected \$8,329.94

Monthly report for April

Building Department

Monthly report for May

Barbara Grattan: "That concludes Reports."

Supervisor Kozakiewicz: "Thank you, Barbara. Applications."

APPLICATIONS:

Shows & Exhibition Permit

River Festival and Boat Show
June 8 from 9 am to 6 pm

Martha Clara Vineyards June 21
3 pm until 11 pm, is a wedding
reception

Martha Clara Vineyards June 7
3 pm to 10:30 pm, that's also
a wedding reception

Marine Helicopter Squadron 361
July 5 and 6 9am to 5 pm
military display, jeeps and
trucks

Site Plan

LIPA, Edwards Avenue sub-
station

Barbara Grattan: "That concludes Applications. No, parade
permits."

Parade Permits

Theatrical Teamsters Local 817
May 27

Riverhead Business Improvement
District June 7 9am to 10 am,
a run

Riverhead Central School
District June 3rd, Riverhead
High School Budget

Riverhead Central School
District June 28th 10 am to 12
pm, Riverhead football field

Barbara Grattan: "That concludes Applications.

Supervisor Kozakiewicz: "Thank you, Barbara. Correspondence."

CORRESPONDENCE:

- Joan Impellizzeri Letter of resignation from the Water District
- Lorraine Sahli Not in support of the general aviation at Calverton
- Long Island Pine Barrens Expresses concern regarding Field Day
- John Volonts Letter in support of the Field Day concert
- John and Laura Reed Thanking Carolyn Hogan for resolving their problem of leaf disposal
- Thurm Recreation Club Regarding Bruce Johnson's presentation and representation to the seniors was faultless

Barbara Grattan: "That concludes Correspondence."

Supervisor Kozakiewicz: "Thank you, Barbara. We have three public hearings on that are ready to get started very shortly. I have one announcement and I'm kind of stealing Councilman Densieski's bailiwick here a little bit and that's notification of a STOP day which will be taking place on Saturday, June 28, 2003.

For those residents who are familiar with this, this is an opportunity to get rid of your pollutants, that are your household waste. This is adhesives, alcohols, antifreezes, aerosols, batteries, gasoline, brake fluid. The one new thing that we'll be doing this year, June 28, 2003, and the hours are 8 a.m. to 3 p.m., 8 a.m. to 3 p.m. We will be allowing residents to exchange their old mercury

thermometers for new environmentally safe digital thermometer. This is a new program and- but there is a limit. Only five returns per household.

So with that said, any other committee reports? Any other- "

Councilman Densieski: "Not with that said."

Supervisor Kozakiewicz: "All right. The time being 7:06 p.m., Barbara, would you read the affidavit of publishing and posting for tonight's first public hearing?"

Public Hearing opened: 7:06 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York on June 3, 2003, at 7:05 p.m. regarding the consideration of the fee simple purchase of property owned by Paula Esposito and Carole Dugan located on the southerly side of Sound Avenue, Baiting Hollow, for open space purposes for \$35,000.00 per acre."

Supervisor Kozakiewicz: "And I presume, Mr. Hoot Sherman, that you're here to address the Board and for the record you're handing up the affidavit of publishing? Okay, thank you."

Hoot Sherman: "Good evening. My name is Hoot Sherman from the Peconic Land Trust. I am here for the open space, the Farmland Committee, to present the- this parcel.

What we have is a 32.7 acre parcel. It's the piece in yellow is the parcel that we're talking about that belongs to Paula Esposito and Carole Dugan and the green area all the way around the yellow area is previously protected land that has already had the development rights sold. It's mostly farmland.

This is an open space purchase. It's 32.7 acres. It's up at Camp Baiting Hollow. It's right at the- down at the bottom of the hollow and going up the west side. The property across the street is mostly the Boy Scout Camp, and I've said there's several hundred acres of protected land around this parcel and this is the last piece in that puzzle. Once you protect this piece, then you protect several hundred acres of open space and farmland in that area.

The purchase price is \$35,000.00 an acre and that is supported by an appraisal which was completed by Pat Gibbons on April 4, 2003. As

I said this is on the south side of Sound Avenue. It's zoned Ag A and its tax map number is 600-60-1-2 and this fills in that block and that whole area will now be protected."

Supervisor Kozakiewicz: "Thank you, Mr. Sherman. Is there anybody else who would like to address the Board with regard to this proposed acquisition on the south side of Sound Avenue, either for or against? Okay. I haven't seen anybody indicate a desire to speak. Therefore, at this point, we'll close the public hearing.

Thank you, Mister- you don't want to stay? I thought they all came for you."

Public Hearing closed: 7:09 p.m.

(Unidentified - from the audience): "Mr. Supervisor (inaudible)."

Supervisor Kozakiewicz: "We have one minute before the next public hearing. If you want to come up to the mike- we've got to get you on the mike."

Unidentified - from the audience): "I just want to ask who all these people are before people speak. We have a right if things are being (inaudible)."

Supervisor Kozakiewicz: "These are various members of the media."

Unidentified - from the audience): "And that's it?"

Supervisor Kozakiewicz: "Well, News 12, News 4, Channel 11, 5, 9, Newsday, CBS, News Review, Traveler Watchman, Cablevision. All right? And that's good because that just ate up the time. The time being 7:10, if you would do the honors, Madam Clerk, and read the affidavit of publishing and posting."

Public Hearing opened: 7:10 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York on June 3, 2003, at 7:10 p.m. regarding the extension to the water district to be known as Extension 75 (Calverton Enterprise Park)."

Supervisor Kozakiewicz: "At this point, our ever present and smiling representative from H2M, Dennis Kelleher."

Dennis Kelleher: "Thank you, Mr. Supervisor."

Supervisor Kozakiewicz: "Dennis, you're a very popular guy. See, they all came out for you."

Dennis Kelleher: "I hope not. Good evening. My name is Dennis Kelleher from the engineering firm of H2M. We are the engineers for the Riverhead Water District.

The public hearing tonight is to discuss the possibility of extending the Riverhead Water District to the Calverton Enterprise Park. We're calling it Extension 75.

Actually, on the top map, I highlighted in blue the existing Riverhead Water District boundaries in this area of Calverton. As you could see, I've also outlined in yellow, the proposed extension boundaries which is the core area of the Enterprise Park.

The core area is approximately 500 acres and it includes approximately 27 existing proposed buildings by a developer. The developer is petitioning the Town Board to extend the Riverhead Water District to provide both domestic water and fire protection to the complex.

It should be noted, approximately four years ago, the Riverhead Water District brought water into the site and excuse me for one second, I'll bring the other drawing up. Again, on this map highlighted in yellow, once again, is the proposed boundaries extension except on this map highlighted in blue is a- locates the water main that has already been installed.

As I mentioned before, approximately four years ago, the Riverhead Water District received a grant from the US EDA, the Economic Development Agency, to bring water to the site. The Water District spent approximately \$1,000,000 to install the water main highlighted in blue.

In order to provide water to the entire subdivision as proposed, an additional 18,000 linear feet of water main will need to be installed. I've highlighted the proposed water main in orange on the board.

We've estimated the water use for the complex once it is fully developed to be approximately 160,000 gallons per day on an average day and approximately 500,000 gallons on a peak day.

Again, we worked closely with the developer's engineers to determine the- actually they provided us the proposed square footage for the future use of the site. And as far as calculating the water use for the proposed buildings, it was based on Suffolk County Department of Health Services standards.

Noting that the Water District is in the planning stages and construction stages of two new wells at plant #11, once those wells are completed we will have sufficient capacity to provide water to this site. Well #11-1 is just about completed. Probably within the next month it will be ready to go on line and well #11-2 is in the design stages right now.

The estimated cost to installing the water main to the entire project is \$885,000. That cost includes engineering costs, engineering construction costs, inspection and contingencies. This entire cost would have to be paid by the developer at no cost to the residents of the Riverhead Water District.

In addition to that as following normal policy, the Riverhead Water District, a key money charge is charged to anyone hooking up to the Riverhead Water District and in this case it is based on an equivalent water use on a single family basis. That 160,000 gallons per day average daily flow is equal to 520 single family homes. And utilizing the existing key money charge of \$2,500 per single family home, the total key money amount for this complex would be \$1,300- excuse me, \$1.3 million dollars.

Also it should be noted that these costs do not include the costs of installing both the domestic and fire service lines to any existing or proposed buildings. That would be the responsibility of the building owner and they would have to comply with the Water District regulations and the Suffolk County Department of Health Services standards as far as back flow prevention is concerned.

One thing I didn't mention is there are several buildings already on the site that are hooked up to the Riverhead Water District. They are not located- they are not officially in the Riverhead Water District boundaries. However, they are provided water under a contract basis so they are charged actually extra money compared to the regular water use bill.

Thank you."

Supervisor Kozakiewicz: "One question. When you anticipate the total water usage, you said you used Suffolk County Department of Health standards to determine that. Was that based upon trying to guesstimate what types of uses would ultimately locate there?"

Dennis Kelleher: "Actually, we did not guesstimate it. It was based on the developer's engineers provided- told us whether they thought it would be a dry type operation or a wet type operation. So we had a combination. An office building is one classification; storage is another type of classification."

Supervisor Kozakiewicz: "Okay. Or warehousing."

Dennis Kelleher: "That is correct."

Supervisor Kozakiewicz: "Okay."

Dennis Kelleher: "Of course, the Riverhead Water District has the right later down the road if a developer comes and wants to develop a brewery for example that uses a tremendous water use, that key money charge will be recalculated at that time."

Supervisor Kozakiewicz: "Thank you. Is there anybody else who would like to address the Board on the- Mr. O'Callahan."

Jim O'Callahan: "Good evening, Mr. Supervisor, Members of the Board."

Supervisor Kozakiewicz: "Can everyone hear him? Bring that mike up a little more, Jim, and then state your name and who you are here on behalf of."

Jim O'Callahan: "My name is Jim O'Callahan. I work for the firm of (inaudible) Associates in Syosset and I'm here on behalf of the applicant."

Just to confirm what we discussed over the past number of months and more specifically over the last couple of days. I'm just going to read a statement into the record for both this hearing and for the one that follows regarding the extension of the Sewer District.

It's addressed to Supervisor Kozakiewicz: As outlined in the letter of May 30th from Steve Petty (phonetic) to the Town Attorney

there are significant contractual, technical and economic issues relating to the proposed extensions of the Riverhead Water District and the Calverton Sewer District. We believe these issues can be resolved but that process will require additional time and discussion with the town and the district's representatives.

Therefore, we respectfully request that this evening's hearings be kept open until those issues are resolved.

Thank you very much."

Supervisor Kozakiewicz: "I have a question, Jim, or a follow-up. For the record, we did speak and had a discussion regarding both the water district's extension as well as the sewer district extension and I think the way it had concluded was that we- there was originally a request that we withhold or adjourn or not hold tonight's public hearing and I thought that that wouldn't be the right thing to do since this had been noticed and posted.

If there's a need or there's discussions which I'm not saying were in any way, shape or form opposed to, I think it would be a good idea for the consultants, both consulting engineers, to get together as well as the applicant and our staff to look at the questions that have been raised in that letter that you made reference to from Mr. Petty.

There may be a need to call for another meeting if it results in substantive change to the hearing that's before us tonight, whether that be cost or otherwise.

Saying that, would it be better to close the public hearing with the understanding that there would be future discussions and if there's a need because those changes are substantive in nature to call for a second public hearing. That would seem to be more logical to me."

Jim O'Callahan: "I'll leave that to your judgment, Mr. Supervisor. Our concern is that the Town Board not act before those discussions have taken place."

Supervisor Kozakiewicz: "As I said to your counsel- I mean his counsel and to your side this morning, I understand that you've attempted to reach out to work out this situation in an amicable fashion and to the extent we can accommodate that, I don't have a problem. At some point we may need to act upon this if both sides

agree it's the right thing to do or it's the only remedy but it would seem better to get all the comments today, close the hearing and, from my standpoint, it wouldn't make sense to proceed forward if there's questions still outstanding and it would make abundant sense to meet, have everyone sit in the room, including maybe Suffolk County Department of Health Services as an interested agency and, if need be, then call for another public hearing. It would seem more logical to do it in that fashion."

Jim O'Callahan: "As long as there was no resolution adopted as a result of tonight's hearing. I think that's- we agree on that."

Supervisor Kozakiewicz: "Okay."

Jim O'Callahan: "Then we have no objection to closing the hearing and if the discussions are fruitful, then the resolutions can perhaps be adopted without a further hearing. But if another one is necessary, we would support that as well."

Supervisor Kozakiewicz: "Very good. Thank you."

Jim O'Callahan: "Thank you."

Supervisor Kozakiewicz: "All right. Anybody else who would like to address the Board on this proposed hearing which is an extension of the Riverhead Water District into the Calverton properties to cover the lands aforementioned by our consultant? Okay. Nobody having indicated a wish to do so, I am going to declare the public hearing closed, the time being 7:20 p.m."

Public Hearing closed: 7:20 p.m.

Public Hearing opened: 7:20 p.m.

Supervisor Kozakiewicz: "And at this point in time, we'll go to our third and final public hearing. Barbara, if you'd read the affidavit of publishing and posting, please?"

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York on June 3, 2003, at 7:15 p.m. regarding the extension No. 1, Calverton Sewer District."

Supervisor Kozakiewicz: "Wishes to speak? Oh, we have, that's right. There's a request to keep that open. That's right. Thank you for reminding me. Yes, would you please state your name and who you're representing for the record, sir?"

Frank Russo: "Yes. My name is Frank Russo. I'm with H2M and I'm here to present the extension of the Calverton Sewer District, that being the first extension.

Where there's a need for water, there's also a need for sewage treatment and collection. The developer petitioned the Town Board; we prepared a map and plan. I'm going to present the results of that map and plan.

The- as Dennis had said, the flow is approximately 165,000. With contingencies and to allow for future change of use within the development, we estimated 200,000 gallons per day as a design flow for the collection system. Using those same standards used for water consumption, that flow number was derived.

All the sewers- the existing sewer district is outlined in orange and the proposed is outlined in red. The entire extension involve eight inch diameter sewers, approximately 9,660 feet, approximately 42 manholes. Lots A101, A6, A13, B11 and B13 are proposed to be serviced by building owner pump stations. That was in order to reduce the capital expense and not go deeper with the gravity sewers. So an analysis was done on a cost effective basis to limit the overall capital cost of the project.

The reconstruction of two existing pump stations will also be necessary since the additional flow would far exceed the capacity of those pump stations.

The plan calls for constructing two new stations and demolishing the two existing. Additional land would be necessary in order to build those two new stations. Another new pump station would also be required in addition to the renovation of those two.

Approximately 5,900 feet of force main would be required to pump the wastewater to the existing site of the treatment plant. At the treatment plant, there's a main pump station. That pump station is not included under this project since that's a common element to the sewage treatment plant and that cost will be picked up if and when the expansion or upgrading of the existing sewage treatment plant took place.

The total costs which are to be paid directly by the applicant in accordance with the Calverton Sewer Use Code, pump station construction contracts, \$2.3 million; gravity sewers and force main construction contracts, \$2,350,000; miscellaneous costs, engineering, (inaudible) tests, surveys, \$865,000; that being the total project cost \$5,155,000.

There also is pursuant to Town Board resolution 426, which adopted a \$4.20- \$14.20 per gallon per day to be established as a nitrogen induction fund. That's to help offset the cost of the construction of the new sewage treatment plant.

Assuming 165,000 gallons per day of flow, that key money charge to be paid also by the developer would be \$2,343,000. And, as I said, that would go towards the construction of that treatment plant.

Thank you."

Supervisor Kozakiewicz: "One thing that I think we ought to mention. When this property was sold to Burman, one of the things that was required by Suffolk County Department of Health Services, that covenants be filed which, in fact, require all new construction, all new buildings, to have public water as well as public sewer which is part of the reason and what's driving part of this and it's the right thing to do in light of the PEP and other things. But I just wanted to make that part of the record that part of the reason we're here is because of those covenants that were required to be filed when the property was transferred back in 2001. Thank you.

Anybody? I know Mr. O'Callahan you probably want to put on the record again your objections and comments, so I'll let you do that first. And, again, for the record state your name and who you are representing. That's better. Okay."

Jim O'Callahan: "My name is Jim O' Callahan. I represent (inaudible) Engineering on behalf of the applicant.

The statement- to save time if the record could show the statement that I read earlier in the previous hearing applies to this one, I would appreciate that.

I have nothing further to add. Just one side comment or question, if I may. Regarding the resolution to approve the CDP, will that be acted on this evening- "

Supervisor Kozakiewicz: "Actually, I reached- I wanted to reach out to the parties. Because of the items addressed in Mr. Petty's letter, I did speak to our consultants as well as the Planning Director. There are too many open issues to be quite honest and I left word with Mr. Cammeran (phonetic) at his voice mail, and I also spoke with Jack to advise that because of those issues, we could not take it up today. I know that's regrettable and I wanted to reach out to Mr. Cammeran and I'll try to do that if we conclude early enough today to let him know that."

We do have the consulting engineer here next Tuesday, Mr. O'Callahan, and he is prepared to address these issues and hopefully we can take them up at our next meeting. But there were too many outstanding issues to deal with it tonight and have unfortunately a problem in having to revisit it and revisit it. It didn't make a lot of sense to do that."

Jim O'Callahan: "I understand. Can we count on it being on the agenda for the next meeting?"

Supervisor Kozakiewicz: "Assuming that we can get together next Tuesday and all the parties agree on the language and what's acceptable, yes."

Jim O'Callahan: "Okay. Is that the Tuesday morning- "

Supervisor Kozakiewicz: "That's the Tuesday morning when we go through site plans and other issues with Mr. Gordiello (phonetic) of Raynor's office."

Jim O'Callahan: "So we'll plan on being there- "

Supervisor Kozakiewicz: "Absolutely. Next Tuesday."

Jim O'Callahan: "All right. Thank you very much."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board with respect to the sewer extension? Yes, Larry Oxman. Please state your name."

Larry Oxman: "Good evening. Larry Oxman, Eastern Long Island Commercial Real Estate, Riverhead, New York. How will the tapping into the sewer district affect those parcels that are already in the sewer district but haven't utilized it, vacant land along Route 58 as an example."

Councilman Densieski: "Different district."

Larry Oxman: "It's a different district- "

Councilman Densieski: "This is the Calverton Sewer District."

Supervisor Kozakiewicz: "Are you talking about the properties that are across the street, Mr. Oxman, from- on the south side of Grumman Blvd.?"

Larry Oxman: "Is there going to be a new sewage treatment plant or is this going to the same sewage- "

Councilman Densieski: "It's a different- it's not the Riverhead Sewer District. This is the Calverton Sewer District."

Supervisor Kozakiewicz: "This is Calverton Sewer District at the Calverton property."

Larry Oxman: "Okay."

Supervisor Kozakiewicz: "Separate sewer district."

Larry Oxman: "Very good."

Supervisor Kozakiewicz: "Thank you. Mr. McCallister."

Kevin McCallister: "Good evening. Kevin McCallister, Peconic Bay Keeper. It's been some time.

First off, if you don't mind, I'd like to thank you for being gracious as a Board to allow me to keep the boat in the town of Riverhead on the river. I think it's a great presence and certainly allows me access.

I'd also like to publicly applaud you for moving forward to try to be progressive with the Riverhead sewage treatment plant with the reuse of gray water on the adjacent golf course and any support in that effort that I can provide, I'd be happy to do so.

With respect- "

Supervisor Kozakiewicz: "Well, then we're going to ask you to come by quite often and write a lot of letters for us then."

Kevin McCallister: "Actually, Councilwoman Blass brought that up- "

Supervisor Kozakiewicz: "Before you leave, speak to Frank and make sure you guys team up."

Kevin McCallister: "I think it's important progressive action and, again,-- "

Supervisor Kozakiewicz: "We agree."

Kevin McCallister: "-- it's cutting edge technology and there's no reason why it shouldn't be applied. So, again, kudos to the Board for pursuing that vigorously.

With respect to the Peconic River, it's a stress system right now. The nitrogen loads are significant. Unfortunately the river during the summer months, warm weather months, excuse me, have conditions that aren't necessarily best for supporting life in that river system. Obviously as this Board knows, I'm paying close attention to the discharge permits out there in the entire Peconic basin.

In fairness to the Board, obviously this is properly noticed but I'm not up to speed on this expansion with respect to Calverton. I just ask you to really pay close attention to this and subscribe to the necessity of ensuring that excess nitrogen is not coming into the system. Because I really feel firmly with data that we're at kind of a threshold level and our movement should be reducing the nitrogen loads and certainly not increasing them.

And obviously you have an important charge in managing that property or expanding it with respect to its appropriate use, but bear that in mind.

Mr. O'Callahan, if I'm not mistaken had asked that in consideration of maybe some unfinished business with this, would ask that the public hearing be kept open and I would also probably emphasize that as well. Again, obviously you have that consideration. But I'd like to come up to speed on it and I'm obviously only one person of many, but it's important for me to be aware of what the plans are here and obviously with respect to my charge and my mission to ensure that, you know, this is properly being processed with respect to what's before you. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address us with respect to this proposed expansion of the Calverton Sewer District or extension I should say. Okay.

With respect to keeping it open, I've heard the comments and, again, I'm going to repeat what I've indicated to Mr. O'Callahan earlier. I am aware of the commentary that was put forth in a letter that was addressed by counsel, Mr. Petty, to our town attorney, Dawn Thomas. There have been issues that have been raised with respect to the cost and other aspects of the proposed extension and its engineering.

I think, however, that to conclude today, I would close the public hearing and certainly I would also again repeat myself and say that I encourage further discussions with the appropriate agencies including the Suffolk County Department of Health Services, Mr. O'Callahan and staff from (inaudible) Engineering as well as our consulting engineers, H2M.

And, again, if there's a need, then we'll have a separate public hearing in order to address the extension should it need reconfiguration or change substantively. So, unless there's further comment, Jim. I now you're up there. Maybe you have some further things to add?"

Jim O'Callahan: "No. Just to correct what the previous speaker said. We have no objection, as discussed, to closing the hearing--"

Supervisor Kozakiewicz: "Okay."

Jim O'Callahan: "--this evening and moving forward."

Supervisor Kozakiewicz: "Okay."

Jim O'Callahan: "Thank you."

Supervisor Kozakiewicz: "Thank you. And, again, if it changes, we'll certainly get it out there in the public what those changes are to ensure that the integrity of the Peconic Estuary and the plant itself and the proposed extension works.

Sandra Mott, do you wish to address us on the extension? Okay."

Councilwoman Blass: "I have a question, Mr. Supervisor, if I could?"

Supervisor Kozakiewicz: "Yes."

Councilwoman Blass: "Is a copy of the map and plan with respect to the extension of the sewer district available in the Clerk's Office if Mr. McCallister would like to review it?"

Supervisor Kozakiewicz: "Yes. What H2M does, is when that map and plan is ready, they deliver it to the town and a copy is delivered to the Town Clerk's office to be available for public inspection."

Councilwoman Blass: "Okay."

Councilman Lull: "Why don't you also make it clear that Tuesday would be- if they can be able to be here Tuesday?"

Supervisor Kozakiewicz: "Who's that? Jim?"

Councilman Lull: "Kevin."

Supervisor Kozakiewicz: "Oh, Kevin. Yeah, that will be with the consulting engineers. I'm not sure if you heard that. We're going to have discussions with the consulting engineer representing us on the Planning Board process here, next Tuesday, at 10:00. He's agreed to make himself available to discuss these issues. So, we'll be- they'll be meeting here.

That being the case, no further discussion or nobody else who- anybody else wish to speak? Okay. Time being 7:34 p.m., we'll declare the public hearing closed."

Public Hearing closed: 7:34 p.m.

Supervisor Kozakiewicz: "And as so pointed out by Madam Clerk, we did have an outstanding public hearing that was left over from two weeks ago which, I understand, we've received a written letter from counsel, law office of Peter S. Danowski, which is asking that the matter be kept open for two weeks. Is that correct?"

Barbara Grattan: "That is correct."

Supervisor Kozakiewicz: "All right. Is there any objection from the Board?"

Councilman Densieski: "No objection."

Supervisor Kozakiewicz: "Okay. We'll grant that request. It will be kept open for two weeks to June 17th. The only note I would have is that that is an afternoon meeting, 2:00 is when that meeting begins as opposed to the regularly scheduled time of 7:00. Okay? Thank you.

At this point in time, that concludes public hearings. It's time to open up the floor to resolutions that are pending before us. A couple comments and a couple things I'd would like to say before we open up the floor.

One thing I failed to do and I want to give- and it has nothing to do with the resolution, it has to do with the comment I made earlier about the STOP collection date. I want to commend Councilman Densieski who was involved in that program to exchange the mercury thermometers for the more modern thermometer so thank you, Ed, for instituting that.

Also, I know that there's many of you probably here to talk about the master plan. There was a resolution that had been prepared today in order to call for a public hearing to deal with the master plan. That had been done in anticipation of having comments back from the Planning Board. Under the Town Law Section 272 A this town board had referred to the Planning Board to take action upon the planning- upon the comprehensive land use process.

Under that section of the law, they were charged with preparing a comprehensive land use plan and they have been also charged with and must hold public hearings which they did in November of 2002. They are also required by 272 A of the New York State Town Law to provide a written report to this board at which time we are obligated- it says we shall not may, not could, but we shall hold our own public hearing to receive commentary from the public with respect to the recommendations that have issued from that body, namely, Planning Board.

It would be unfair and I think disingenuous for this board to adopt that resolution- and I've talked to many of my colleagues when it became apparent that this resolution had come on in anticipation of things happening in that fashion to proceed forward today without the recommendation and the report of the Planning Board. I think it's the better process to have full disclosure, to have that recommendation of all the chapters, all the comments, all the changes that are being

proposed by the Planning Board before us so that we can in good conscience and as required as public servants, to state that we are agreeing to go out to a public hearing to hear from you, the residents of the town of Riverhead, on whether the comprehensive land use plan and the recommendations that have been brought back to us by the Planning Board, are what we'd like to see.

Therefore, as far as today's resolution, it is my hope and desire that the Town Board will agree to withdraw it with the understanding, and I have talked to the Planning Board and I have talked to staff and I implored them that this is not something that can be sat on, that this is not something that should wait anymore, that this is something that must be addressed and must be addressed now.

I have told them that it's got to be addressed by our next Town Board meeting which is June 17th, so that we can in compliance with 272 A of the New York State Town Law, go out, call for a public hearing, give the public an opportunity to see the changes by not only having them available in the Town Clerk's office as we must do, and not only issue a public notice in the papers, our official papers, as we must do, but in addition thereto, to make sure that it is published and posted on our web site so that anybody who wishes to know what those changes are, for all of you who have been following this process intently and closely, you'll be able to see the changes, the deletions that have been proposed by the Planning Board and then allow for you to make a knowledgeable and correct comment to this board as to what we need to do in order to follow the State law and adopt that comprehensive land use plan."

Unidentified - from the audience: "You know how we feel- "

Supervisor Kozakiewicz: "Wait, wait, wait, hold on. Hold on. Sir, Mr. Amper, I will recognize you. I'm going to allow everybody to speak. As I indicated, the Planning Board has been told, or the planning staff has been told in no uncertain terms, that we need this report now. Thank you.

All right. At this point in time, I open up to resolutions, discussion resolutions. Sandra Mott."

Sandra Mott: "Sandra Mott. I've lived in the town of Riverhead 10 years, not as long as many people but long enough to see a lot of things happening. I'm referring to your Field Day resolution 668 and 669. You can't hear me? Your mike on?"

Councilman Densieski: "I don't know, check the switch."

Supervisor Kozakiewicz: "It's on."

Sandra Mott: "In 10 years, I've been here a long time, I've seen a lot happen. In a nutshell, your Field Day resolution 668 and 669 is one of the worst fiascos that has come across the desks of this community. One month ago, I was here, I listed my concerns. I've read them all over and over again in the paper. I'm here again approximately a month later and I'm going to protest this unplanned fiasco once again.

Obviously there's a lot of media interest. The town has been squandering an opportunity. Had this been planned properly, it would have been an asset. It has not been planned properly and it's a great deficit.

Let me repeat some of my concerns. Top of the list. Traffic as we know is going to be totally, totally uncontrollable. As we all know, we live on Long Island. There is no evacuation plan. My second concern has always been the security both local and national. We are in a situation where we are surrounded by Brookhaven National Laboratory, Shoreham, Plum Island, Millstone, all major and specific targets of potential terrorists. Mr. Hagermiller, the head of the police department, he was quoted in the paper, was told that there are cells at this end of the island, he was told by the FBI.

You are going to have 50,000, 80,000 people whatever the number gather without adequate security, to get them in, to maintain them, to get them out, not to mention your local citizenry who actually vote in the community. Fifty to 80,000 people is a lot of people. You're getting \$150,000 for this fiasco which as we broke it down before, 50,000 people into \$150,000 leads to \$3.00 per person over approximately three days, that's \$1.00 a head. It's going to cost you a lot more than that, as we've all read in the newspapers recently.

This is a joke; this is a waste of time. This is energy wasted by not only you, Mr. Kozakiewicz who should not be making all this extra effort for a private developer and promoter and so on. You should be working to protect us. You were voted by us, not by these outside people who I don't mind making money- who I do not mind making money but obviously we've got enough interest here with all these different media sources here that this could have been a very good thing for the town. It's turning out not to be.

The wildlife issue, the sanitary facilities. Do you mean to tell me 600 port-a-potties are going to be enough for all these people? And what condition are they going to be in? What kind of temperature is it- are they going to be? How much will they be drinking, either non-alcoholic and alcoholic? And what are they going to do to the woodlands? Once you have human feces and waste you will not be able to utilize it for the recreational facilities that you wish it to be.

To make a very long story short, it's also within the Scenic Wild River Act which is a mile and there is all kinds of restrictions. I am sure you know better than I.

And what about the lyme disease, the West Nile disease, the malaria? What happens? Do these people know that we have that here? We have that here because it started here. Are you going to advise these people? Because otherwise we're going to be negligently responsible to allow people to come in and get sick with diseases that are life threatening and not short term and don't show up immediately.

In addition to that, I'd like to know how Mr. Burman feels about this fiasco coming to his neck of the woods and his tenants and, which I forgot to mention and I did forget it and remembered it on the way home, what about the potential issues at the Calverton National Cemetery? I don't want to read about Joey McClellan saying, well, they don't get buried on Saturday. I don't care when they get buried. They're there. The people want to visit them without a horrendous mess across the way.

And as Ed asked me before, I didn't want the County Fair. It's a different formula. You've got children; you've got parents; you've got a different set of circumstances. But as to Joey, he's got to formally apologize to the veterans of the community because it's a disgrace and he should be put out of his position immediately. My father is a veteran, we have neighbors who are veterans, we have family who are there. You have a hell of a nerve to be disrupting the people's lives. People do this and it's a disgraceful remark by Joey and if you're going along with it, then it's a disgraceful remark for all of you.

It's an attitude that has to change. The liability that the town is going to have which we already have many lawsuits and we're setting us up good for this one, it's a waste of taxpayers dollars. It's a waste of time and you should be doing your job for us and not for them. Because remember, a vote no or the boys will go in November. Thank you."

Supervisor Kozakiewicz: "Mr. Amper."

Richard Amper: "Let me understand your earlier remarks. There were three resolutions that we were concerned about tonight. One dealt with the GEIS for this plan, one for the master plan, and one for a committee that would help with implementation. Are any of those items on the agenda tonight?"

Supervisor Kozakiewicz: "The committee will be taken up and voted upon."

Richard Amper: "So I can talk to that resolution anyway?"

Supervisor Kozakiewicz: "That's correct."

Richard Amper: "We've all been very consumed about this ill conceived concert but the most important thing ever to come before this town in the last decade is this master plan. This concert will be gone tomorrow. Riverhead's future is still before us and we need to turn away from that concert tonight and toward Riverhead's future.

The people have reached out to you, to all of you, and they've made it clear that they want to be partners with this town over this master plan. They've volunteered, they've held public meetings, they've attended public hearings, they've submitted testimony, they've reviewed other testimony, they've offered to summarize it, they came to you and said in a work session that they would sweep the floors of town hall if only you would adopt their plan. It hasn't happened.

We can't stick it on the Planning Department or on the Planning Board. We did not elect those people. The people of Riverhead elected you and we must now move this forward. The citizens came to you as friends, sat down with you as partners, and they are slowly but surely moving away into an atmosphere of confrontation, the sort of confrontation you try to avoid with me every time you can.

Now it's not just the loud mouth from the Pine Barrens Society. It's almost everybody in this room. They've waited and waited and they have nothing to show for it. They do not know whether everything they've said and everything they've written, every meeting they went to, has been listened to at all. They do not know what their effort has been about. And still they care and still they believe and still they're here in numbers to say this has to happen and it can't wait.

With respect to that ill considered concert, no thanks to

Riverhead that we are sitting here a mere 72 hours before as many as 50,000 people depend or descend on this town in the hamlet of Calverton in the pine barrens. Bad idea then, bad idea now. We're asking you to dispose of it tonight, for the county to dispose of it tomorrow.

And then we're asking you to sit down with your citizens in ways we've asked you to with respect to the master plan, with respect to the next concert that you have in mind in August and see if we can figure out where to do it and how to do it. Because this was not lost to a sparrow or a salamander. It was lost to poor planning and bad police protection. Let's not repeat this mistake again, please. Thank you very much."

Supervisor Kozakiewicz: "Next speaker, please. Eve, do you want to speak?"

Eve Kaplan: "My name is Eve Kaplan. I'm a Riverhead resident and I am the Riverhead coordinator for the North Fork Environmental Council. For those of us who- those of you who don't know us, we're a thousand family grass roots group and we've been working on helping get the master plan adopted and implemented since it was begun more than four years ago.

I'd like to point out a couple of things and the fact that I was very excited and I think we were all- at the rally outside we were all very excited to hear that these public hearings were going to go forward. Because this is the first real movement that we've heard in about seven months, since I attended both Planning Board hearings. I have been in almost every Planning Board meeting for the past three years, most of their work sessions, most all of the Town Board meetings.

And I tell you that I know something about planning. I have learned something about planning in the meantime. So I'm very disturbed to hear that this is not going to happen. And I'd like to present you with something that the Last Chance Riverhead Coalition has been working on for about a month and a half. And what it is is essentially the exact same thing that you are about to receive from the Planning Board except that they've been working on theirs for more than seven months and you still don't have it and it appears to me that they are now holding you hostage and I'm not sure what the reason is but I just heard from the Planning Director that he's- it sounds to me that there is more concern that there is no statutory limit to the amount of time that the Planning Board can hold the plan than there is

with moving this forward.

So I'd like to present you with the citizens' master plan and I hope that you will look at these recommendations, 95% of which is the same as what you have released to the public. Because it's a good plan. It's not something that needs to be sat on for a year and most of it doesn't even need to be debated. You and the citizens who- such as myself and other civics and environmental groups that served on the Citizens Advisory Committee, we worked diligently for years to give our input and much of that input was included in the plan, not all of it, but much of it. And, therefore, much of the plan is a good plan and the parts that were not included we have inserted here and there are a few recommendations which we have crossed out.

So, hopefully, you will look through this very seriously and we need to see these hearings go forward. That's all I can say. We had scores of people outside who agree. You have thousands of people who are residents who as previously speakers have said agree and will remember this in November. This is the most important issue to face our town. We're losing everything that we love about Riverhead day by day and we can't afford to lose it any more. Thank you."

Supervisor Kozakiewicz: "Thank you. Barbara, do we have any other cards from speakers?"

Barbara Grattan: "Yes, we do."

Supervisor Kozakiewicz: "I forgot to ask you that. Okay. Oh, I'm sorry, you're up there to speak, sir? Yeah, go ahead. Why don't you indicate your name and address, please, for the record?"

Alan Stabler: "Thank you very much. My name is Alan Stabler. I live in the town of Brookhaven in Ridge. I'm a member of the Board of Directors of the Ridge Civic Association; I'm a member of the Long Island Sierra Club. Not all the comments that I'm going to make are representative of them but most are.

I'm going to speak about- by the way, good evening, and I'm going to speak about the concert, resolution 668 and 669. This message cannot properly express the outrage and concern that we have as a community over the concerts and camp outs that are scheduled to take place at Calverton this summer and beyond, I repeat, and beyond.

Zoning of the Calverton property should have been revisited a long time ago but that's another story. The surrounding protected

pine barrens core area of the festival with all of its beautiful and fragile coastal plain ponds, is a very easy short walk from the old runway. What assurances do we have that enforcement personnel can adequately contain such a huge crowd? How about the concert's hired private security guards? Realistically, what are their qualifications; what is their background?

As you recall, even many of the federal transportation security administrations, they hired security personnel and they were wrongly hired, later proven not to be qualified. Also it is allegedly, it's one police officer for every 3,000 attendees, many teenagers. Is that realistic?

Notably, I would like to point out that this area has one of the densest populations of deer on Long Island. The deer will be running scared onto the roads, revving up the local auto body business creating a nuisance to neighbors and police who will be forced to put down many injured animals.

Is there any chance of challenging the zoning of this property at this at a later date? Hopefully, that's also another story.

Some opinion suggest that Riverhead is behaving in a surly, narcissistic and irrational manner. Their modus operandi is to make a quick buck no matter where and no matter how. As the Board is keenly aware, 90% plus of the festival attendees will arrive from the west. Because Riverhead is the gateway to Long Island's dead end, the north fork, which I love by the way. But realistically and logically, it's a dead end. No way is the north fork as densely populated as points west.

These concerts and camp outs to our knowledge to date have been planned in an ignorant and careless manner. What about the assault that if it takes place upon the lives of the citizens residing in eastern Brookhaven and west of Riverhead, at the fringes of Riverhead anyway.

At present, the road network was not designed to handle the imminent festival traffic. Gridlock and bumper to bumper humiliation will be forced upon Riverhead's western neighbors, specifically the town of Brookhaven and Ridge where Route 25 crosses over the William Floyd Parkway. This interchange has been a total confusing mess because it is under total reconstruction with only one lane operating in either direction. There have been many accidents occurring there since the reconstruction. Many of the accident victims had to be

airlifted to hospitals for immediate treatment.

We do not care what those temporary DOT information signs to be erected along the 495 east of exit 64 will state. The results of on line mapping are what most people rely on these days. On line mapping directs drivers to utilize the William Floyd Parkway as the best route to and from the festival site. Somebody will have to pay when an impatient and allegedly problematic concert goes, potential DWI's and DUI's will be racing through our neighborhood in search of shortcuts, terrifying, excuse me, and endangering our children.

Is there anyone listening to us, anyone who will step up and show that they honestly care?

We are disturbed about the festival's pollution, including light and noise pollution, crime, garbage and the preparedness of local emergency services to routinely protect the taxpayers and the nearby citizens- senior citizen complexes.

Everything we read in the local Riverhead newspapers mentions the positive economic impacts upon the town of Riverhead. If the town of Riverhead is truly to reap the benefits, then let Riverhead deal with the traffic within its own borders. Move the inbound and outbound traffic via the shortest way possible, by way of Edwards Avenue or is that too logical of a solution? Don't bother us with it.

Supported by means of our taxes, the police should not be bothered with this concert BS but terrorism is a concern. The costs to keep us safe from the concert is staggering. How about all the garbage such as beer cans, soda cans, cigarette butts, alcohol bottles, wine bottles, condoms, drug paraphernalia, paper goods, and Lord knows what else? Yes. Put us in ecstasy and stop this now by the way, stop it now. We want natural ecstasy. Stop this- absurdities going on.

Okay. All this garbage will be strewn throughout the roads, parklands, conservation areas, wildlife preserve, cemeteries, and neighborhoods within Brookhaven town and elsewhere. Who pays by the way for the Town of Brookhaven to clean this stuff up? Who pays? Notably, recognize, respect and appreciate those grieving families sadly burying or visiting deceased love ones across the roadway at our nation's largest, national veterans cemetery. Why are you punishing and disrespecting our veteran heroes and their families with gridlock, noise, light pollution and a mass crowd approximately the size of Levittown. Shame on you. Shame.

The concert and camping must not be allowed because of its close proximity to the Brookhaven National Lab and because of current terrorism concerns, not to mention all the other unmentionable perilous and questionable behaviors that an outdoor freewheeling concert is known to harbor.

The festivities can potentially be a male dominated mob, attempting to sow their oats upon allegedly physically weaker and possible drunk and drugged females who may not even be of legal age. An article of- there was an article of significance, very significant, appearing in Thursday, May 29th edition of Newsday. Excuse me.

This article appeared in Thursday, May 29th Newsday. Alana Nolan (phonetic) a 15 year old girl from upstate Waterville, already spoke of the concert in the past tense yesterday. The ninth grader, I repeat ninth grader, spent weeks of baby sitting and doing other odd jobs to save the \$85 she paid to see Radio Head. Field Day she said would have been her first and real rock concert. I've never been to anything big she said. This was really exciting because I was going to see my favorite band. A 15 year old around all that beer, booze and boys. (Inaudible) class. What I did on my summer vacation. It's not only the environment we have to protect here. It's our children.

It's kind of hard to imagine the Beastie Boys, by the way, concert adding culture to Riverhead. But on second thought, thank you very much."

Supervisor Kozakiewicz: "I have a card from Christopher Kent."

(Inaudible - from the audience)

Supervisor Kozakiewicz: "Well, no, this is a card I was handed up. And then I'll go right back to the speakers. I think this is the last card that we have, right? Yes. It's the last card, so then we'll go right to the speakers. Because the prior speaker was also by a card."

Christopher Kent: "My name is Christopher Kent. I'm project attorney for Field Day LLC, promoter for the Field Day music festival at Calverton. My address is- my address is 445 Griffing Avenue, Riverhead, New York.

Together with me tonight is our environmental consultant, Jeffrey Seaman, from Coastal Environmental Corporation. He's here to answer any question that anyone might have.

I have a long standing belief that the more one does, the more they are asked to do. I can be a perfect testament to that in all facets of my life. My clients, Field Day LLC, the applicant for the Chapter 90 permit approval before you, seeks a Chapter 90 permit approval to stage a weekend music, arts and camping festival on a 1,000 acre parcel at the former Grumman site in Calverton.

Field Day LLC has done everything it can do to plan, construct and stage a first class music event. The proposed concert has attracted first rate progressive musical performers. Field Day LLC has retained the top concert planners and production team with years of experience in staging music festivals and live events.

The original event operating plan was distributed to all the necessary agencies and departments of New York State, Suffolk County, and Town employees back in the first part of April. Most of the involved agencies and departments of the State, County and Town were very cooperative and assisted the applicants greatly in completing the plan and in putting together a very solid organizational document to stage the weekend festival.

On behalf of Field Day LLC I would like to first of all and me personally I would like to thank all those individuals who worked so hard to make this event a reality. It was a tremendous learning experience for us all I am sure. With the cooperation and hard work of such people as Chief David Hagermiller, Fire Marshal Bruce Johnson, Dave (inaudible), I think I said that right, and Dawn Thomas, the town attorney, the plans for the event evolved tremendously through a series of meetings, telephone calls, and e-mails.

This process has evolved over a two month period. This hard work culminated in these two binders that I have with me tonight. The event operation plan which was prepared to satisfy the requirements of the mass gathering permit application pursuant to New York State Sanitary Code, contains 20 sections which details such things as security and communications planning, medical services planning, which include two primary health care facilities on the site, transportation and parking planning both on and off site, fire safety and prevention approved by all the fire safety providers for the site, food and beverage service, water supply and distribution which included connection to public water of the Riverhead Water District, sanitary and sewage collection and disposal which includes 600 port-a-johns, one and a half times more than what was required by the Suffolk County Department of Health Services, solid waste collection and disposal, electrical and lighting plans, signage plans both on and off site,

production information for the engineering of all temporary structures built at the site, weed, insect and animal control, and site restoration. It's a complete plan by everyone's evaluation including Judge Robert Webster Oliver of the New York State Supreme Court.

I have it available if anybody would like to look at it. But from what I've heard mostly to date, most people don't want to look at it. They just want to make their emotional arguments and I'll try to address them each individually.

The second plan is the additional information that was provided to supplement the full environmental assessment form that was completed and filed for the project. The comments that are contained herein are prepared to address all the concerns raised throughout the entire process, valid and even invalid, credible and incredulous.

First and foremost, I would like to say to the Board tonight, this proposal to stage the outdoor concert is a permitted use on this property in an appropriate zone that allows by code under section 108-239 indoor or outdoor concerts or live performance facilities. This is a permitted use in this zoning- in the zoning code for this zone.

My client, the applicant, entered into a license agreement with the town on February 20th. A license agreement gives my client full rights to the property from May 5th through June 22nd. It's similar to a lease and with that comes certain rights, full rights of ownership. So to put it this way, my client, who has an agreement to have the property from May 5th to June 22nd, is seeking an approval for an event that is permitted by code.

The issues that I've heard so far tonight and many more that I'm sure you're going to hear, have all been the same issues that were raised before the Pine Barrens Commission and New York State Supreme Court. We took them seriously and we responded to those issues in the additional comments to the EAF. We've tried to address every concern in all of our planning documents. The promoter did all the planning originally, was asked to do more, and has done more.

Our documents include planning and signs to address all of the unsubstantiated speculation, the conclusory statements without any kind of support that have been made to date, and as Judge Oliver said in his decision which I have here, those statements are without any foundation, proof or evidentiary basis.

Before you, the Town Board, because all received a copy of this

document, are pages and pages of good planning based upon good science and ready to be implemented by very good experienced concert production professionals. If you look at this document, you will see that all the logistics have been planned, and planned well.

What you have before you tonight is a tremendous opportunity for the town of Riverhead to stage an event of this kind on property that is zoned for this use. And I'll tell you why I think this is a tremendous opportunity- "

Supervisor Kozakiewicz: "Excuse me, excuse me. The speaker has the floor."

Christopher Kent: "And I'll tell you why I think this is a tremendous opportunity. Because you have an organization that has put together this concert that knows how to stage an event of this kind. It's 40,000 people on Saturday, not even. They've sold 33,000 tickets. It's possibly 40,000 people on Saturday, June 7th. Another possible 35,000 on Sunday, June 8th. We have more at Tanger on a holiday weekend. Does anybody do an analysis?"

Supervisor Kozakiewicz: "Excuse me."

Christopher Kent: "We absolutely have more at Tanger on a holiday weekend."

Councilman Densieski: "We do."

Councilman Lull: "Yes, we do."

Supervisor Kozakiewicz: "Excuse me."

Christopher Kent: "We are asking- excuse me, please."

Supervisor Kozakiewicz: "Excuse me. I would like the speaker to have the floor. I- "

Christopher Kent: "Excuse me. Let me finish. I have never interrupted a single person- "

Supervisor Kozakiewicz: "That's why I'm asking nobody interrupt you."

Christopher Kent: "The Pine Barrens Commission meeting in the courtroom or tonight with the ridiculous statements that they make

that are completely unfounded. Please, give me the opportunity based on what I think is good planning to present this. Okay?"

Supervisor Kozakiewicz: "I was going to indicate to this audience to please let speakers have an opportunity to say what they are going to say without interruption and you can have an opportunity to get up and address the Board and you will also be allowed to speak without interruption. No interruption."

Christopher Kent: "We are asking- I'm sorry I'm yelling if it appears, but I want to be heard. I don't want anybody to go away tonight saying they don't know what this is about."

Supervisor Kozakiewicz: "That's on public hearing- that's on- that's for the open comment period."

Christopher Kent: "What's that?"

Supervisor Kozakiewicz: "The five minute rule."

Councilman Densieski: "Go ahead, Chris."

Christopher Kent: "Oh, okay. I don't think I said anything about the five minute rule."

Unidentified: "No. Someone behind you did."

Christopher Kent: "We are asking tonight that the town permit this event to go forward. We are asking you to do something. We might be asking you to do it- to do more. But I'll tell you this. If this Board denies this request tonight, you will not be asked to do an event of this kind again."

Mr. Supervisor, I would ask that if anybody does have any questions, I'd be glad to come up and respond to their questions and I reserve the right to make any statements in response to those questions. Okay? Thank you."

Supervisor Kozakiewicz: "I know that there was another card handed up. But I know there were some other speakers who wanted to who have been up standing for a while so, Jill Lewis, I know you have been up there queued up there for a bit. So, come on up and state your name for the record."

Jill Lewis: "Thank you. Jill Lewis, Wading River, New York."

Supervisor Kozakiewicz: "Bring the mike down. There you go."

Jill Lewis: "Okay. Then I don't have to stand on my tippy toes. I just would like to respond to a couple things that Chris Kent had brought to your attention. One is that I don't care if the document was 20 pounds, apparently the State police and Suffolk County police do not agree that it's a well planned event, otherwise they'd be participating and helping the Riverhead police at this event. So I'm sorry. Apparently there needs to be more planning and, Supervisor, I'd read in an e-mail that you had sent to a concert goer, I guess he sent you a letter and you responded to him.

In the letter you responded to him you had said if you know people who can attend tonight's Riverhead Town Board meeting, please reach out to them. I know that the naysayer people seeking to kill this will be here. I'm one of those. I'm- "

Supervisor Kozakiewicz: "Well, I stated that- that's correct. And I'll tell you what I got in response. I got an individual, a 28 year old New York resident who works in the health care industry, Pfizer Pharmaceuticals. I asked him, I wanted to know who these people were. I- "

Jill Lewis: "I understand that, but I didn't get an e-mail as a town resident. I'd like to know why didn't you ask for my input?"

Supervisor Kozakiewicz: "I- we- I do want your input."

Jill Lewis: "But you didn't send me an e-mail."

Supervisor Kozakiewicz: "Well, I responded to the one I got. If you had e-mailed, I would have responded to you. Dr. Robert Sharp, Associate Professor of Environmental Engineering at Manhattan College in Riverdale, New York."

Jill Lewis: "They don't live here."

Supervisor Kozakiewicz: "He goes on. If the concert goes on, I plan to attend with my wife and two of my college, two of my graduate students, Mr. James Heslin, who's 35, a former Army captain, West Point graduate, and that he's also looking to attend with another individual who's an engineer, a psychology major. Another one was a 29 year old who lives in Hackinstown, has a PhD in chemistry. I was just looking to find out what type of people were attending. I keep hearing that there's- "

Jill Lewis: "It sounds like they're not Riverhead residents for the most part that have responded to your e-mail to them."

Supervisor Kozakiewicz: "Well, I think they're also not teenagers."

Jill Lewis: "But that's not my point. My point is as a Riverhead resident, I think that you shouldn't be just reaching out to the ticket holder, you should be reaching out to all of us and that's why we're here."

But I was- let me give you a chance because on your closing of your letter it also said that if we have police, I am prepared to fully lend my support. Without law enforcement, I could not support this as it could place my residents, the residents of Suffolk as well as the Field Day ticket holders at risk.

So I really hope that since we know that the state police had issued a letter today saying they would not give their support we know where the county police stand on this issue, I hope that all of your votes reflect the safety of the residents of the town of Riverhead.:

Supervisor Kozakiewicz: "Thank you."

Jill Lewis: "But I'm not done yet."

Supervisor Kozakiewicz: "Oh, okay."

Jill Lewis: "I just want to address the master plan. I wanted to support Resolution #624 which is the implementation- the master plan implementation committee. I really find encouraging that you are reaching out to the people that were rallying outside today asking for input, asking for our help to make sure that once you get to that point, that we can assist with implementation of code so we can move forward and be done with the master plan."

I have some concerns that Resolution 661 and 662 are not going to be on the agenda tonight. It raises questions with the three month moratorium that's going to show up on your next agenda. We all want to see it done but if we keep having delays then I don't think it's fair for the developers, the residents, or anybody who's here.

We need a plan that we can all follow and every time we keep pushing it off, we just sit around playing by the same old rules. We want new rules and we want new laws and I hope that we can get this

done. Thank you."

Supervisor Kozakiewicz: "Thank you."

Anna Zurinski: "Anna Zurinski. I'm a resident of Wading River. In addition, I'm on the Board of Directors for the National Education Association and I'm an officer of the Sewanaka Federation of Teachers.

We are known in Albany. We are known in Floral Park where the Sewanaka Federation of Teachers are- resides. And it is not complimentary. We are known for our lack of planning and it's not me who's telling them this. They find out from the newspapers.

I find the lack of planning and lack of preparation appalling since as an educator, when I plan field trips or events, it's around a six month to a year turn around. And the reason is you must know human behavior. Yes, I hear about the rules on paper. I hear about experience, but I know about human behavior and that is something you cannot trust to information on a piece of paper or pounds of paper.

And I know that when the concert goes into effect and you don't have all the behaviors controlled, you will find devastation in our towns, in our environmental fields, and more than a laughingstock this Board is going to pay.

My proposal is, that if we as someone said only get a buck a head, and I believe that it will be a minus, minus dollars, that every member of this Board gets their salaries reduced by the amount that we lose in Riverhead. Do not let this Field Day go on.

Now onto the master plan. If you keep on holding back, using any kind of reason, Planning Board, what have you, every town in Riverhead is going to be like my town in Wading River. Every piece of property has been taken up. A beautiful town once. When I came here 15, oh, maybe 20 years ago. Twenty years ago is now suburbia Nassau/Queens. And if you don't get this master plan implemented immediately, Jamesport, Aquebogue, Baiting Hollow, they'll all be west Nassau. Please get moving. Thank you."

Bill Schulman: "My name is- my name is Bill Schulman. My claim to fame is I'm married to the owner of Calverton Links for 56 years."

Supervisor Kozakiewicz: "Is she with you tonight?"

Bill Schulman: "Yup."

Supervisor Kozakiewicz: "All right."

Bill Schulman: "Not only is she- I never expected to speak but she said, Bill, you've got to talk. Well, when you're married for 56 years and you're looking forward to another 20 years- "

Supervisor Kozakiewicz: "I don't believe she said that."

Bill Schulman: "Yes, she did. Okay. Let me say this. I'm going to try to be brief fellows and ladies. I don't think that we're looking ahead, 48 hours from tomorrow. Okay? I don't claim or I don't believe that all of the people who are scheduled to attend this concert starting on Friday afternoon admission to the concert grounds. I don't believe that they're all ruffians but there may be a few.

John Jones started out from Montana four days ago. He's going to arrive at the gate the day the concert is to be scheduled to be heard and the gate may be closed and there may be no concert. What will happen then? He's going to be PO'd. And since our property, the only property that is closer to the concert area is the cemetery and the people there are dead and I'm going to be there some day. Okay? I'm not ready yet. Okay? But we are contiguous, our fence, and Ed Densieski knows because we rode around one time in a different matter. Our fences are not together. They're 20 feet apart. And I'm concerned.

What are some of this possible bad element going to do when they're riding all this time and they're hungry and they're tired, and maybe a few drinks or whatever it is, I think that the town fathers and mothers should really look into this very carefully and I don't know whether there is enough protection that's available by the local Riverhead town police. But there is a real possibility there will be a real problem.

Number two. If I was Mr. Dreskin's attorney and I certainly don't have to give him the idea, after what's happening, here it is. Two, three days before the people are coming to the concert and looking for entrance. And I'm sure as a CPA for 55 years, I don't have to be a rocket scientist, this will cost the promoter millions upon millions of dollars and should I tell you something? He doesn't deserve it but it's going to cost him because how this thing has worked.

And I think it's a horrible thing. I know most of the people here are against it and I'm just worried, I'm not for it, but I'm just

worried about the consequences because if there is a lawsuit, he may- I'm not an attorney, Bob. I don't practice law although I'm accused occasionally of that, okay. I want to tell you. The taxpayers, and we pay a lot of taxes. We pay \$135,000 a year to the town and I know that most of it goes for education. I'm aware of it. But I'm saying to you, there is a good possibility that they may get a verdict that costs the town people, the taxpayers, the residents and the businesses big, big, big bucks. Thank you very much."

Supervisor Kozakiewicz: "Thank you. Next speaker, please."

Regina Seltzer: "Good evening. My name is Regina Seltzer. I'm the attorney for the Pine Barrens Society. I was not planning to speak tonight and I'm only going to say two things.

First of all, I just want to respond to what Mr. Kent said and clarify two things he said. The first thing he said was about the lease. That lease was signed in February and they do have a lease and they do have exclusive occupancy of that property, I think until October actually. And, well, you're saying no. Whatever it is, they have exclusive use of the property.

However, and I think everybody should know that and the town should realize this. There are conditions in that lease. The conditions are very straightforward. The conditions say if the developer- if the promoter cannot get all the permits, if he cannot comply with all the town laws and the state laws and the code, then lease is null and void. He doesn't have any obligation and you don't have any obligation. Which means that if he does not get that permit from you or he does not get the permit from the county, the lease is null and void and neither you nor the developer have any legal obligation to pursue this matter. That's the first thing.

The other thing which is really not that serious but I just wanted to clarify it and that is the Judge, Judge Oliver, did indeed say that we could not get a preliminary injunction but the reason he said that was that he said that the court was not going to do your job. He evidently felt very strongly that the town- that the Town Board had the obligation and that it was your job to make this decision and that he felt it would be wrong for the court to interfere. I just wanted to tell you that. Thank you very much."

Supervisor Kozakiewicz: "I would like to just before the next speaker comes up because we do have a transcript of the Judge's decision and I think it might be good to read into the record what the

Judge stated."

Dawn Thomas: "I'm just going to paraphrase the Judge's decision from Friday which is now transcribed and this is only a part of the transcript but it really is just the order of the court.

Which basically says the Movant, which was the Pine Barrens Society, must show a likelihood of success which means a strong showing, an affidavit and other proofs supplying evidentiary detail and that a balancing of the equities favors the Movant's position.

The Movants herein has failed to establish both the likelihood that they would be successful on the underlying merits or that there would be irreparable injury absent the granting of the preliminary injunction.

So Miss Seltzer is really incorrect."

Supervisor Kozakiewicz: "All right. Next speaker, please."

Lauren Storms: "Hi. My name is Lauren Storms and I live in East Moriches. Sorry, I'm a little tall.

My name is Lauren Storms and I live in East Moriches and you might wonder why someone from East Moriches would be at the Riverhead Town Board but I came to speak out against the concert.

The concert promoter has been telling various members of the public government and the media that people opposed to this concert are just a bunch of old Conservatives who don't like rock and roll music. And as you can see, I'm far from old and I'm certainly not a Conservative and I'm absolutely a huge fan of rock music.

As a matter of fact, I'm a big fan of many of the bands performing at Field Day Fest but I refuse to attend this hastily planned, anti-environmental, unsafe concert. Concert promoters claim that they have a plan. In fact, they have a two inch binder full of plans and they like to show it to everyone. Well, I've read the entire plan and it's quite full but it's certainly not full of planning. It's full of something else and I think you know what I mean.

If it's such a great plan- if it's such a great plan, then where are all the police? We're a couple days before the concert and the plan hasn't come to fruition yet.

The fact that they still don't have police makes you wonder about the rest of the so called plan. There's the environmental review or lack of it. I'd like to ask the Town Board why did you let the concert promoter go forward with the spraying of toxic pesticides, the mowing of native grasslands, the construction of the facilities, and pretty much the murder of innocent, you know, really, really rare birds. I know that might not be important to this Town Board, but it's actually illegal. You did not do a SEQRA review. You're doing it tonight and meanwhile everything has been built already. I'd really like an answer to that question this evening.

Why are you bothering to do the review tonight? It's pretty much too little, too late. You must disapprove of this concert tonight. The state and county police have refused to help and neighboring towns can't spare the small forces they have during this busy summer season.

This concert will endanger the safety of the concert-goers and Riverhead residents alike. It is not fair to the ticket holders who are coming from as far away as England and Australia to this concert to find out maybe the day before the event that it may not happen.

Please. I ask you to do the responsible thing and vote no on this concert tonight.

I have one more thing I wanted to point out. I'm getting married in two weeks and I've been planning my wedding for a year. This concert has been in plans for perhaps four months at the most. Just think about that when you are making your decision. Thank you."

Doug Sebold: "Mr. Supervisor, my name is Doug Sebold. I live here in Riverhead. I live right off of Raynor Road. I've got just a couple questions to ask.

I've lived in Wading River 34 years. I live right next door to Grumman. When they used to fire up the jets or test engines, it would rattle the wall in my house and that seemed to be okay. You know, it goes back to the old adage, don't do it in my backyard and do it anywhere else. We have a Polish Town Fair that brings thousands upon thousands of people, drinking in Doc's and other places, walk around with beer hats, and that doesn't seem to be an issue with everybody. We have the fair down by the river that my company has gone- been in. And it's just unbelievable. People are in the bars drinking, they're walking around and nobody seems to care.

If the security ain't right, then don't have the concert. But,

you know, in the Town of Riverhead, lately it seems to be don't do it in my backyard and do it anywhere. And I'm sure there's people in here that went to Woodstock and I'm sure there's people here that are patronizing Home Depot and Applebee's and all these things that were opposed in Riverhead. They're shopping at now because it's convenient. This is not convenient for them so they don't want to do it. They don't want it in their own backyard.

My uncle's buried in Calverton, all right, and so is my aunt. Okay? Yeah, do I like all the traffic? No, because I've got to drive 20 miles west every day to go to work. Right? But I don't like coming home in the summer and having thousands upon thousands of cars backed up all over, people coming from other towns into Riverhead, they're patronizing our establishments.

You know, if the planning's poor, absolutely don't have it. But don't let the decision, you know, about a few birds. You know Grumman didn't care about the birds either. Okay? The sparrows, you know.

They seem to have adequate sanitation over there. I don't know. I just- it seems to me that we're letting other people dictate what we do here in the town of Riverhead. It's happened before with controlled hunting on Grumman. Grumman had controlled hunting for 25 years. All of a sudden we want to do it, oh, that's not a good idea anymore. You know? I drive up and down that road every day. I've never hit a deer in the past 22 years."

Councilman Densieski: "Shouldn't have said that. On the way home tonight."

Doug Sebold: "Yeah. Well. I live right around the block, you know. Just wanted to voice my opinion. I'm a young father in the town of Riverhead. I have kids that went to school here, I have grandchildren and, you know, if we don't let Riverhead flourish, people are going to leave. You know?"

Well, you people don't seem to understand."

Supervisor Kozakiewicz: "Excuse me, excuse me. Don't address them."

Doug Sebold: "You people don't seem to understand."

Supervisor Kozakiewicz: "Mr. Sebold- "

Doug Sebold: "There's a lot of revenue here."

Supervisor Kozakiewicz: "You have a right to make your statement to the Board. You have a right to- please."

Doug Sebold: "All right. That's all I really want to say. Thank you."

Supervisor Kozakiewicz: "Thank you."

Doug Sebold: "Thank you for your time."

Supervisor Kozakiewicz: "All right. Next speaker. Sir, you had a chance to speak already, did you not? I'm going to ask anybody who hasn't had a chance yet to speak."

Alan Stabler: "Yes. Mr. Kent was asking for something evidentiary and I have that. It's- it's three paragraphs and it's from the Crowd Management Strategies. They're located in Illinois, Paul L. Werthheimer (phonetic). This is his article. His statement, his article actually. It's only a few paragraphs if I could read it."

Supervisor Kozakiewicz: "Who is this?"

Alan Stabler: "Okay."

Supervisor Kozakiewicz: "This is from their plan?"

Alan Stabler: "This is a corporation, a company. It's called Crowd Management Strategies. The principal owner is Paul L. Werthheimer and- "

Barbara Grattan: "Al, excuse me."

Supervisor Kozakiewicz: "Well- "

Barbara Grattan: "Just one second."

Alan Stabler: "Evidentiary, yes."

Supervisor Kozakiewicz: "What I would like to do first- "

Barbara Grattan: "State your name before you leave again."

Alan Stabler: "Sure."

Supervisor Kozakiewicz: "Are there others who would like to address us first who haven't had a chance?"

Alan Stabler: "I'll certainly wait in back of the line in that case."

Supervisor Kozakiewicz: "Yeah. I would like to have others who haven't had a chance to speak first address us and then you can get a chance. All right? Next speaker, please."

Ed Purcell: "Ed Purcell from East Main Street in Riverhead. I don't know- I've lived here almost all my life. I've lived on East Main Street. I've seen fairs up in Grumman. Most people here that are recent residents don't understand that back in the '60's into the '70's, Grumman used to put on a fair every year. They used to mow all the grass. It seems the birds didn't get destroyed by them mowing the grass; they're still here. They used to have 20, 30,000 people go ahead and come to the fair. They're concerned about 35,000 people.

I don't think it's ridiculous to have it there. As a matter of fact, the location of it is probably the best place to have it because it's near- it's on the runways if I'm not mistaken. So that would protect the aquifer and everything else because it's not out in the grassland.

Now, and somebody else already said, the Polish Town fair, you have 50,000 people in a day that come to Riverhead. Yes."

Supervisor Kozakiewicz: "Once again, let the speaker speak, folks. You can come up and address us and say- "

Ed Purcell: "Okay, 30,000 people, approximately the same thing. I think this- if the police can be handled, I think this is a good starting point. The show that you want to put on in the summertime, I might want to go to. This one here, you couldn't pay me to go to. Honestly. But that's why I think if the police could be handled, the traffic won't be any worse than as somebody else said, that you have going to the outlet mall during the season.

So that essentially the only problem I can see is if the police can handle it. And so that has to be up to you. But I really think that if they can, we should do it because it's so small that I know the one in the summertime, you may get 100- want to get 100,000 people that would go there and it would be hell to try to do that as a first shot. This would be a lot easier to handle and a lot easier- and if

it doesn't work, well, then you know. Hey, we can't handle anything that big.

And that's why it's much better to try something that's small which is equivalent to what we're handling now with the fairs in Riverhead and go on from there. Thank you."

Supervisor Kozakiewicz: "Thank you, Mr. Purcell. Next speaker, please."

Frank (inaudible): "Hi. My name is Frank (inaudible) from Lake Panamoka section of Ridge. I wasn't going to speak, I just stopped by. I'm going to tell you I'm not going to the Field Day concert although I do have tickets to (inaudible) and I live in the southwest corner of Panamoka which may put me closer to that site than most people in this room. I don't plan on leaving the Lake on the weekend. No biggie. No biggie. I coach a local CYL team, I was supposed to scheduled a game, I said Monday. My parents are buried at Calverton. I'm a 14 year veteran of the service also. I can deal with it.

The part is what I've been hearing, you know, without the police protection I 100% agree. I also- and although one gentleman may possibly have been at Woodstock although I missed the first one, I've been to others and Watkins Glen, I have been at festivals, some good, some bad. Don't get me wrong. There has been some problems with some and I've been to some excellent ones. Some towns and parts of states are supported by a festival as a big income as the IT concert up at (inaudible) Air Force Base in Maine.

And I've been on the internet a lot the last week talking to people that are going to (inaudible), Tennessee which is next week. And I have probably a dozen that are also, most of them I can't talk to the last two days because they are in route and part of it has been- they want to know- these are Missouri, Texas, Oklahoma. What's with Long Island? All we hear is they're stuck up. What's the problem? It's their little island, they don't want to let (inaudible). I said, no. We're not like that, you know.

I just hope that the police protection is there and you have to go on. Festivals do a lot. I've been to a lot of them. They do a lot for the local community. Do something for Long Island. You can keep these going if they're done right, you know. And I don't see no reason. I know it's a short planning process and I know you've got a little bit longer for the second one. But I've been to things that have been put on by both promoters. They know what they're doing.

And I'd like to thank you for at least even bringing it up. I think, you know, the people of Long Island could use something like this. I mean there will be 125,000 at Elmont on Saturday, too. You know. You won't be able to get to Belmont Racetrack that quick easy. Thank you very much."

Supervisor Kozakiewicz: "Thank you. Next speaker, please."

Bruce Williamson: "My name is Bruce Williamson. I'm from the Suffolk County Department of Health. I'm here to represent the- "

(Unidentified - from the audience): "Can't hear you."

Supervisor Kozakiewicz: "You've got to bring the microphone closer, Mr. Williamson."

Bruce Williamson: "All right. Bruce Williamson, Suffolk County Department of Health. I'm here to represent the Commissioner of Health. And I will be brief.

The Commissioner is responsible for the issuance of mass gathering permits. On May 27th, the Commissioner issued a statement that the permit was denied- the application was denied for this mass gathering and the permit will not be issued. And I urge the Town Board to take into consideration that this permit is denied when they vote on this issue. Thank you."

Supervisor Kozakiewicz: "Is there anybody else who hasn't had a chance to speak? If not, then I'll let you come up. Okay. Your name for the record, please, Gordon."

Gordon Danby: "My name is Gordon Danby. I live on Sound Road- my name is Gordon Danby. I live on Sound Road in Wading River. I've lived in Wading River for 40 years. I want to speak briefly on the master plan situation.

I remember fighting like hell to get quarter acre zoning in Riverhead. And boy there was an establishment opposing it. So the only point is governments has its ways. I once was on a board. One of your members was a fantastic head of the Planning Department incidentally and these are all important but this is an unusual situation, you've got to admit.

The public has been very into, with your encouragement, to this master plan. And you've got to bring this thing to action with the

full involvement of people. It's clearly to the benefit of the town and frankly to you people. And that's really all I have to say.

With respect- if I can just say briefly, I didn't intend to speak. But the disconnect I can't understand on the concert. I had no objection to the concert and Mr. Kent is telling us it's all in order and all agreements were made and therefore, it's improper not to cancel it. But was the problem with policing just a political problem or is it a real problem?

And there seems to be two- what is it, the County Board of Health? I mean these are either real issues or they're phony issues and I think it's very important. I'm not telling you anything you don't know but you've got to take that into account because if the planning was inadequate, then you better not do it."

Councilman Densieski: "Thank you."

Supervisor Kozakiewicz: "Thank you, Mr. Danby. Anybody who hasn't had a chance? If not, you can, yes, Rob Pike, please."

Robert Pike: "Hi, Robert Pike, 138 Ostrander Avenue, Riverhead, New York. I do not envy you your decision tonight and having sat there for four years, I remember some similar nights and I am rising tonight with a dilemma on my hands and all good planning comes out of crisis, I think, sometimes because it focuses people's attention here.

But I think the one thing I would like to convey to everybody in the room is that specific instances of great ideas are often bad but it doesn't mean that the specific- the general idea is a bad one. So I am rising tonight to talk about the alternatives that would work into the master plan, that would work into specific plans so that we might do something really great with the opportunity that was given to us in the Calverton property.

Just a little bit of credentials. During my term on the Town Board, we upzoned the area around this facility to four acres. My family has had a life long commitment to this area. You will note that some portions of it, approximately 3,200 acres are dedicated to my father's- well, not his memory yet, he's still alive. And it was a Republican Congressman who did that.

And, I'm also a musician and I believe that music is one of the great uplifting things that we as a civilization, as a culture in all its variety do, and I think we should do things to support it.

The fundamental thing I don't want you to do is that great old English statement of throwing out the baby with the bath water. Now think about this for a second. Life is- in the final analysis not a comparison between good and bad or perfect and nothing, life is a comparison of alternatives, of what we would do in the long run with this huge asset that we got from the federal government.

And what are those current alternatives that show up in the current zoning, in the current master plan? Well, we have some people up here who argue that the Calverton property is legally zoned for use as a Fed Ex facility and that the planes can come in and go out on a routine basis helping Fed Ex do what they do. That's an alternative for what can happen to that facility.

We have other people who think that power plants should be built at this facility. We have other people who think that race tracks should be the thing to fill the air with their sound. And we have people who believe that live music and entertainment is something that we should do with the facility. Those uses are in many ways incompatible with each other. You can't run a concert next to a Nascar racetrack.

Just like we shouldn't have historically built Glenwood next to the Riverhead raceway. I don't think the people who bought into Glenwood were enticed into Riverhead by listening to the thunder blasters going around the racetrack. Now I'm pro racetrack. Why? Because they were there first. So here we have a specifically under-marketed perhaps slowly planned but basically good idea which is that between choosing Fed Ex flying overhead in a commercial airport and choosing against that the sounds of a raceway, and choosing as the final alternative whether we fill the air with music, I vote for music.

I have not seen all the planning studies that you have before you. I wish I had. I hope you have read them thoroughly. I do not envy you your job tonight. I ask you to do something that preserves this baby because it is something that could grow and help us flourish the way Greatwoods has helped Foxboro, and the way the Bayside arena has helped Mountainview, California prosper and survive.

So, please, whatever you do tonight, use your judgment but do not throw the baby out with the bath water."

Supervisor Kozakiewicz: "Sir, did you wish to speak, in the green shirt? Your name and address for the record, please."

Peter Cotter: "Peter Cotter, Holbrook, New York. I'm co-owner of Blue Point Brewing Company which is Long Island's only brewery. I'm here to talk about a few things. Obviously there's a lot of talk about how it affects each person individually and, of course, it affects me and my brewery as well, but I see a lot that's going on here as far as- I'm also a member of the North Fork Environmental Council.

I don't know, if a little commonsense might be lost here, I'm not sure. I know with all the development that's going on right now, all around it. There's people in the field. Is it anything more than that? I'm not sure if I'm missing something here. That's number one.

As far as traffic, people are sitting on it every day, going into work. It's no fun. It's work. This is fun. That's what this event is all about. I think a little traffic we can put up with it.

As far as the local business, the local, how-- these promoters, they approached us at Blue Point Brewing Company because we are a local brewery. They could have- naturally, there's plenty of breweries out there. They approached us. These businesses that come to Riverhead, you know, whether they be Home Depot or Applebee's, BJ's, they don't support any local business whatsoever. Okay? I know there's not a hotel room from Patchogue east into Montauk, this is what I was- people are looking for rooms, there's nothing available. That's helping local economy.

We brewed 300 extra barrels of beer for this event. We've been working double time for six weeks. Oh, you can find something- I'm sure you can find something bad with it. You know? But the fact is, it's, you know, my Dad is in- "

Supervisor Kozakiewicz: "Mr. Cotter, address the Board, all right?"

Peter Cotter: "Okay, sure, okay. Well, we're talking, you know, there's a cemetery across the street. I respect it very much. My Dad is buried there as a World War II veteran. He's be proud to know, you know, that I'm here speaking for a population that's- and for a good time and freedom, you know. And I think that's what those people are buried in there for.

The fact is, we're alive and we should enjoy ourselves. And that's about all I have to say. It's going- it will be a hard hit. If this concert doesn't happen, it's going to be a hard hit to a lot

of businesses on Long Island, especially us. It's going to hit us right in the wallet and don't be scared, by the way. It's a good time. Nothing is going to happen, you know. There's a lot of, you know, I don't know if people are watching too much TV or something. Believe me, everything will be just fine."

Supervisor Kozakiewicz: "Excuse me, excuse me. The speaker has the floor. The speaker has the floor."

Peter Cotter: "Well, as far as the terrorism issue, will there be no more public speakers, no more, let's not have a super bowl, let's not have a world series, it's ridiculous. But anyway, thank you very much and I commend you all for bringing an event like this, they happen all over the country and all over the world. Let's bring it to Riverhead, it's fantastic. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who hasn't had a chance yet? Okay, sir, you want to come on up? Come on up. You've been up there for a while."

Alan Stabler: "Thank you, again. I'll do it real quick."

Supervisor Kozakiewicz: "Your name and address for the record."

Alan Stabler: "Alan Stabler, Ridge, New York. As far as the comment about hotel rooms, you know, when Flight 800 came down, it was really sad and I was associated with TWA at that point. And they had many hotel rooms filled up, too. I mean anything that would fill up a hotel room, negative or positive, this event is negative. However, just going to read paragraphs real quick."

I'll leave the hard copy with the Clerk. This is written by Crowd Management Strategies, the author is Paul L. Werthheimer. He's the principal owner.

It's entitled The American Experience Rock Concert Safety. It's 10 pages; I'm just reading a few paragraphs.

Trends, this is trends of rock concerts. Contrary to what the American rock industry would have the public believe, concert safety environment remains unstable. The fact is more effective safety nets, effective safety regulations, guidelines and techniques must be developed for concert crowds and the individuals within them. Poor crowd management, planning, festival seating, unskilled and untrained security and ushers still threaten public safety. They are among the

cost saving techniques the rock industry uses to enhance its profit margin.

In the US, maximizing profits is too often placed above fan safety and enjoyment according to safety critics and concert goers. The future for American concert goers, especially those who follow today's alternative rap and heavy metal rock music scenes, will be more of the same mixture. Dangerous environments, missing safety nets, ill trained security, irresponsible performers, and promoters and facility operators often concerned more about the profit than safety.

It's one more paragraph and then I'll leave you alone.

For the short run, American rock industry will probably maintain its posture of denial and inaction- posture of denial and inaction. In the long run, this posture will fail because more Americans are knowledgeable about the concert scene especially fans of the 1960's and the 1970's who are now parents.

These former concert goers hoping that the National Parent Teachers Association passing anti-festival seating resolution at the PTA's 1992 national meeting and also worked successfully to place the festival seating issue in the Life Safety Code of the National Fire Protection Association this year.

All right, thank you very much. And I'll leave a hard copy with the Clerk. Thank you."

Supervisor Kozakiewicz: "Pastor Woodson, I know that you indicated a wish to speak about resolutions. This is on resolutions that are pending before us, not open matters. Just so we're clear. All right. For the record, your name and- "

Rev. Woodson: "Rev. Woodson, Riverhead, New York."

Supervisor Kozakiewicz: "Thank you, Pastor."

Rev. Woodson: "11 Industrial Blvd. I think what I hear most of the residents talking about, their concern is a quality of life issue and that's- and I heard Mr. Pike speak and I know the legacy of his family and I'm listening to everyone talk and I know Mr. Kozakiewicz is trying to bring progress to our community. I really believe that he is trying to do that.

What I will do and, of course, many of you know that I am running for Councilman, it's a perfect opportunity to mention that."

Supervisor Kozakiewicz: "I think you illustrated that and told us that last meeting."

Rev. Woodson: "Well, I'll probably say it every week until I get on the Board. I'll say it every week until I get on the Board. I will- "

Supervisor Kozakiewicz: "He was the same way in school when it came to baseball, football, folks."

Rev. Woodson: "Yeah, I took some risks then, I'm taking some risks now. Whenever you take risk, people always are going to object. People are always going to not have a vision that you have. People are always going to be afraid.

And I was wondering before this concert, was there a survey done through the community to ask our opinion? Was- "

Supervisor Kozakiewicz: "No."

Rev. Woodson: "That is one thing I would like- that is one thing that I think maybe could have done some type of a survey so we could really see how the people feel about it. That's one thing I would have liked to have seen done.

And I think another thing that I would like to see done is more compassion in understanding what the people want, listening to them more, keeping our doors open so the people can come and see us. I have to agree with some of the older people here, there is so much wisdom here tonight, Mr. Shulman and some others, I have to agree with the older wisdom here and I think that their speaking out of concern for the community and out of love for the community, when they said if it's not- if it hasn't been planned properly and if we're hastily coming into it, I think maybe we should of- we should really just consider this, consider the liability of our town and really if there are mishaps and there are accidents, it would really fall upon our Town Board.

So I think there's a lot to consider. I think we need to be more open to how the people feel and what the people want and I think we need to be more open to wisdom. You need to take risks but I think there's some good sound wisdom here, good sound people here, and I

personally, if I was on the Board, I would take heed to a lot of wisdom that's in this room.

So I would vote to delay the event. I know in the future it's going to bring great profitability here, the land is tremendous. It's a tremendous place for open air meetings and things of this nature, but I just think the planning is just-- we're just doing it too hastily. My father always told me just wait. If you do things in a rush, it's not going to work out right. God bless."

Supervisor Kozakiewicz: "Thank you. Is there anyone else who hasn't had a chance to address us who would like to address us on resolutions? Jeff- Mr. Seaman, do you wish to address us? Okay. And I'm going to ask that comments be left to five minutes."

Christopher Kent: "I'm just going to respond to- "

Supervisor Kozakiewicz: "And you've got to state your name- "

Christopher Kent: "I will."

Supervisor Kozakiewicz: "Okay, thank you."

Christopher Kent: "I just wanted the opportunity to respond to some of the issues raised. Again, my name is Christopher Kent, Field Day Music Festival project attorney."

I guess I'll go in the order they were presented. The first one presented was a law enforcement concern. The applicant, the promoter was responsible for a lot of planning for this event, almost every aspect of the event. Unfortunately, we cannot provide law enforcement. Law enforcement concerns were one area that were beyond the promoters control. The applicant had to depend and rely upon the cooperation and assistance of Riverhead town police, Suffolk County police and New York State police to ensure that sufficient police protection would be provided.

Riverhead town police has stepped up to the plate. They're very satisfied with security and transportation and traffic control plan. Unfortunately their requests for assistance and cooperation from the Suffolk County Police Department and from the New York State Police Department were declined by those departments.

I've heard several times if they can provide enough security, if they can provide enough law enforcement. We have no control over law

enforcement. Law enforcement is done by the police departments who have jurisdiction over the area. As a private promoter- excuse me- "

(Inaudible remark from the audience)

Supervisor Kozakiewicz: "Hey, listen, listen. This is a- I asked him to keep it to five minutes. He's making his comments, let him make his comments, please."

Christopher Kent: "We have no control over that. The reason that we were told that New York State declined is because of resources. They did not have sufficient resources to man- to provide manpower for the event. Suffolk County said that they required an inter-municipal agreement, a financial arrangement between the town of Riverhead and the County of Suffolk. The promoter was more than willing to pay for both the presence of New York State and Suffolk County Police enforcement officials.

Unfortunately we were not given that opportunity. There was no financial arrangement made between the town and the county. We could not pay for that. We cannot ask directly for law enforcement to be provided by the county.

Someone stressed that we kill or we murdered birds at the site. I can say to you and I believe Mr. Seaman will attest, we did not murder one bird at the site. We mowed the grass. We mowed the grass of 233 acres on a site that's over- that's 1,000 acres. We mowed the grass. We mowed the grass prior to mid-May as recommended in the final general environmental impact statement and the re-use plan that was the foundation for the zoning- for the transfer of the property to the town and the zoning that was adopted by the town. We mowed the grass as recommended by the plan, the first time it had been mowed in six years.

It recommends periodic mowing to maintain the grassland habitat. If you don't maintain the grassland habitat, it transforms, it becomes a shrub habitat. It becomes a woodland habitat. We mowed the grass. We did not murder any birds.

This is a secure, well-planned site. It's fenced in. There will be 250 security guards inside the venue. There will not be drinking on the streets as there are at many other festival and fairs within the town of Riverhead.

The cars will be well parked well beyond the site. Someone is

going to have to walk a great distance from the venue to get to their car. We mowed the grass. We did not kill any birds.

I've heard tonight on several issues the planning is too slow, the planning is too fast. Everybody would like planning to be just right. But what is just right? In this case, I think planning was just right. We're dealing with professionals who do this type of planning for concerts and festivals of this type all over the country. They work seven days a week unlike most planners. They work 14, 15, 16 hour days. So if we want to do man hour equivalents over the time, I haven't done the math. But do seven days a week, 14 hours a day because that's what private planners and private industry do for these types of festivals. I had to keep up with them, let me tell you and I've been doing a pretty good job, having appeared in federal courts, Supreme Court, Pine Barrens Commission within a few days span last week.

So is the planning too slow, too fast? I think the planning was just right in this case. The planning may be too slow on the master plan though if I can put my two cents in since I'm a town resident."

Supervisor Kozakiewicz: "You can put your two cents in."

Christopher Kent: "Crowd management strategies. We've got the latest in our plan. Take a look at it, I'd love to share it. Unfortunately we were asked by the police chief not to share our crowd management strategies with the public. We would have loved to put them on record in the Town Clerk's office to show the type of plan. I believe it's about 50 pages of crowd management strategies.

The permit was denied by the Health Department. First of all, I would question the man's credentials. You know what? There hasn't been a mass gathering permit application reviewed or approved by the Suffolk County Department of Health Services for over 25 years. What would he know? I don't think he ever reviewed one.

Let me read you the letter denying the mass gathering permit. It cites that the plan- the mass gathering permit requires the applicant to operate a mass gathering- must be accompanied by a report that includes as a part of that report- this is the only reason they denied the application by the way, one statement. That it requires a statement from the county sheriff, state police, New York State Department or transportation or other law enforcement agency pursuant to Section 1.41 2. You know what that section refers to? It refers to transporting people, attendees, from non-contiguous parking

facilities. We have no non-contiguous parking facilities in this plan. This section does not even apply to our application. So I believe they lack the credentials. They can't even read our plan. All parking on the site- all parking is on site. There is no non-contiguous parking facilities from which we have to transport people to the site. They will be parking on the site.

By the way, Mr. Pike, that Republican- "

Supervisor Kozakiewicz: "I'm going to ask you to sum up- I'm going to ask you to sum up, Chris."

Christopher Kent: "This is my last statement. Mr. Pike- "

Supervisor Kozakiewicz: "Because I want to read into the record one of the comments the Judge made in his decision, too."

Christopher Kent: "Okay. Mr. Pike, that Republican Congressman who approved that parkland, was already thinking like a Democrat. Thank you."

Supervisor Kozakiewicz: "All right. Mr. Seaman, do you wish to address the Board and make any comments? All right. I have a couple things I do want to say before we close. Okay, Mr. Amper, go ahead. Go ahead."

Richard Amper: "I want everybody to understand what they've just heard. Some of us think doing an environmental assessment form on April 10th for an event in early June is not adequate. If you think it's adequate, that's fine. Mr. Kent represents that his client went out of his way, did everything he could to secure the required police protection. If you believe that, that's all right. But there's nobody in this room that thinks that we have obtained adequate police protection. The State police don't think so; the Suffolk County police don't think so, and the local police don't think that we have enough police to protect the people. So we're either going to thank the promoter of this concert for all his hard work in securing police protection, or we're going to acknowledge they just didn't get it. And the threat to public safety is not based on how hard they worked to secure police protection; it's whether we have any, and we don't. This concert has got to stop."

Supervisor Kozakiewicz: "No, there's a person in the back that hasn't had a chance to speak and while that person is coming up, Butch Langhorne, I do want to read for the record the decision from the

Judge. And this is, I think, important.

It says further in the past a full environmental statement covering the Calverton property was drafted and on the basis of the SEQRA review and other proceedings, the town of Riverhead enacted the zoning regulations covering the Calverton property at this time. These zoning regulations specifically permit mass gatherings and mass gatherings have been held at the site in the past. This is the court's finding.

The court went on. The town of Riverhead has followed its own internal procedures throughout the planning process for the concert and, this is the point that I want to emphasize, there is no proof that they have acted contrary to the law or statute. That was Judge Oliver's decision.

Also, I know there's been a lot of little snickers and comments with respect to Tanger. I don't know how many of you reached out to speak to Jeanine Nebons. I did. I spoke to her, I met with her in my office. They have 5,000 or so parking spaces at Tanger. She confirmed, she's the manager, she's the one who's been there since Tanger has been there, that on a busy holiday weekend, 25 to 28,000 cars pass through Tanger. Over 100,000 customers a day on a weekend. I just wanted to make sure that that was made. I invite all of you to reach out to Tanger and speak to Jeanine because she'll tell you that's what it was. I just want to address that.

Butch Langhorne. Yes. Speaker, please."

Butch Langhorne: "Good evening. My name is Butch Langhorne. I'm a life long resident of Riverhead. I'm also a 30 year resident of Calverton which happens to be about 500 yards from the site that the concert is going to be on.

I sat here and listened tonight and most of you local folks know that I am an avid musician. When it comes to singing, I can't play a (inaudible), but I love music. I've made money making music. Okay? So I am definitely not against music. I am definitely not against concerts. I'm not even against concerts and Grummans.

What I think is the situation here and I've sat here I think maybe an hour and a half to two hours listening to the majority of the people saying they're not even concerned about a concert. The concern is about how this one was put forth. Okay? So I don't think anybody is concerned about having a concert at Grummans.

Do I want to see 30, 40, 50,000 people? Now I think I just heard Mr. Kent say there's going to be 250 security guards and I think we have on the police force 86."

Supervisor Kozakiewicz: "Seventy."

Butch Langhorne: "Seventy?"

Supervisor Kozakiewicz: "Seventy something. That's correct."

Butch Langhorne: "Okay. And out of those 70, I bet you I've heard 30 of them talk to me at the word of mouth about their job in Riverhead on a normal day. Excuse me. Okay? So we're talking about now maybe 350 people to control 30,000 people, 50,000 people. That should be a major concern if nothing else.

I say nothing else to you folks, but please think about this. Now if you're telling me the county, the state, is saying no, where else are we going to go to get security? Is 250 the number that's going to be up there at the time? Is that what we're talking about 250 security people and then another approximately 100 policemen? What are you going to do about Riverhead? You've got an affair down here in the park, a big boating outfit going on, excursion going on. Was that thought about?

Planning. That's the problem here. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody who hasn't had a chance to address the Board, wishes to speak, who hasn't had a chance? Who has not had a chance? Anybody who has not had a chance? Folks. Anybody who hasn't? All right. We're going to wrap up. Sandra, I'll let you have a chance to speak and address a couple concerns and then we're going to go to resolutions, please."

Sandra Mott: "Sandra Mott."

Supervisor Kozakiewicz: "Yeah, we'll take up resolutions."

Sandra Mott: "Riverhead. It's \$180.00 per ticket. Correct? Correct? Someone, we guessed. One hundred eighty I read. Now it's 50,000. So if you get your 50,000 people- "

Supervisor Kozakiewicz: "I'll have Mr. Kent comment."

Sandra Mott: "Okay. Unless I got the numbers wrong and my

decimal point, that's \$9 million dollars. And we got a whole \$150,000 for use of the land and you're getting a buck a ticket to give to the East End Arts Council or whatever other group you want to give it to, when we're throwing around numbers.

And as to being critical to people's emotions, you better believe it, Chris. I am damn emotional about a lot of issues whether you like it or not. You love it? You're getting paid damn well, I bet you love it. I'm not getting paid here honey.

As to a refund policy, do you have a refund policy for these people or are they going to go berserk at the gate? And how far down the line are you going to stop them on the LIE which is a major access point when they find out that they're not having a concert? Are you going to wait until they get to the gate and then we're going to see just how effective this group is going to be on downtown and Calverton and Brookhaven. Okay? I'd like to hear your refund policy, if any.

And as to the noise. Is it 24 hours a day? I don't think these people are going to go for 180 buckaroos a ticket to be sitting in their campers or having that man's beer.

What are the hours of operation of this thing? Because if it's 24 hours a day- I don't find anything funny about it. And you find everything funny. There's nothing funny. Find your deal. Answer the questions. I don't find anything funny when it comes to my safety and security and that of my family. Or my neighbors.

And credentials. How dare you people- how dare you even criticize these people? What credentials do you know that these people have in regard to their planning? I know they've got great credentials to make a hell of a lot of money.

And the police. How are they going to care for the rest of the population? Butch got into that briefly. You know, that's only one affair, what about the rest of it? You've got so many senior citizen communities here and people having issues all the time.

And we have no access to the traffic plan because Mr. Hagermiller doesn't want us to. Excuse me. We live here. I want it put in black and white between now and then in a major newspaper so all of us could read because all the little newspapers have done their closings for the week. I want it in Newsday and the New York Times as to what the evacuation plan is and the traffic pattern so we will know what we can do and how we can get out if there is a major issue. And laughing

about being in control of the situation, no one is in control of anything. Since September 11th, we are not in control of anything.

I had a brain tumor removed on August 27th, diagnosed on July 1st. I was not in control of anything. So don't you tell me that he's going to tell you what we can be in control of because we're not. And I didn't have a lobotomy. I had a brain tumor removed. The rest of me operates very well and as far as I'm concerned they need to hire better people and there's nothing funny. You think it's cute? I don't find it cute. You have your children. God forbid there's an emergency. How the hell are you going to get that little crowd out?"

Supervisor Kozakiewicz: "Mr. Kent. Mr. Kent, do you wish to address some of the comments and we're going to close it up at this point. We're going to take a break and then we'll come back and resume for resolutions."

Christopher Kent: "Okay. The only thing I would like to address is that the ticket prices if anybody really cares at this point, is \$75.00 for one day, two day tickets for the concert only are \$140.00 and the camping- two day ticket and camping is \$170.00. Okay? Tickets are still available at Ticket Master.

Sorry."

Supervisor Kozakiewicz: "Chris, control yourself."

Christopher Kent: "Sorry. There was one other point I wanted to raise."

Supervisor Kozakiewicz: "Hours of operation."

Christopher Kent: "Oh, the hours of operation. This was I thought a very good idea. Maybe one, maybe the only one, I don't know, if you look through the plan. But the camping facilities are going to open on Friday at 3:00 p.m. to allow people to stagger the entrances to the site. There's going to be about 4,000 vehicles for camping. They're going to be coming in from between Friday at 3:00 p.m. and Saturday, 3:00 p.m., so you can expect about 4,000 vehicles coming in over a 24 hour period. And you can do the math on that. That's about the average number of vehicles per hour coming in.

Then the venue is opening at- the parking is opening at 6:00 a.m. on Saturday. The music starts at noon on Saturday and goes to midnight. And then it starts on Sunday at 11:00 a.m. and goes to

Sunday at 11:00 p.m. The heaviest traffic period will be people existing the site on Saturday after the show at 12:00 midnight so there will be- the exit will be about 12:00 midnight to 3:00 a.m. And if you've ever been on Route 25 in front of the Grumman complex between midnight and 3:00 a.m., you could probably notice that you could sleep on the side of the road and not be disturbed too much by traffic.

The next heaviest will be the departure on Sunday night between 11:00 p.m. and about 1:00 in the morning Monday. They are allowing campers to stay over Sunday night and they'll have the site completely cleared out by Monday morning approximately 10:00 a.m. And that is all to assist in the traffic flow plan which is quite extensive and is contained in the event operation plan."

Supervisor Kozakiewicz: "Thank you."

Councilman Lull: "Chris, can I ask you something else, please. Because something was said previously that I believe reflects poorly on our Chief of Police. The issue was raised and I know you raised it but it wasn't this issue. The issue was raised that the traffic control plan of the Police Department would not be published- could not be published. That was not what you said. And I want to make- am pretty sure that what you really-- what you really did say was crowd control is what you were talking about."

Christopher Kent: "Actually, there were four sections in the book, in the event operation plan that were by the request of the Chief of Police, asked to be kept confidential. And those four plans included the security and communications plan because it identifies channels that the security company and the police will be making their communications on. It also contains all the security information regarding checkpoints, random searches, again, which we don't want that information to be made public because then people might try to avoid those searches and the random searching.

The medical services plan, again, was not- was asked to be kept confidential so it was not included in the copy submitted to the Town Clerk's office. The transportation and parking plan was kept confidential and so was the fire safety and prevention plan which was kept confidential. Although with the tickets that were mailed out to the concert attendees, there was a do an don't sheet, things you can bring and things you cannot bring into the site which was approved by both the Police Chief and the Fire Marshal of the town of Riverhead. So this was, you know, it was quite extensive. But if I misstated

that, I apologize.

One last thing I'd like to say, having sat up in your seats, I don't envy you whatsoever. I'm glad that it's you making the decision and not me. I did my job to the best of my ability. It was a great experience and I would gladly do it again and I think this Town Board should go forward with this permit because I believe it is a wonderful opportunity to stage an event with the classic professionals who put this event on. And, again, it's one that's not that large. In the grand scheme of things, a concert of 30 to 40,000 people on a site that if you've been out there, it's just tremendous. The music venue itself is 40 acres which if you do the math, if there are 40,000 people on the site, it allows about 45 square feet per person for viewing the concert. So just imagine a box around you which is about 6 by 7 which would be roughly that size. I'm very serious. These calculations were done for the Suffolk County Department of Public Health Services."

(Inaudible - from the audience).

Supervisor Kozakiewicz: "Excuse me."

Christopher Kent: "That is the average space available for every person coming."

Supervisor Kozakiewicz: "All right. Thank you. We are going to recess- oh, is there someone else? Yes, come on up. Come on, Mr. Griffing- I mean Griffin. Okay, come on up and then we're going to recess."

John Griffin: "I'll make it- "

Supervisor Kozakiewicz: "Your name and address for the record, please."

John Griffin: "John Griffin, Baiting Hollow. I'll make it real quick. You guys have got one hell of a job to do tonight. Nobody here doesn't like music. Everybody here doesn't like planning. Twenty-five thousand cars going through Tanger in a day, that's probably right."

Supervisor Kozakiewicz: "It's- I spoke to her."

John Griffin: "But do that in one time. Nobody is complaining about having a concert. I've got concerns about the police

protection. I know me, my wife, we're getting the hell off the island that weekend. So I don't have a problem with that. But there are people who will have a problem.

The ambulances. They're going to be a concern over at the concert. Who's going to be covering the town? We don't know that. It's confidential. Right? I just came back, Ed, you'll appreciate that. I just came back from Dover Downs. When they do these races every week and they have this down to a science. We were in an 11 mile backup to get to it on a two lane interstate."

Supervisor Kozakiewicz: "How many people go to these races? Over 100,000, correct?"

John Griffin: "Yes. Yeah. They do it as a living. We're doing it as a whim. I'm not against the concert. I'm against poor planning and that's what I think we've got here."

Supervisor Kozakiewicz: "I disagree."

Councilman Densieski: "I disagree."

Supervisor Kozakiewicz: "I disagree and at that, we're going to recess."

Christopher Kent: "Can I raise one issue that I think we should address. I'm sorry. They keep raising more issues. We will not have one Riverhead town ambulance at the site. The ambulance service is being completely provided at the promoters expense by a private company. We're also setting up two primary physical- "

Supervisor Kozakiewicz: "Tents."

Christopher Kent: "-- two medical facilities on site. We have an agreement with Central Suffolk Hospital that went over our medical plan- "

Supervisor Kozakiewicz: "As well as Brookhaven Hospital."

Christopher Kent: "-- as well as Brookhaven Memorial and they both approved it. And like I said, we're providing our own ambulance. In fact, we've offered, even the ambulance, the Metro Care, the people providing the ambulances, have even offered that if someone in the area needs an ambulance outside of the venue, they may have the best chance to drive there and pick up the person. They are willing to do

that."

Supervisor Kozakiewicz: "Thank you. At this point, we're going to recess and we're going to take a 10 minute- how about a 15 minute- it's been a- yes, I think a few of us have to use the facilities."

Meeting adjourned: 9:24 p.m.

Meeting reopened: 9:44 p.m.

Supervisor Kozakiewicz: "Attention everyone. Let the record reflect that the time of 9:44 p.m. has arrived and we're going to resume to take up resolutions please."

Resolution #600

Councilwoman Sanders: "Authorizes the Town Clerk to publish and post annual financial report summary for the year 2002. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #601

Councilwoman Blass: "This resolution adopts the hourly rate schedules for Dvirka & Bartilucci Consulting Engineers to the Riverhead Town Board. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #602

Councilwoman Sanders: "Sets fees and policy of skateboard complex sponsorships. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #603

Councilman Densieski: "Rita, you guys having a problem hearing back there?"

(Unidentified - from the audience) "Yes."

Councilman Densieski: "Testing, test. Can you hear?"

(Unidentified - from the audience) "Only Rose."

Councilman Densieski: "Rose, is yours on?"

Councilwoman Sanders: "I'm sorry."

Supervisor Kozakiewicz: "Yeah, it's working. Okay. Where are we?"

Councilman Densieski: "Authorizes the change order for the handicapped access project. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #604

Councilman Densieski: "The Meyer farmland development right capital project budget adoption. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes. This resolution is authorizing us to proceed forward with buying approximately 4.6 acres of development rights from lands of Richard and Donna Meyer and we're looking to acquire it for \$33,000 an acre. So this is the process so that allows us to go to a closing. And I vote yes."

Barbara Grattan: "The resolution is adopted."

Resolution #605

Councilwoman Blass: "This resolution is a capital project budget adoption in connection with the farmland development rights purchase from Mr. Gatz. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "As indicated on the resolution, this is Gatz II which means there was a Gatz I. We closed with the county. This is another 17.5 acres. Same thing. Allows us to proceed to closing and I vote yes."

Barbara Grattan: "The resolution is adopted."

Resolution #606

Councilman Lull: "Harbes farmland development right capital project budget adoption. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "I hate to do this but this is 33 acres at 35 an acre- \$35,000 an acre. And I vote yes."

Barbara Grattan: "The resolution is adopted."

Resolution #607

Councilwoman Sanders: "Capital project budget adoption for the Pisacano farmland development right. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "7.1 acres, \$31,000 an acre. Yes."

Barbara Grattan: "The resolution is adopted."

Resolution #608

Councilman Densieski: "This the Rienzo farmland development right capital project budget adoption. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes. 12 acres."

Barbara Grattan: "The resolution is adopted."

Resolution #609

Councilwoman Blass: "This a capital project budget adoption in connection with the acquisition of the Krupski farmland development rights. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "I can't restrain myself. 59.6 acres, \$30,000 an acre. And yes."

Barbara Grattan: "The resolution is adopted."

Resolution #610

Councilman Lull: "That's the Janelwicz farmland development right capital project budget adoption. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes. 41 acres, \$27,000 an acre."

Barbara Grattan: "The resolution is adopted."

Resolution #611

Councilwoman Sanders: "Capital project budget adoption for the Crowder farmland development rights. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "22 acres at 35 an acre and yes."

Barbara Grattan: "The resolution is adopted."

Resolution #612

Councilman Densieski: "The Cichanowicz farmland development rights capital project budget adoption. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes, and this is finally 10 acres. Thank you."

Barbara Grattan: "The resolution is adopted."

Resolution #613

Councilwoman Sanders: "Recreation program fund budget adjustment. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #614

Councilman Densieski: "Is a Water District budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #615

Councilman Densieski: "Is a Grangebelle Park bulkheading Phase II capital project budget adoption. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #616

Councilman Lull: "2003 recreation capital improvement project, capital project budget adjustment. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #617

Councilman Densieski: "The Austin Funfgeld farmland development right capital project budget adoption. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "I don't know how this one got out of sequence. This one's almost 15 acres, 14.14 acres at \$30,000 and I vote yes."

Councilman Lull: "You've got a running total there?"

Supervisor Kozakiewicz: "No. I wish I kept a running total. We'll do it afterwards."

Barbara Grattan: "The resolution is adopted."

Resolution #618

Councilwoman Sanders: "General fund budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes;

Kozakiewicz, yes. The resolution is adopted."

Resolution #619

Councilwoman Sanders: "2003 Community Development Block Grant budget adoption. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #620

Councilman Lull: "Approves a Now Hiring banner of TG Friday's Restaurant and it's a temporary sign. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders."

Councilwoman Sanders: "Normally we give a three months and this is only six weeks. So either amend the date or is there a reason that we know of as to why it's only- "

Supervisor Kozakiewicz: "I think that's all they asked for. Six weeks."

Councilwoman Sanders: "That's all they asked for?"

Supervisor Kozakiewicz: "Yes."

Councilwoman Sanders: "Okay. Yes."

The Vote (Cont'd.): "Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes The resolution is adopted."

Resolution #621

Councilwoman Sanders: "Approves the sign permit of Target. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, no; Blass, no; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #622

Councilman Densieski: "Accepts the offer of sale of property owned by Paula Esposito and Carole Dugan. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #623

Councilman Densieski: "Authorizes the Supervisor to submit a grant application for financial assistance to the New York State Office of Parks, Recreation and Historic Preservation pursuant to the provisions of Title 9 of the Environmental Protection Act of 1993 and the federal Land and Water Conservation Fund Act for a project known as the Weeping Willow Motel Acquisition Project and Commitment of Matching Funds. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #624

Councilwoman Blass: "Motion to amend."

Councilman Lull: "Councilwoman Blass."

Councilwoman Blass: "Yes?"

Councilman Lull: "Were you going to amend?"

Councilwoman Blass: "Yes."

Councilman Lull: "Because I had an amendment, too. Go ahead."

Councilwoman Blass: "Okay. Maybe they're the same."

Councilman Lull: "Okay."

Councilwoman Blass: "Wouldn't that be great?"

Supervisor Kozakiewicz: "Wouldn't that be amazing."

Councilwoman Blass: "I'd like to respectfully request that four names be added to this list. They would be a representative from the Riverhead Chamber of Commerce, a representative of the Long Island Farm Bureau, a representative of Townscape, and a representative from Sustainable Long Island. And Mr. Pike has offered to represent that organization. The others we're just asking for a representative of their choice? That's my motion."

Supervisor Kozakiewicz: "So you'd actually identify Rob Pike as the representative from Sustainable Long Island?"

Councilwoman Blass: "That's correct."

Supervisor Kozakiewicz: "Okay. Any other motions to amend?"

Councilman Lull: "Yes. My- I've taken a look at the people who are here and I realized that a lot of these people have been involved in the master plan process right from back in 1994 with the Hamlet Study groups and the CAC.

What I would like to see and, you know, I would like to see these people on this committee plus the people that Barbara mentioned and also to approve an invitation to all members of the CAC to become members of the committee."

Councilwoman Blass: "By CAC, are you talking about the Citizens Advisory Committee not the Conservation Advisory Council?"

Councilman Lull: "Yes."

Councilwoman Blass: "Okay."

Councilman Lull: "Most of these people were on that or a lot of

these people were on that but it's larger than that and I would like to see that- those people given at least a chance. All five members, excuse me, members of all four civic associations- I mean Hamlet Study groups, for example, were there and I'd like to see them included as well."

Councilwoman Blass: "I have no objection to them- "

Councilman Lull: "Yeah, I have it right here."

Supervisor Kozakiewicz: "All right. So we now need a motion to second the amendments. We have two amendments. We probably should have voted on the first one first and then the second one, but we have two amendments, motions to amend before the Board."

Councilman Densieski: "We can't vote on as amended?"

Supervisor Kozakiewicz: "Oh. I think we should move to amend unless there's any objection."

Councilman Densieski: "No objection."

Councilman Lull: "I'll move both amendments."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Okay. Vote on the amendments, please."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes."

Supervisor Kozakiewicz: "And now to- we have to vote on the resolution as it's been amended."

Councilman Densieski: "Has it been moved?"

Supervisor Kozakiewicz: "It needs to be moved as amended. Is there a motion to move it as amended?"

Councilwoman Blass: "I make a motion to move Resolution #624 as amended."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded as amended. Vote, please."

The Vote: "Sanders, yes; Blass, yes; Densieski."

Councilman Densieski: "You have the choice to sit home and watch TV and eat potato chips or you can volunteer your time to your community when there's an important project and these people have so I'm going to support them and vote yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Barbara Grattan: "Do you have- Jim- "

Councilman Lull: "Yes. I'll give it to you."

Resolution #625 through 632

Councilwoman Sanders: "Would anyone object to my moving Resolutions 625 through 632?"

Supervisor Kozakiewicz: "We'll applaud you for that."

Councilwoman Sanders: "For various appointments to different positions with the Recreation Department. I'd like to move Resolutions 625 through 632."

Councilman Lull: "Why not 633?"

Councilwoman Sanders: "I can't."

Supervisor Kozakiewicz: "Well, there's a reason why 633 can't be moved."

Councilwoman Sanders: "Because it can't. That's why."

Supervisor Kozakiewicz: "All right. So 625 through 632. Is there a second?"

Councilman Lull: "Yeah, second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes;

Kozakiewicz, yes. The resolutions are adopted."

Resolution #633

Councilwoman Sanders: "Appoints a fill in lifeguard Level V to the Riverhead Recreation Department. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, abstain; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Barbara Grattan: "Now we know more."

Supervisor Kozakiewicz: "Correct."

Resolutions #634 through 642

Barbara Grattan: "634 to- "

Councilwoman Sanders: "642. I'd like to move Resolutions 634 through 642. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolutions are adopted."

Resolution #643

Councilwoman Blass: "This resolution amends a prior resolution where in we're correcting an effective start date for a Riverhead town summer employee. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, abstain; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #644 through #647

Councilwoman Sanders: "644 appoints and 645 ratifies. Is that a problem?"

Supervisor Kozakiewicz: "No. I think we can do 644 through 646 if we wish."

Councilwoman Sanders: "And 647 as well."

Supervisor Kozakiewicz: "647, I'm sorry. Yes."

Councilwoman Sanders: "I'd like to move Resolutions 644 through 647, again appointing various positions for the Recreation Department. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolutions are adopted."

Resolution #648

Councilwoman Blass: "This resolution approves the site plan of Riverhead's Congregation for Jehovah's Witnesses. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #649

Councilwoman Blass: "This resolution authorizes the Town Clerk to publish and post a help wanted ad for an account clerk typist. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Densieski: "Discussion. I'm just- I don't remember what department that's in."

Supervisor Kozakiewicz: "The Building Department."

Councilman Densieski: "Okay. Thank you."

Supervisor Kozakiewicz: "Any other discussion?"

Councilman Densieski: "No."

Supervisor Kozakiewicz: "Vote, please."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #650

Councilman Lull: "Authorizes the Town Clerk to publish and post a help wanted ad, sorry, for a Maintenance Mechanic II. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #651

Councilman Lull: "Accepts the resignation of John Impellizzeri of the Water Department. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #652

Councilwoman Blass: "This resolution authorizes the Sewer District superintendent and a Sewer District employee to attend a course. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #653 and 654

Councilman Lull: "653 approves G.W. Plumbing as a drainlayer; 654 approves Advanced Cesspool Technology Inc. as a drainlayer, both for the Riverhead Sewer District. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolutions are adopted."

Resolution #655

Councilwoman Blass: "This resolution approves the application of the Riverhead Central School District. This is in connection with the Cancer Society's Relay for Life. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #656

Councilman Densieski: "Approves the application of Darkside Productions, Inc. for a haunted house. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded. Discussion?"

The Vote: "Sanders."

Councilwoman Blass: "Discussion."

Supervisor Kozakiewicz: "Yeah, I think we had talked about eliminating the June dates for obvious reasons. Is there anybody who would object to deleting those?"

Councilwoman Sanders: "No, I wouldn't. And just in the Resolve, at least three days, the Fire Marshal shall be contacted at least three days in advance."

Supervisor Kozakiewicz: "That's the problem."

Councilwoman Sanders: "If there was a- "

Supervisor Kozakiewicz: "That's the problem. It's not three days. I would ask is there a motion to amend?"

Councilwoman Blass: "I would make a motion to amend to eliminate the June 6, 7 and 8 dates from the resolution."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded. Vote on the amendment or if there's no objection, why don't we just do the whole thing."

Councilman Densieski: "Yeah, fine."

Supervisor Kozakiewicz: "Vote on the resolution as amended. I don't think there's anything that objectionable. Okay."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes, as amended."

Barbara Grattan: "The resolution is adopted as amended."

Resolution #657

Councilwoman Blass: "This resolution refers a proposed amendment to Chapter 12 of the Riverhead Town Code to the Planning Board. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #658

Councilman Densieski: "Authorizes the Supervisor to execute an agreement between the Town of Riverhead and the Wicks Group PLLC. So moved."

Councilman Lull: "Second."

Councilwoman Sanders: "Discussion."

Supervisor Kozakiewicz: "Moved and seconded. Discussion."

Councilwoman Sanders: "Were we able to come up with any agreement on a cap for this particular project?"

Supervisor Kozakiewicz: "Yes. We had a discussion. In fact, unless there's objection and we can revisit it. We should add on the Now, Therefore, Be It Resolved clause that in connection with the aforementioned services, in an amount not to exceed 25- okay, in an initial amount not to exceed \$25,000. And, of course, to be subject to review. But I think it would be a fiscally good thing to do to keep track of it and to keep an eye on it. So, right. So, that's what the motion is to amend, to add that phrase. Quote in an initial amount of \$25,000- in an initial amount not to exceed \$25,000. Okay. Is there a second to amend that?"

Councilwoman Blass: "Yes."

Supervisor Kozakiewicz: "Okay. Okay."

Councilman Densieski: "Jim moved it."

Supervisor Kozakiewicz: "I'm sorry. What was that?"

Barbara Grattan: "So Barbara and Rose- who did the motion to amend?"

Supervisor Kozakiewicz: "I think it was moved by Densieski, Lull, and I indicated what the motion was to amend. I'll move to amend. I don't think there's anything so they can't amend it."

Barbara Grattan: "Supervisor to amend and who seconded it?"

Supervisor Kozakiewicz: "Barbara did."

Barbara Grattan: "Blass. Okay."

Supervisor Kozakiewicz: "And vote on the resolution as amended please."

Barbara Grattan: "Sure."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. Resolution is adopted as amended."

Resolution #659

Councilman Lull: "Authorizes the Supervisor to execute a contract agreement. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded. Discussion, please."

Councilwoman Blass: "Discussion. There were a couple of outstanding issues that I would be very uncomfortable at this point to discuss them on the dais in light of the fact that this involves an employee's contract. I'm not sure, Mr. Supervisor, any of the issues that we brought in terms of particular concerns have been resolved satisfactorily."

Supervisor Kozakiewicz: "I can tell you that I did share the comments with the employee as well as others and I understand your concerns and I- if there's a motion to amend which I don't think would be the right thing to do, of course, I think what we should do is either vote on it or take some other action. I agree, if there's any questions on it we can talk further but what's the Board's decision? I know- "

(Some inaudible discussion among the Board)

Supervisor Kozakiewicz: "It can be tabled if- there's a motion, there's a second to move it. I mean it's an outstanding motion on the floor. If there's no further discussion, we should move for a vote. If there's- unless there's further motion by the Board."

(Some inaudible discussion among the Board)

Councilman Lull: "Yes, Mr. Supervisor, I move to- move to table this."

Supervisor Kozakiewicz: "Is there a second?"

Councilwoman Blass: "I'll second."

Supervisor Kozakiewicz: "Okay. There is an outstanding motion to- and second to table. Vote, please."

The Vote: "Sanders, yes; Blass, yes; Densieski, no; Lull."

Councilman Lull: "I was not here for the discussion of this contract, I was away on vacation. I would prefer to have a chance to look it over and to discuss it. So I would be in favor to table it. Yes."

The Vote (Cont'd.): "Kozakiewicz, no to table."

Barbara Grattan: "The resolution passes."

Supervisor Kozakiewicz: "To table. Yes. Okay. Resolution 660."

Resolution #660

Councilman Densieski: "I don't have 660. I have 659 and 661."

Councilman Lull: "I don't have a 660 either. Wait, here it is. It's the big one."

Councilman Densieski: "Okay. I don't have that one."

Supervisor Kozakiewicz: "This is the license agreement between the- I mean lease agreement between the town and Roanoke Nursery School."

Councilman Densieski: "Yes. I have the contract in my office but I don't have the resolution for some strange reason. Got one. Thank you."

Authorizes the Supervisor to execute a supplemental lease agreement between the Town of Riverhead Community Development Agency and the Riverhead Water District (Landlord) and the Roanoke Nursery School, Inc. (Tenant) for property located on Columbus Avenue,

Riverhead. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders."

Councilwoman Sanders: "Discussion. I just have a question on the item 22, option to renew. We're giving them again one successive 10 year period. Is that, no- oh, you don't have it? Item 22 on the (inaudible) towards the back. One, two, three, fourth page from the back. Option to renew."

Supervisor Kozakiewicz: "That's the previous contract. That's the original agreement which is- this is recited in the first, second Whereas, that the original license agreement which was entered into in 1992 was for an original term of 10 years and provided for an option for an additional 10 years.

What we're electing to do is deal with the second supplemental lease agreement which could be for a provision- okay- "

Councilwoman Sanders: "And it also calls for a 10 year renewal, right?"

Supervisor Kozakiewicz: "No. No. It's- the first paragraphs are the Witness which are a recitation of what the prior agreement was. And what that second Whereas is, is describing the fact that that prior lease agreement, understand that that's the lease and the document that we're signing is called an option or a supplemental lease. So you have to make sure you're referring to the same agreement.

The original lease was for 10 years. It provided for an automatic option for the tenant to get 10. So this is for 10 in accordance with that original lease agreement and that's it. It's on page 2, the term, at the top of that supplemental or option agreement. Okay? Okay? Any other discussion?"

Councilwoman Sanders: "Nope."

Supervisor Kozakiewicz: "Okay, vote, please."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes;

Kozakiewicz, yes. The resolution is adopted."

Resolution #661

Councilwoman Blass: "This resolution authorizes the Town Clerk to publish and post a public notice to consider the draft generic environmental impact statement in connection with the Town of Riverhead comprehensive master plan. So moved."

Councilman Densieski: "Second the motion and discussion."

Supervisor Kozakiewicz: "Moved and seconded. Discussion, please."

Councilman Densieski: "Okay. Do we have- legally have enough information to post and publish?"

Supervisor Kozakiewicz: "Counsel? Throwing this one at you. I know my gut feelings, but go ahead."

Dawn Thomas: "We don't currently have the document. So if you publish and post, the document would need to be available when the publication was made which would be on I believe on Thursday if I'm not mistaken."

Councilman Densieski: "It should say on there."

Supervisor Kozakiewicz: "It indicates in this resolution that it would be published on the 5th so that would have to be amended."

Dawn Thomas: "Right. I think we worked that out."

Supervisor Kozakiewicz: "So it's already in the paper?"

Dawn Thomas: "I think it will be ready to be available."

Supervisor Kozakiewicz: "Okay. So then my next logical question is when this makes it in the paper, and an interested citizen comes into the Town Clerk's office, I'm not looking to adjourn this, but what will they be able to get?"

Dawn Thomas: "It depends on what you have on whether or not you have the document. If the document is not available- "

Councilman Densieski: "Worse case scenario we'd have to repost

and republish. Worse case scenario. Right or no?"

Councilwoman Blass: "Or is it possible that the draft document that we know currently exists and that's in the Clerk's office could suffice to hold or schedule the hearing and during the hearing proper the Planning Board perhaps could present their recommendations as part of the testimony and part of the record."

Councilman Densieski: "Would that be a complete document though?"

Councilwoman Blass: "Well, we have a document that's complete now."

Councilman Densieski: "The draft, right?"

Councilwoman Blass: "That's the draft. That the Planning Board is working on."

Councilman Densieski: "Well are we going to have to do the action twice, I guess is my question."

Supervisor Kozakiewicz: "We're on 661 which is actually the GDEIS."

Councilwoman Blass: "That's the GDEIS."

Supervisor Kozakiewicz: "Which if that's available and that's ready, but I know I'm still stuck on the other issue which is, I guess, there's going to be another one which is the next one, 662, so. If there's a GDEIS available and the public can pick that up on June 5th, then obviously there's not a problem with going forth with this one. Okay?"

Councilwoman Blass: "Maybe Rick can speak to that issue?"

Supervisor Kozakiewicz: "Just identify yourself for the record, sir."

Richard Hanley: "Richard Hanley, Planning Director. Is it the Board's wish to have the DEIS hearing on the same evening on the same evening as the hearing on the master plan?"

Councilwoman Blass: "Yes."

Richard Hanley: "Because I think that was your desire in order to not confuse the public- "

Supervisor Kozakiewicz: "That was the original timetable, envisioned that."

Richard Hanley: "So, if you are going to depart from that, then we have to be sure we have a document from Mr. Immorita (phonetic) in enough time for the public to be able to review it at the Clerk's office. If you want to maintain having those hearings on the same evening which is not a Town Board night, it was a special night just dedicated and devoted to this subject, then maybe you want to talk about the other resolution first because there's some logistics here."

Supervisor Kozakiewicz: "So then we have- "

Richard Hanley: "The actual master plan- "

Supervisor Kozakiewicz: "Well, I have a very straightforward question. Do we have the document that's being referred to in Resolution 661, the GDEIS?"

Richard Hanley: "No."

Councilwoman Blass: "No."

Supervisor Kozakiewicz: "It goes back to what I said earlier. It seems we're straining to get this done which I applaud the Board and I think it's a good thing that we're trying to get this done and enforce it and make it move forward. But, by the same token, what are we accomplishing? It's not available and it's not there for republishing or reposting and furthermore what is the public going to look for?"

Richard Hanley: "By law, the Clerk has to have that document 10 days prior to the hearing otherwise you have to adjourn the hearing."

Supervisor Kozakiewicz: "Correct."

Councilman Densieski: "What do you think, is that document going to be here in time or- "

Richard Hanley: "Well, Mr. Immorita is working on it and I have a call, he's going to be dropping it off, but if the intent of the Board is to hold the hearing on the GDEIS the same evening as the

Master Plan, you might want to think about the logistics of the actual Master Plan hearing."

Councilwoman Blass: "When do you expect the Planning Board to pass their resolution referring their document to us?"

Richard Hanley: "The town law states that the special board that you have designated to prepare this plan must make a formal report to the Town Board."

Councilwoman Blass: "Right."

Richard Hanley: "That is in the form of a resolution of the Planning Board. And what we have been attempting to do is chapter by chapter produce a document that shows additions that the Planning Board desire as well as deletions from what the consultant suggested. These are not necessarily policy issues. They're internal inconsistencies that we desire not to be in the plan, some grammar changes, syntax, things like that.

There are some policy decisions as well or changes as well, but that must be done by resolution and under the law, the Board has 90 days from the date that you get that resolution of the Planning Board to hold a hearing. Now, I'm not suggesting that you wait 90 days but the Planning Board has been very particular about getting this in a form that is as good as it can be."

Councilwoman Blass: "And I commend them for that and- "

Richard Hanley: "And they're spending an extraordinary amount of time doing this."

Councilwoman Blass: "-- I know it's been a very tedious process."

Richard Hanley: "Yes."

Councilwoman Blass: "However, the question, you know, remains, do you have a general idea of when you think the Board will be ready and be in a position to pass a resolution referring that document to us?"

Richard Hanley: "Barring a special meeting of the Planning Board, the Planning Board would meet the third Thursday of June which is what? Today is- "

Supervisor Kozakiewicz: "The 19th."

Richard Hanley: "The 19th. So there could be a resolution on the 19th of June which would not allow obviously the date that's in this resolution to occur."

Supervisor Kozakiewicz: "Any other discussion? Okay. Is there any other motions with respect to Resolution 661?"

Councilman Densieski: "Did you say 661 could be passed or do you want to wait?"

Supervisor Kozakiewicz: "I think if the desire of the Board was to do both hearings on the same night and devote one evening to the GEIS and to the Master Plan, and- "

Councilwoman Blass: "How about we set the- could we possibly set that date now then if- why don't we make an assumption that we will be receiving these documents on the 19th? If they have to be- and call the hearing at the appropriate time now. Maybe that would serve to sort of ensure- well, whatever the dates- "

Councilman Densieski: "The first meeting in July would be the 3rd."

Councilwoman Blass: "Third meeting in June- "

Councilman Densieski: "No. July 3rd."

Supervisor Kozakiewicz: "Well- "

Richard Hanley: "I think that you wanted to hold the hearing not on a Town Board- "

Supervisor Kozakiewicz: "Right. The idea was to set up a separate night when the room was available."

Richard Hanley: "So if you're going to pick a new date, just think about a night that- because I think it's going to be a fairly lengthy hearing."

Councilwoman Blass: "I would agree with you."

(Some inaudible discussion among the Board)

Councilwoman Blass: "Can we table it just until somebody can do the calendar- could look at the calendar and then at the end of the meeting we can reconsider it?"

Supervisor Kozakiewicz: "I think we're straying here and with all due respect, we're trying to do something where we don't know if we're going to have a record. If the Board wants to vote for it, you're free to do that, understanding that (1) we don't have a document that we can guarantee the public is going to see, and (2) we may be doing this again. And I understand (inaudible). I think it's a great thing to try and get this done. If the- you know, unless there's any other discussion, there's a motion on the floor to- "

Councilman Densieski: "The only other- I would just like to make one other point if you don't mind. Possibly by setting a date maybe that would give us a deadline to work towards and some goals to reach. I wouldn't be opposed to it."

Councilwoman Blass: "That's exactly my point. Is it possible we could- "

Supervisor Kozakiewicz: "There's a motion and second to move the resolution. Vote, please."

Councilwoman Blass: "Well, we need a new date."

Supervisor Kozakiewicz: "Unless there's any other discussion."

Councilwoman Blass: "Well, we're looking to get the new appropriate date. Can we put them aside?"

Councilman Densieski: "Can we put them aside, Mr. Supervisor?"

Supervisor Kozakiewicz: "661 and 662."

Councilman Densieski: "661 and 662, please."

Supervisor Kozakiewicz: "All right."

Barbara Grattan: "663."

Supervisor Kozakiewicz: "663."

Resolution #663

Councilman Densieski: "663 is a resolution calling for a public hearing for the increase and improvement of the facilities of the Riverhead Street Lighting District of the Town of Riverhead. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #664

Councilman Lull: "Amends Town Board Resolution 129 which is the appointment of a wastewater treatment plant operator 3A. The title was incorrect. This changes it. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #665

Councilman Lull: "Approves the site plan, Paul Martin, Atlanta Bread Company. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass."

Councilwoman Blass: "I did not vote to support this special permit so I think it would be inappropriate for me to vote to approve the site plan. So I vote no."

The Vote (Cont'd.): "Densieski, abstain; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #666

Councilman Densieski: "Declares lead agency and determines the environmental significance of the conveyance of the Suffolk Theater. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "How appropriate, 666 for the Suffolk Theater. Wow. Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull."

Councilman Lull: "Was Rosemary's Baby one of the last- yes."

The Vote (Cont'd.): "Kozakiewicz, yes. The resolution is adopted."

Resolution #667

Councilman Lull: "Authorizes the Town Clerk to publish and post a notice of a public hearing for a special permit of Roanoke Realty Enterprises, Inc. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #668

Councilwoman Lull: "668 establishes lead agency status for a temporary music festival at Enterprise Park Calverton EPCAL in accordance with the State Environmental Quality Review Act, SEQRA.

In the early '90's, long before we had possession of this property, I made a proposal to the committee which was selected to plan the use of the Grumman property and that proposal was to begin development of this section of the property as a central area for concert and special events venue.

And I have been supportive of this project from the beginning, beginning many, many months ago. However, in taking a look through

the documentation for the- for SEQRA, we come across Section 14D. Section 14D says in part, the Riverhead police department, the New York State police department, and the Suffolk County police department provide law enforcement protection services to the site and adjoining jurisdictional areas.

As a result, I move we table."

Supervisor Kozakiewicz: "Is there a second? Is there a second?"

Councilwoman Sanders: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. That resolution is tabled."

Resolution #669

Supervisor Kozakiewicz: "669."

(Unidentified - from the audience): "Please have (inaudible). You're less than three days away from 50,000 people descending upon- "

Supervisor Kozakiewicz: "Sir."

Councilman Densieski: "Out of line."

(Unidentified - from the audience): "-- and you don't know what you're doing?"

Supervisor Kozakiewicz: "Sir."

Councilman Lull: "We know exactly what we're doing."

Supervisor Kozakiewicz: "Resolution 669."

Barbara Grattan: "Councilman Lull."

Councilman Lull: "669 approves the application of Field Day LLC for a permit pursuant to Chapter 90 of the Town Code of the Town of Riverhead. The Chapter 90 requires site plans, it requires traffic and parking plan, it requires insurance plans to be present, and it includes- it must include all county and state permits.

As a result, this must be tabled as well."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Yes. Yes. Well, there will be a news conference tomorrow morning at 10:00. I do have to say one thing before I vote on this because I know there's been a lot of discussion about who will come and I know I started to reference this during the discussion. And this individual did write a letter. It was a Mr. Volants and he wrote: I'm an educator with over 29 years of experience and I consider myself an environmentalist. That he was attending Field Day with his two kids.

I cited a 28 year old New Yorker who worked in the health care industry with Pfeizer Pharmaceuticals, a 28 year old mother of one who lived in North Babylon, an associate professor of environmental engineering at Manhattan who holds a PhD, who was bringing with him a former Army Captain who was a West Point graduate, an engineer.

Another individual who wrote, a PhD in Chemistry, 29 years old. A Southolder who lived in Southold most of his life, 26 years old, he's a project manager in a large publishing company. These are the people that we're afraid of.

A 37 year old who is a telephone technical support for EMC and whose friend teaches high school English who's 37. And another person who's 34 who works in a non-profit management.

Another two people, one who's 36. He is a Columbia University MBA. His wife is launching a new line of baby products.

These are the people we're fearful of. I vote to table. Excuse me. Excuse me. I vote to table."

Barbara Grattan: "That resolution is tabled."

Resolution #670

Councilman Lull: "Oh, I'm sorry, 670."

(Unidentified - from the audience: "(inaudible) wants to get police protection."

Supervisor Kozakiewicz: "Sir, I'm going to ask, police, please take him out. Escort him out if he's not going to behave himself."

(Inaudible from the audience)

Supervisor Kozakiewicz: "Resolution 670, folks."

Councilman Densieski: "I'll be outside later (inaudible)."

Councilman Lull: "We made a decision. You just don't understand it yet."

Supervisor Kozakiewicz: "Resolution 670, please."

Councilman Lull: "I don't have 670."

Councilman Densieski: "I don't either."

Supervisor Kozakiewicz: "I'm sorry."

Councilman Lull: "I've got two 671."

(Some inaudible discussion among the Board)

Councilman Lull: "All right. 670 separates employee of Town of Riverhead, excuse me, separates employment of Town of Riverhead employee. So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

Councilwoman Blass: "And seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #671

Councilwoman Sanders: "Authorizes the execution of an agreement with the town and the Eastern Suffolk Baseball Umpires Association. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #672

Councilman Densieski: "Amends Resolution #230. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #673

Councilman Lull: "Accepts the resignation of Vicki Belkin of the Justice Court. So moved."

Councilwoman Blass: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #674

Councilwoman Sanders: "Authorizes a change order and payment for home improvement project. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #675

Councilman Densieski: "Amends the site plan of Suffolk Cement Products, Inc. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, abstain; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #676

Councilman Densieski: "Approves the site plan of Liz Strebek for a two story retail building. So moved."

Councilwoman Sanders: "And seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #677

Councilman Densieski: "Approves the application of the New York Tent Company for a wedding at the Martha Clara Vineyard. So moved."

Councilman Lull: "Do I second that one?"

Councilman Densieski: "Yes."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #678

Councilwoman Blass: "This resolution approves the application of Martha Clara Vineyards for purposes of conducting a wedding. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz- "

(Some inaudible discussion among the Board)

Supervisor Kozakiewicz: "Okay, I think there's a discussion on this one. Which one are we on? 678?"

Councilwoman Sanders: "679."

Supervisor Kozakiewicz: "679."

Barbara Grattan: "678."

Supervisor Kozakiewicz: "678. Right. Okay. Yes."

Barbara Grattan: "All right. That resolution is adopted."

Resolution #679

Barbara Grattan: "Now we go to Resolution 679."

Councilwoman Sanders: "Yes. There is a discussion though. There seems to be- the dates are the same as the resolution in 677, hours of 3 to 10:30 and the one we approved on Resolution #677 is 5 to 10. Now I don't know whether that- "

Supervisor Kozakiewicz: "Different location."

Councilwoman Sanders: "Is it? Okay. Very good. All right. I didn't have that. Thank you."

Supervisor Kozakiewicz: "Okay?"

Councilwoman Sanders: "Yup."

Supervisor Kozakiewicz: "Vote, please. Is there a second?"

Councilwoman Blass: "Yes. Yes."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #680

Barbara Grattan: "Now we have maybe 680 to pay bills."

Councilman Lull: "So moved."

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Is there a motion and a second to pay bills?"

Councilman Sanders: "There was."

Barbara Grattan: "Okay."

Supervisor Kozakiewicz: "Vote, please. I missed it."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Barbara Grattan: "Now we've got to go back to 661."

Supervisor Kozakiewicz: "Correct, 661 and 662."

(Some inaudible discussion among the Board)

Supervisor Kozakiewicz: "All right. Let's- are we dealing with 661?"

Barbara Grattan: "We're doing 661. Yes."

Supervisor Kozakiewicz: "Monday what?"

Councilwoman Sanders: "July 7th."

Supervisor Kozakiewicz: "All right. That will give us enough time. I think as a practical matter, if we did this on the 14th of- 17th of June, wouldn't we accomplish the same thing but I mean if

that's what we want to do to make sure we get it noticed, we have plenty of time. God bless. I hope we get it out. Okay."

Barbara Grattan: "So this is on July 7th?"

Supervisor Kozakiewicz: "July 7th at 4:10. Okay. All right."

Councilman Lull: "Setting a public hearing- "

Supervisor Kozakiewicz: "Okay. Let's deal with it. 661. 661, we put aside. This is the one that's publishing and posting on the draft generic environmental impact statement in connection with the Town of Riverhead Comprehensive Master Plan.

What we're proposing to do, just to be clear, is amend the public notice to read that the notice will be held on the 7th day of July, 2003 at 4:10 p.m. Correct?"

Councilwoman Blass: "Yes."

Supervisor Kozakiewicz: "And the date of the notice and all other issues because it has gone in the June- well. We get into the same problem again. We already put in the paper and we put in the paper for the 19th of June. That's why- no, it's too late, it's gone to print."

Barbara Grattan: "The deadline is gone."

Supervisor Kozakiewicz: "That's why I say I think we're trying to strain to get this thing done where we've got problems. We can call for another special Board meeting. In fact, if the Board wants to do that, we can call for a special today on Thursday in the afternoon to take up a number of matters including these two resolutions and, hopefully, by then we'll have a better answer whether we're going to have these reports done in time."

Councilwoman Blass: "I still think that it would be helpful to have a date now that we could publish and obviously the other date of the 17th- the 19th the time will come and we will have to adjourn that hearing. I think it's helpful to have an outside date. I know that we're all anxiously awaiting this document and I think maybe if we set a date for a hearing that it may compel individuals to have an additional meeting or two if they have to. As long as we know that now we're- by state law we have to have it available to the public for a particular period of time.

I'm not trying to railroad or push this along but let's face it. I have been involved in this for four and a half years. I would really like to see some light at the end of the tunnel and if it means that we're taking it- a vote tonight to set a public hearing whether- we've already decided that that's the night, right?"

Supervisor Kozakiewicz: "No further discussion. Let's move the resolution. The resolution's been moved and amended. We're going to have to also amend the first page because quite frankly it's not going to be able to be published in the June 5th edition, we'll have to make that the June 12th edition. And on the question of the 19th of June, it's not going to be a legal hearing anyway because it's not been adopted by the Town Board. So, anyway. It's been moved as amended. Vote please."

Barbara Grattan: "Okay. I'm all confused now. Who moved it?"

Councilwoman Sanders: "Do you need it seconded as amended?"

Supervisor Kozakiewicz: "Yes."

Councilwoman Sanders: "Seconded."

Supervisor Kozakiewicz: "Okay."

Barbara Grattan: "And who introduced it?"

Councilwoman Blass: "I did."

Barbara Grattan: "Blass."

Supervisor Kozakiewicz: "661."

Barbara Grattan: "Okay."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "I- I think we look a little bit foolish. I wish we could have just said listen, let's do this the next meeting. It would have been a lot easier. We have a document that's available to the public. I don't know how we on one hand can't vote on stuff when we don't have documents in front of us and on the other hand we can."

I understand it's got to get done. I understand it should get done. I think it's somewhat unfair to the public to adopt something when we don't have it in front of ourselves. I'm only voting no because I think in the past we have adopted a policy where if we don't have a document completed in front of us, we have voted no. And we've said that we want a complete document that we can read, peruse and understand before we go to public hearing.

I'm not opposed to the Master Plan going forward. I think it's got to be done. It's been going on way too long and we need the commentary from the Planning Board pursuant to that section of law, 272A of the New York State Town Law, it's got to be finished, completed, but based upon the policy of this Board in the past where we want things in front of us I for one vote no but only on the principle that we don't have a document in front of us."

Barbara Grattan: "Okay, that resolution is adopted. Now we have 662."

Councilwoman Blass: "Same motion on the amendment."

Supervisor Kozakiewicz: "Okay. Is there a second?"

Councilwoman Sanders: "Second. That was June 12th issue?"

Councilman Densieski: "Sanders or Densieski on that?"

Councilwoman Sanders: "I'm seconding the amendment. I apologize."

Councilman Densieski: "That's all right."

Supervisor Kozakiewicz: "Okay. Vote, please."

Barbara Grattan: "And we're going to make it at 4:00?"

Supervisor Kozakiewicz: "Yes. July 7th at 4:00."

Barbara Grattan: "Okay."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull."

Councilman Lull: "Yeah, I also think that we may be rushing this but, you know, it's important to get it on paper. I have listened to people talking tonight. When you have one major issue,

they kept saying slow down, slow down, slow down; the other issue they kept saying go faster, go faster, go faster. So we'll take it in the middle someplace. I'll vote yes."

The Vote (Cont'd): "Kozakiewicz."

Supervisor Kozakiewicz: "Again, only because of principle, not that I'm opposed to getting the Master Plan done and complete, I'll vote no."

Barbara Grattan: "Okay, that resolution is adopted. We have tabled resolutions, two tabled resolutions."

Councilman Lull: "408?"

Barbara Grattan: "408."

Resolution #408

Councilman Lull: "408 authorizes the Supervisor to execute a water service contract with Field Day LLC, the Riverhead Water District."

Barbara Grattan: "We're taking it off the table?"

Supervisor Kozakiewicz: "It's got to be moved off the table."

Councilwoman Blass: "And seconded."

(Some inaudible discussion among the Board)

Supervisor Kozakiewicz: "Moved and seconded to take off the table."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes."

Barbara Grattan: "That resolution is off the table."

Supervisor Kozakiewicz: "And is there a motion to move that resolution now taken off the table?"

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "Is there a second?"

Councilwoman Blass: "Yes."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Sanders, yes; Blass, yes; Densieski, yes; Lull, yes; Kozakiewicz, yes. That resolution is adopted."

Barbara Grattan: "Now Resolution 597."

Resolution #597

Supervisor Kozakiewicz: "This is the Mountainbrook Homes which we were asked to table at last meeting. Is there a motion to take off the table? You have an objection on this? Okay. Is there a motion to take it off the table?"

Councilwoman Blass: "Yes."

Supervisor Kozakiewicz: "Is there a second?"

Councilwoman Sanders: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded to take off the table."

The Vote: "Sanders, yes; Blass, yes; Densieski, no; Lull, yes; Kozakiewicz, yes, to take off the table."

Barbara Grattan: "The resolution is off the table."

Supervisor Kozakiewicz: "Is there a motion to move Resolution #597?"

Councilwoman Sanders: "Motion to move it. So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Okay, moved and seconded. Vote, please."

The Vote: "Sanders, yes; Blass, yes; Densieski."

Councilman Densieski: "Yeah. The community knows that there

will probably be homes in there some day. I don't think that's the major objection but what they did is the Planning Board required them to tie into the existing community and the neighbors are clearly concerned about that.

I think it's a mistake personally, too, so I have to vote no."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. That resolution is adopted."

Barbara Grattan: "We have no more resolutions."

Supervisor Kozakiewicz: "Open comment period time. Yes, Gene Greaves. At this point, we do observe a five minute rule, folks."

Gene Greaves: "That's not going to be a problem."

Supervisor Kozakiewicz: "Okay."

Gene Greaves: "Gene Greaves, Calverton. I do have two questions. The first, what tabling those two resolutions does for us. I mean when will they be taken up since the concert is going to be taking place Friday afternoon from what we've been told is 3:00."

Supervisor Kozakiewicz: "I'd like to try and do it either at special tomorrow or Thursday. We- I want to- I can't discuss the strategy. There's a legal reason why we did what we did. I can't discuss it."

Gene Greaves: "Okay. My main concern is at this point whether we're doing it or not. As people have indicated, people are going to be in transit and if we wait much longer- "

Supervisor Kozakiewicz: "There will be a public announcement tomorrow morning on that issue at 10:00."

Gene Greaves: "Okay. The other question that I have is with regards to sand mining, Calverton Industries and TS Haulers. And what's being done in an effort to get both of them to comply with the court order stipulation with regard to Calverton Industries and with regards to the work stoppage with regards to TS Haulers."

Supervisor Kozakiewicz: "TS Haulers, we prevailed in Federal court as well as Supreme Court. We have fought the battle with TS Haulers since 1995. I will tell you that there's been a tremendous

battle that has been exerted to prevent them from moving forward. It's not been easy. If someone doesn't want to comply, although you may think it's simple, it's not black and white.

We went into court, we got a temporary restraining from Judge Bromley Hall back in '96, I think or '95 when I was town attorney. That lasted for about a month. Then, of course, Dawn Thomas was successful, our current town attorney, in getting another restraining order. We have- we need to show that they are in violation in order to move for a contempt proceeding. I can tell you that there's work presently being done in order to assemble the evidence in order to do that. We have to establish to the court satisfaction clearly that they're in violation and, therefore, in contempt of court, and that is working.

On Calverton Industries, I know that they have complied with most of the conditions, if not all of the conditions of their stipulation. They paid the monetary sum they were required to pay. They've been paying the periodic sums that they're required to pay and have filed a site plan which is currently being reviewed by us so the ball's in our court to provide them with response back to deal with and address each of the specific site plan issues. So they're responded to the request to provide the site plan. It's here; it's being worked on. It needs to be engineered; it needs to be looked at by our engineering consultants who are the ones who always look at the site plans. We just can't simply sign off on a site plan without making sure that it's engineered properly."

Gene Greaves: "Nor would I want them to, but from my understanding, we've had that for over a month since- at least April."

Supervisor Kozakiewicz: "It takes at least a month, two months to go through a full engineer's site plan to make sure it meets all code requirements."

Gene Greaves: "Is that something that should be wrapping up then based on those time lines by the end of this month?"

Supervisor Kozakiewicz: "I know that it's up to the consultants to get back to us to say that they're happy with the site plan as it's been put forth by them so I would hope that we can get that issued resolved in a 30 to 60 day period and approve a site plan that is in compliance with and furthers the stipulation."

Gene Greaves: "This way they can beautify the site instead of

the (inaudible) that they have over there- "

Supervisor Kozakiewicz: "That's correct. That's correct. That's correct."

Gene Greaves: "Thank you."

Supervisor Kozakiewicz: "You're welcome. Jill Lewis."

Jill Lewis: "Jill Lewis, Wading River, New York. I just--"

Supervisor Kozakiewicz: "Go ahead. Oh, I did want to add something before I forget. We are in court with TS Haulers on Friday, by the way. Okay, just so you know. We're also in court Thursday with the compliance hearing on Madonna. Sanctions hearing. So, go ahead."

Jill Lewis: "This is about the Field Day fest. I am trying to understand- we've had a roomful of residents, if the Town Board did not have all the necessary information to vote tonight, wouldn't it have been fair to let the people in this room earlier to have known that we didn't have the information to vote on it."

We sat there all night. It's extremely frustrating and to me if you don't have the information, it means that it's not being planned properly. So what are we waiting for?"

Supervisor Kozakiewicz: "There will be an announcement tomorrow morning, Jill, I promise you, 10:00."

Jill Lewis: "Thank you."

Supervisor Kozakiewicz: "All right. Sal Mastropolo, please."

Sal Mastropolo: "Sal Mastropolo, Calverton. Bob, what happened to the follow up on the Best Farms. I thought we had put it off for two weeks at the last meeting."

Supervisor Kozakiewicz: "We did. And there was a letter that came in earlier. We made an announcement that Peter Danowski had filed a letter asking for an additional two weeks. We granted that."

Sal Mastropolo: "Okay. Thank you."

Supervisor Kozakiewicz: "Thank you. Hand in the back, Joan"

Griffin."

Joan Griffin: "Good evening. Joan Griffin, Baiting Hollow. My favorite question, Crown Sanitation. Their request for the zone change and special permit. I understand back in March it was withdrawn. You tried to work out some kind of agreement between the public and Crown and the public spoke and you heard us and so and so forth with all that. So where does it stand now?"

Supervisor Kozakiewicz: "They have not pushed the application forward at all. Haven't come back, they haven't asked for it to be heard. I think Steve Haizlip always says that at some point we should notify them that if they fail to move it, we'll consider it having been abandoned. And I'll take that up with the Board as a discussion on it. Thank you for bringing it back to us."

Joan Griffin: "Thank you."

Supervisor Kozakiewicz: "You're welcome. Mrs. Farr."

Connie Farr: "Connie Farr, Calverton. This is my third request. I know you're busy with other important things but a streetlight on the corner of Osborn and Horton."

Supervisor Kozakiewicz: "You're absolutely right. It is the third request."

Connie Farr: "Okay. Just a ringleader."

Supervisor Kozakiewicz: "And I'll ask Jim Lull who handles our traffic matters and highway matters to speak to Mark Kwasna about that."

Connie Farr: "Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else? Okay, at this time, seeing nobody wishes to- oh, yes, sir. Mr. Griffin."

John Griffin: "We really wanted a decision one way or the other. What I think you did tonight didn't do justice. I know you must have a reason for it and we're going to hear about it at 10:00 tomorrow morning- "

Supervisor Kozakiewicz: "There is a reason. Well, what you'll hear tomorrow will be something unrelated but there is a reason why we

did it the way we did.

I'm going to tell you this."

John Griffin: "Go ahead."

Supervisor Kozakiewicz: "Contrary to what the public has said, this thing was planned and it was worked on very diligently by a lot of people. The county police department was brought into this issue right from the outset with Riverhead town police. You may not want to believe that but the truth of the matter is, the fact of the matter is, we knew early on that the town of Riverhead police needed assistance. Suffolk County police participated in all those meetings. Suffolk County police was part of it. Suffolk County police was going to provide support. In fact, not only Suffolk County police, but the Suffolk County sheriffs.

Only in or about May 22nd, which wasn't very long ago, after we made repeated requests for an intermunicipal agreement, after we asked please help us to get this thing documented, the "t's" crossed, the "i's" dotted which we've done throughout, did they tell us on May 22nd they could not do it. And what was the reason why they couldn't do it? Because they couldn't hold a special legislative meeting in time. Guess what? They held a special legislative meeting last night to take up a different matter.

The county for whatever the reason, whatever the politics are abandoned the project. It was planned, there would have been adequate security, there would have been adequate police and for whatever reason the Suffolk County level government chose not to help.

Knowing on May 22nd that there was this issue, there was an effort to reach out to other police departments and other law enforcement agencies because, again, contrary to what's been indicated, there has been extensive planning done to deal with traffic, fire rescue, sanitary, public water, potable- the port-a-sands, the layout of the stages, emergency routes, emergency vehicles, ambulance, you name it. There's 20 separate distinct sections that are addressed in that plan.

I don't know why the county chose to do what they did. But they never gave an indication that they were not going to help. They initially said they would help, they would assist, they would come to the event and participate and provide support."

John Griffin: "Okay. My next question is in order for this to take place this coming weekend, does this have to come to another Town Board vote? And if so, when is that going to happen?"

Supervisor Kozakiewicz: "I think if the county Health Department refuses to reverse their decision, which is now- it's in their hands. That's whose hands it's in now, the county Health Department's hands. If they refuse to reverse their decision, it can't take place because there's no mass gathering permit. That's my own opinion. That's a layman's opinion. That's my thought. That they're required to have a mass gathering permit. But it's the Health Department who now holds the bag of tricks. They hold this- "

John Griffin: "Well, it's them plus you five people, right? Because you still have to vote on it, do you not?"

Supervisor Kozakiewicz: "If they don't change their minds, we don't have to vote on anything."

John Griffin: "If they do, do you have to vote on it?"

Supervisor Kozakiewicz: "Yes, we do."

John Griffin: "When would that take place?"

Councilman Lull: "They must do theirs within 48 hours."

John Griffin: "And when must you do yours? It's only 72 hours away."

Supervisor Kozakiewicz: "We would hold a special Board meeting and there would be notice to all the public."

John Griffin: "Okay. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else? Yes?"

Bob Ballisandro: "Bob Ballisandro (phonetic), Baiting Hollow. I came tonight also expecting an answer and before I go any further, I want to apologize for lashing out the way I did to each and every one of you.

I'm one of those that went to Woodstock and Watkins Glen and there was very poor security there and the way the weather has been going with all the rains, okay. I'm seeing flashbacks of what I went

through."

Supervisor Kozakiewicz: "Why are you seeing flashbacks? Does it have to do with the weather or something else?"

Bob Ballisandro: "I mean I wish I was young again (inaudible), but I'm not. Okay?"

Supervisor Kozakiewicz: "How many people attended Woodstock?"

Bob Ballisandro: "A lot more than this."

Supervisor Kozakiewicz: "How many?"

Bob Ballisandro: "A lot- "

Supervisor Kozakiewicz: "Three hundred thousand. Okay."

Bob Ballisandro: "But they had the security, okay. But that's neither here nor there. With all the rains and everything, we were drenched, we were walking in mud up to our knees."

Supervisor Kozakiewicz: "You were not on runways though, were you? You were not on a taxiway, were you?"

Bob Ballisandro: "There's a lot of grass out there that will turn to mud, with people walking over the land. Okay? What I'm saying, okay, is there's a right way to do something and a wrong way. Planning something four months on something of this size in my opinion is really not that much time to have it organized the right way, the way nobody gets hurt."

And my other concern is right across the way is Calverton National Cemetery. And that's a sacred place to me because my Mom is buried there. Okay? Now, what security is going to be in place for National- for Calverton National Cemetery where people aren't going to be camping out there? And drinking up, having parties out there and turning over the tombstones? Okay. That's my concern, that something like this is not going to happen. Okay?

I can't go to the office and hold them responsible for something like that. I'd have to come to the town of Riverhead and I don't want to do something like that. That's why, you know, everything's being kept a secret as far as the security which I understand and I respect with all the terrorists- "

Supervisor Kozakiewicz: "Given Sept. 11th, it has to be."

Bob Ballasindro: "Yes, I understand and I respect that. But, I mean, some things we should be told. You know, national security, you know they tell us to keep alert, orange alert, yellow alert, so forth and so on. Okay? The town of Riverhead is keeping us in the complete dark. Okay? We're not being told anything. Okay? And we make the community. The promoter is not going to make this community. Okay? We, the people of Riverhead make this community."

Supervisor Kozakiewicz: "I hear you and, again, I repeat what I said last week when there was a news conference on this. I'll repeat what I said earlier today and what I've said throughout. That if there's inadequate security and inadequate police, it can't be supported, all right. And nobody wants to put the residents of the town, residents of Suffolk County, or the individuals who are going at risk."

I just, once again, want to restate. This was, as I think pointed out by their counsel, an adequate amount and the right time to plan. Everything was put in place. The county participated in this fully. They understood the plan. There was a great deal of cooperation between the county police department, the county sheriff's office as well as the Riverhead town police to deal with the issues on hand. The security company that's been hired has over 20 years of security experience. The individual who is the head of it is also a former police officer so he's familiar with that.

The transportation plan was done by a company up in Albany, (inaudible), who has designed very large transportation issues throughout the state and, in fact, have done a great deal of work in this regard. And they are held with a great deal of respect by the New York State Department of Transportation.

The individual who laid out the site plan for this, who is (inaudible) resources, what he does for a living, is when the Army needs a temporary city to be brought in, guess who they turn to? This individual. He lays out the private city, where the bridges are, where the tents go up, where the mess hall is set, where the church goes, whatever other any needs are that the Army needs on a temporary basis, and he does that for the United States Army and he still does that for the United States Army. They assembled a team of professionals.

The site at Calverton, you probably can't get on it, but I know

that all the Board members have gone out there to take a look at what's going on. I think some of the press have been out there. It looks beautiful. They've done a tremendous amount of work. It's probably as nice, if not nicer, than when Grumman was there as far as being manicured, spruced up and neat. They have done whatever we have asked them to do. They have done whatever the New York State DOT has asked them to do. They have done whatever Suffolk County Department of Health Services has asked them to do. They have done whatever Manorville Fire Department has asked them to do. They have done whatever Suffolk County Fire Rescue, FRS, has asked them to do.

And I know we had a generalized statement about-- earlier admitted about people not caring, as bottom line profit, but they were going to bring in, their plan was to bring in mounted patrol officers to maintain crowd control and to have additional security over and above that. It's unfortunate, again. I think the unfortunate thing here is that politics being what it was, which I don't know why the county decided to abandon or choose as late as May 22nd to notify us that there was not enough time to convene a special meeting when, in fact, again, I'm going to repeat myself, they did hold a special meeting yesterday."

(Unidentified): "You don't think it's because we have a pending suit against the county, do you?"

Supervisor Kozakiewicz: "It may have something to do with- it may have something to do with Empire Zone, too, I don't know. But, anyway. Okay?"

Bob Ballisandro: "I definitely agree with you as far as security. Because three months ago, I was involved in an accident on (inaudible) Road and if it wasn't for the police department and the paramedics, okay, I don't think I'd be here today. Okay?"

Supervisor Kozakiewicz: "Okay."

Bob Ballisandro: "You probably saw me come in here with my hand up in a sling- "

Supervisor Kozakiewicz: "Yes, I remember."

Bob Ballisandro: "-- I ended up losing a finger in a car accident. Okay? It was a freak accident and everything. Not the whole finger, but the tip of my finger. Okay? And the police officer that I had on my cell phone, thank God for cell phones, can you hear

me now? Okay. Thank God for cell phones, okay. He walked me through everything to where I didn't, you know, collapse on the scene. Okay? And he told me exactly what to do. He walked me through everything. Okay? You know, I don't know what his name was. But I'm sure I could find out if I went to the police department and I told them."

Supervisor Kozakiewicz: "Absolutely."

Bob Ballisandro: "I'll always be grateful for that, for them and for the paramedics and for what they did for me at the hospital. You know, so security, if this concert was going on them, I probably would have passed out and probably would have fell into the (inaudible). All right. So security without a doubt is the most important thing. Thank you."

Supervisor Kozakiewicz: "Thank you."

Councilman Densieski: "Motion to adjourn."

Supervisor Kozakiewicz: "And is there a second?"

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Thank you all."

Meeting adjourned: 10:55 p.m.

Barbara J. Gattan
Town Clerk
