NOTICE

The success of last week's first Alive on 25 event is yet another significant sign of Riverhead's post-pandemic recovery. Since Town Hall and all town buildings have fully reopened, the public's use of Zoom to participate in Town Board and other town meetings has steadily declined, with members of the public opting instead for in-person attendance.

Accordingly, as of July 20, 2021, we are returning to pre-COVID-19 status, and the use of Zoom will no longer be available. In keeping with my goal of continually improving our Information Technology infrastructure, I have directed our IT department to refocus their efforts on upgrading our computer systems, improving redundancies and enhancing IT infrastructure.

Additionally, members of the public are reminded they may engage the Town through mail, email, by telephone, and/or in person.

I want to thank our dedicated IT staff, who kept Town meetings running smoothly through the Zoom platform during the pandemic.
