PRESS RELEASE

FOR IMMEDIATE RELEASE: Wednesday, November 18, 2020

CONTACT: Donna Lynn Sadowsky, Legislative Aide (631) 727-3200 ext. 655

RIVERHEAD IDENTIFIED AS POTENTIAL MICRO-CLUSTER

Supervisor Yvette Aguiar is urging all Riverhead residents to remain vigilant and maintain proper social distancing protocol, as Riverhead has been identified as approaching micro-cluster status in accordance with New York State's Cluster Action Initiative. "With colder weather upon us, residents are spending more time indoors, within confined spaces", Aguiar said. "Suffolk County officials are working with us to identify and monitor clusters, and will be providing rapid testing in an effort to slow the uptick of positive cases in our area. It is crucial not to become complacent, as COVID-19 positivity rates are increasing dramatically across the United States. The key to preventing the spread of the disease is testing. I encourage every resident of Riverhead to be tested at one of the COVID-19 testing sites within our area. We expect a local outdoor testing site to be operational in the immediate future."
