

Minutes of a Regular Town Board Meeting held by the Town Board of the Town of Riverhead, held at Town Hall, Howell Avenue, Riverhead, New York, on Tuesday, April 7, 1998, at 7:00 p.m.

**Present:**

|                   |            |
|-------------------|------------|
| Vincent Villella, | Supervisor |
| Mark Kwasna,      | Councilman |
| James Lull,       | Councilman |
| Philip Cardinale, | Councilman |
| Christopher Kent, | Councilman |

**Also Present:**

|                      |               |
|----------------------|---------------|
| Barbara Grattan,     | Town Clerk    |
| Adam Grossman, Esq., | Town Attorney |

Supervisor Villella called the meeting to order at 7:00 p.m. and the Pledge of Allegiance was recited, led by the children from the Red Cross swim program.

Jane van den Thoorn: "We are honoring tonight these four young people who were part of our swim lessons last summer. Each year the Town of Riverhead offers swim lessons for all of its residents and each year we have three swim-a-crosses events at our three beaches. And what the children have to do is swim so many laps, anywhere from one to 30 laps and they earn money through sponsors who pledge a certain amount per lap or a predetermined amount. Last year our swimmers raised over \$3,900 to benefit the American Red Cross-- is that on-- okay. Last summer, the swimmers raised over \$3,900 to benefit the American Red Cross adapted aquatics program for teaching water safety and swimming to the handicapped and these four young people you see before you were our top swim-a-cross earners and they earned \$100 or more. So we would like to give them a big hand.

And as I call your name, would you come up and-- are our certificates over there? All right. We have Andrew Olsen Goodale. We have Charles Olsen Goodale. We have Rosaleigh Sparks. And Laude Bullock. Congratulations."

Supervisor Villella: "Let's have a hand for them. All right."

Thanks a lot, Jane."

Councilman Lull: "Those of you who are regulars here recognize this acrylic award as one of the nicest awards-- one of the most important awards that we give here. We give it to people who have done special service to the Town and it is with a great deal of pride that I would like to give this this evening to the person who did more in the two years and three months of my first tenure here in office to keep me in line of anybody else. And that's not where he kept me on the golf course, I was usually quite far afield. But as we dealt with the town problems, Bob Kozakiewicz, always kept me on a straight line. Bob."

Robert Kozakiewicz: "Wow. I had prepared notes. About two weeks ago, Kim Lucas gave me a call, I'm sorry if I'm standing in front of you, Vinny. And she said are you going to be available on April 7th? The Town Board wants to give you something. I jotted my calendar, said yeah, I'm available, didn't give it much thought-- I don't know what they're going to give me anyway-- and went on my merry way.

This morning I happen to be stopping by Town Hall to drop off some letters and an application and Jim Flood caught me and he said, hey, look at this. I said this is really serious. I should probably make some notes up and I did and they are going to stay there.

My wife said you should try to be comical. That's not my style. I tried to devise a top 10 list; that's not my style. I'm the type of guy that could trip over a punch line as well as anybody else. I know that one thing is for sure. If I could do it over again, like in Ground Hog Day or whatever the name of that movie was, knowing full well what I know today, I would do it in a milisecond. It was a wonderful experience. The four years passed by so fast. It seems like it was just the other day when I was being sworn in as Town Attorney.

I know there's a couple things I do want to say that I'm going to miss. I'm going to miss Barbara Grattan, sitting across from me at the Town Board meetings, although I probably won't miss the Town Board meetings. Although I've got to say, I did watch the Town Board meeting the last one with a great deal of interest on TV,

something I never did before. I will miss this place; I'll miss all the friendly faces. The great times we had. The little (inaudible) with Jack-- I've got to get you in there, Jack. It's also my last opportunity probably to be up here and speak for a while, so I probably should (inaudible) the mike, but I have nothing more to say except thank you."

Councilman Lull: "Bruce, could you and your wife come up here, please?"

Supervisor Villella: "You have to do the resolution first."

Councilman Lull: "By way of introducing the resolution, we had a-- we had the opportunity to interview about 10 candidates for the job of Fire Marshall. And this was one of the best examples-- the best experiences, I'm sorry, as a member of the Personnel Committee that I've ever had. Because I have never seen such a quality group of candidates, truly quality group of candidates. We're very pleased with the way things turned out. And we've also very pleased with the way we were able to do things. Chris Kent and myself represented the Town Board. Jack Hansen was on it and Leroy Barnes and we interviewed all the candidates, got through the interviews, had an immediate agreement on the top three, and then the four of us who represented Town Hall were able to step away from the table and tell the police chiefs call them in again, talk to them at length and I imagine they really put you through it, call them in again and talk to them, the top three, talk to them and you guys make the decision. We're comfortable.

We had to look at two things. One, is the person qualified? And, two, is that person when he goes out to speak to public groups going to represent the Town Board well? We got those two things taken care of; we were satisfied; the Town Board members were satisfied; we turned it over to the police chiefs-- fire chiefs, I'm sorry about that. We turned it over to the fire chiefs of the four departments and what they came up with was the recommendation of our number one choice and that is Mr. Bruce Johnson. I would like to introduce a resolution that appoints Bruce Johnson, Fire Chief I. So moved. It's Fire Marshall."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Supervisor Villella: "And I do want to thank the Fire Department, the chiefs, and the commissioners in helping out with the decision because this is their man. They're the ones that have to work with them and that's the reason why we did it this way, so I think it's working out great, and also for Leroy for helping out in your department because he is going to be in your department and we are going to swear him in right now."

Barbara Grattan swore in Bruce Johnson as Fire Marshall

Supervisor Villella: "We have to approve the minutes. The minutes of March 17th and the Special Board Meeting of March 23 and 31st."

Councilman Kwasna: "I make a motion to approve the minutes of March 17th meeting, also the Special Board Meeting of March 23rd and March 31st. So moved."

Councilman Lull: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Kent, yes; Cardinale, yes; Kwasna, yes; Lull, yes; Villella, yes. The minutes are approved."

Supervisor Villella: "Barbara, would you like to read the Reports, please?"

**REPORTS:**

- |                   |  |
|-------------------|--|
| Sewer Department  | Discharge monitoring report for February, 1998 |
| Police Department | Monthly report for February                    |
| Receiver of Taxes | Total collection to date:<br>\$30,933,301.93   |

|                 |  |
|-----------------|--|
|                 | Utility collection report for March of 1998, total collected: \$140,944.86                                     |
| Town Clerk      | Monthly report for March, total collected: \$11,798.39   |
| Town Historian  | Annual report for 1997   |
| Open Bid Report | Processing and disposal of household hazardous waste which was opened on 3/23/98 at 11:00 2 bids were received |
|                 | Roof replacement George M. Young Community Center, opened on 3/24/98 at 11:00, 2 bids were received            |

**APPLICATIONS:**

|                           |  |
|---------------------------|--|
| Fireworks permit          | Riverhead Raceway - July 4th, rain date, July 5th at 9:00 p.m.   |
| Shows & Exhibition Permit | Riverhead Business Improvement District mosaic and street painting festival, May 24, 1998, hours 9am to 5pm grounds of East End Arts and Peconic River parking lot |
| Special permit            | William Dries and Anthony Specchio, southside of Old Country Road and west of Kroemer Avenue, construction of two restaurant buildings                             |
| Site Plan                 | Vineyard Caterers, Main Road, Aquebogue, construction of 5,103 square feet of building additions, facade alterations   |

and attendant site improvements

Parade permit

Wading River Shoreham Chamber of Commerce, May 17, 1998, at 9:00 a.m.

Supervisor Villella: "I'd like-- I want to see if there's a correction for shows and exhibition permit. The time on that, is that supposed to be at 12:00? Lynn? It's the Riverhead Business Improvement District mosaic and street-- "

Barbara Grattan: "9:00 a.m. to 5:00 p.m."

Supervisor Villella: "Okay. It's going to be changed. It's going to be from 12 to 6, I believe. I just want to make-- "

Barbara Grattan: "Okay. The application said-- "

Supervisor Villella: "It's been changed since then. The Riverhead clergy made an announcement they would like to have it start at 12 instead of-- I think it was supposed to be at 11, really. So-- would you like to read the Correspondence?"

**CORRESPONDENCE:**

Southold High School

Thanking Michael Reichel for allowing the Environmental Science class to tour the sewer plant

13 declarations of status

Received as a part of interest in all matters relating to the application for a change of zone of Traditional Links, LLC

Riverhead Garden Club

Requesting the Town Board in remembrance of Arbor Day to plant a tree at the George M. Young Community Center in Jamesport

|                     |  |
|---------------------|--|
| Riverhead Centre    | 4 letters received in favor of   |
| Atlantis Seaquarium | Seven yes votes received   |
| Petition            | From Patricia Van Slyke with 75 signatures on petition against Cablevision rate hike |
| Town of Southampton | Notice of a Public Hearing to be held on March 27, 1998                              |

Barbara Grattan: "That concludes Correspondence."

Supervisor Villella: "Thank you, Barbara. Phil, would you like to say something on what you got today from Cablevision? Is this the appropriate time now?"

Councilman Cardinale: "Sure. Yes. We received a copy of a press release from June Markley (phonetic) of Cablevision Today, dated today. Riverhead. Cablevision of the East End announced that it will lower the price for its broadcast basic only customers from \$13.20 to \$9.83 for customers in the towns of Riverhead, Southold and Southampton who subscribe to the service on or before March 31, 1998. This discounted price is retroactive to January 1, 1998. So customers will receive an automatic credit. Customers who opted for broadcast basic after March 31 will continue to pay the regular \$13.20.

They did this, they indicate, after listening to the recent concerns of our existing broadcast basic only customers, the senior citizen groups and our local public officials and then determined, they did, that a lower price for our existing broadcast basic was appropriate. Cablevision of the East End provides cable service to more than 60,000 households.

I just received this. I haven't spoken to June Markley. Obviously I will read it without comment, but I am intrigued as to why it's only the three towns. And I'm also intrigued as to why it's only on or before March 31st and not (inaudible) but only retroactive. In any event, that was just received."

Supervisor Villella: "Okay. The Public Hearings are going to start."

Public Hearing opened: 7:31 p.m.

Supervisor Villella: "Let the record show 7:31 has arrived. Barbara, could you please read the public hearing?"

Barbara Grattan: "I have affidavits of publishing and posting of a Public Hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:15 p.m. on April 7, 1998, to hear all interested persons who wish to be heard regarding the consideration of a proposed local law to amend Chapter 101 of the Town Code. Section 101-3 Stop and Yield Intersections; railroad crossings, parking fields. Stanley K. Tanger Boulevard."

Adam Grossman: "I'll just actually continue reading from the chapter what is being proposed. These are some stop signs and one ways at Tanger Outlet Center. 101-3 outline certain stop intersections where stop signs will be erected at Tanger Boulevard at driveway A going east, driveway B going south, driveway C going south, driveway D going south, Tanger Mall Drive going south, driveway E going north, and Tanger I west on Tanger Mall Drive and the outer loop connection, one way streets at Tanger Drive east from Route 58, and installation and maintenance at Stanley Tanger Boulevard with Steven Boulevard with Tanger I inner loop EB and Tanger I inner loop (inaudible). That is the proposed change that is the subject of this public hearing."

Supervisor Villella: "Would anyone like to speak on that? Did you get it?"

Adam Grossman: "Stop signs and one way streets, my guess is for public safety (inaudible)."

Supervisor Villella: "I guess no one wants to speak on it. Okay. They got their stop signs. The time is 7:33. I declare the public hearing closed."

Public Hearing closed: 7:33 p.m.

---

Public Hearing opened: 7:33

Supervisor Villella: "7:33, the time has arrived. Barbara, would you read the public hearing, please?"

Barbara Grattan: "I have affidavits of publishing and posting of a public hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:20 p.m. on April 7, 1998, to hear all interested persons who wish to be heard regarding the consideration of an amendment to Chapter 58 entitled "Dogs" Section 58-4 Redemption of Impounded Dogs."

Supervisor Villella: "Jim."

Councilman Lull: "I don't even have a copy of it."

Barbara Grattan: "Here, Jim."

Councilman Lull: "Thanks. Over the last couple of years we've been trying to update our Chapter 58 Dog laws to better indicate what is actually happening and what is actually necessary. The changes in this particular law have to do with fines for unidentified dog fines and owners have to pay for redemption of an unidentified dog. The fines are in keeping with the New York State Ag and Markets Law but our fines as is typical of most the local fines, when they compare with the Ag and Markets, our fines are higher than the Ag and Markets fines and this is moving those fines higher.

It also at the same time indicates that anybody dealing with an animal that they are taking-- they are redeeming at the pound, must, in fact, show proof of licensing. And in addition to that, we have besides the redemption fee we also have had a boarding fee which has been on the books and this proposal drops that boarding fee."

Supervisor Villella: "Thank you, Jim. Anyone like to speak on this? If not, do I hear anything out there? No? Okay. The time is 7:36 and I declare the public hearing closed."

Public Hearing closed: 7:36 p.m.

---

Public Hearing opened: 7:36

Supervisor Villella: "Let the record show 7:36, the time has arrived. Barbara, would you please read the public hearing?"

Barbara Grattan: "I have affidavits of publishing and posting of a public hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:25 p.m. on April 7, 1998, to hear all interested persons who wish to be heard regarding the consideration of an amendment to Article XI, Chapter 108 Section 108-45 Subsection B to provide for day care center as a special permit use within the Industrial A Zoning Use District."

Supervisor Villella: "Would anyone like to speak on it? Pete?"

Peter Danowski: "My name is Pete Danowski. I do represent the owners of the land as well as the prospective tenant, the Kiddy Academy Learning Center (phonetic). Several months ago, we filed an application with the town asking for a special permit pursuant to a provision that describes a use as a non-nuisance industry. The Town Board has recently decided by resolution, a SEQRA determination that allows this now to move forward. The town on its own motion has proposed an amendment to the Town Code that would have this particular use available by special permit.

So there is now pending an application for a special permit under the existing ordinance and tonight we have two hearings on, one on that pending application under the existing ordinance and one on a proposed new amendment to the code which would also allow by special permit this particular use.

I would suggest that we perhaps either read the public notice for the second public hearing now so that when you bring people up to discuss the topic, you don't bring them back up a second time and double the length of the speeches tonight. We do have some supporters here tonight. We can probably pack the hall with additional people talking about the need for this type of center and would like Mr. Stephen Carlo in a few minutes to approach the microphone and explain his operation as the Kiddy Academy Learning Center director."

Supervisor Villella: "Barbara would you like to-- "

Barbara Grattan: "I have affidavits of publishing and posting

of a public hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:30 p.m. on April 7, 1998, to hear all interested persons who wish to be heard regarding the special permit petition of Kroemer Avenue Holding Company Inc. to provide for a day care center use on property located on Kroemer Avenue."

Supervisor Vilella: "Thank you, Barbara."

Peter Danowski: "I'd like to also point out these are available for public inspection but for the benefit of this Town Board, we had some photographs taken of other towns where such centers are located in industrial areas. That was one of the first questions that came up when we discussed this topic. These photographs have been hand delivered to the Planning Department. Mr. Hanley has reviewed these and I would like to say that I'm hopeful at the end of tonight's meeting that at least with regard to the public hearing that seeks an amendment to the Town Code, that you might close that public hearing and at least verbally adopt an amendment to the code. That would at least allow the Planning Department and the Town Board to consider this use either under the old ordinance or under a new ordinance should you adopt the amendment. To not do that and wait a month for the new amendment to possibly be adopted would probably delay it two months because then we would have to file a new application under the new then amended code."

So I ask you to consider that at the end of tonight's public hearings. Let me hand up these photographs, you may wish to take a look at them. I would just note that one of the photographs is the location of this particular site. Mr. Carlo, when he comes up here, will speak about very briefly of this location and why he sought out this location and why it is a good location for his type of operation. Thank you. I'll address the Board if there is a need for answers to questions at a later time or to address any comments that may be made by the public at a later time. I've asked Mr. Carlo to come forward if you allow that to happen."

Supervisor Vilella: "Definitely. Thanks, Pete. Mr. Carlo."

Stephen Carlo: "Good evening. My name is Stephen Carlo. I own the Kiddy Academy with my wife Lisa. We are-- in one month we'll be open for two years. We've been in this process for about four years, the Kiddy Academy. We are at capacity in our Miller

Place facility with on any given day between 150 and 200 families. We are looking to take the same type of program in a similar size facility in Riverhead that we have in Miller Place. The program itself is a full year program, we have a summer program and a school year. We're open five days a week from 6:30 a.m. to 6:30 p.m. with the programs being all curriculum based during the full year. We try to stay on a school calendar for purposes of the ages of children but at the same time we have a summer program that has field trips and activities for the children that they can't otherwise get.

We start enrolling children at the age of six weeks and we go through a five year program. Like I said, it's curriculum based. We have certified teachers in every classroom with assistants (inaudible) that are approved by the state. Our staff is CPR certified. They have continuing education that is required by the state which they meet. Our kindergarten program is a full day program as opposed to Riverhead and Miller Place which is a half day program. That's one of the biggest needs that we've seen primarily with the public school system not being able to handle the additional students that come in.

In addition to just having a full day program, we have a before and after care program for parents that still want to use the public school system whether it be for financial reasons or just going with neighbors, and that program is available in the mornings and in the evenings to meet the needs that parents have who work full time and can't just have a half day kindergarten program.

We also offer meals, snacks-- two hot meals as opposed to most of the centers, a hot breakfast and a hot lunch, snacks in the afternoon except for the infants whose parents would be bringing their own meals, food for the infants.

In addition to just the program, one of the things that we found to be very important is to be competitive in the pricing and that's going to be a big issue out here as well. What I would say about the pricing, we think that we're extremely competitively priced. Right now for full time program which is 50 hours a week, 10 hours a day, we range anywhere from \$2.90 to \$3.70 an hour. Now I don't know if any of you have young children but I have three at

home and I can tell you that I'm paying a little more than that for a babysitter and she's not a certified teacher. I don't have a 6,000 square foot playground in the backyard and she's not making hot meals for the kids. So, we feel that we're very competitively priced as well.

But one of the major things that seems to be an issue tonight is the location and what I'd like to say just from our experience in Miller Place, why this is such an ideal location, what's happened with child care in the industry is that parents are working-- both parents are working full time and they're looking for something that's easy for them, that provides a safe program that has a curriculum base. And when I say easy for them, it's not easy to go 10 minutes out of your way on your way to work. We're all generally late as it is getting anyplace. On the way home, people don't want to have to go out of their way, they don't want to drive to a neighborhood, they don't want to be going into an area where they have a tremendous amount of lights or stuck in traffic. We looked for a site that is in an area that allows for high traffic but not a main road and Kroemer Avenue is really a perfect spot for that. That's why we chose it. It's not on 58; it's not on 25. It's between it so we've got a road that can handle that type of traffic but at the same time allow people on their way to work in the morning to get back onto those roads-- onto the LIE and get where they have to be going. You're not going to run into tremendous amounts of traffic in those areas. So that the area itself is designed perfect for the needs that we have and it's very similar to our Miller Place facility. I don't know if you've been there, but it's right off of 25A which is a main road and Miller Place Road is-- it's a double line road. We've a truck depot just down the road with major trucks coming but it doesn't affect us. We're off the road, we have a circular driveway; there's an easy entrance and exit just like there would be in the Riverhead facility.

For those reasons we definitely chose the site. A couple people have come out asking us why we are actually going into the site. But just the reverse; it's not us going into it; we definitely chose it. This is perfect for the needs that we had; perfect for the needs the parents have that need this type of facility. Because that's why we do it."

Supervisor Villella: "Thanks a lot, Steve. Would anyone else like to speak? Steve? I'm sorry, Steve."

Steve Haizlip: "Steve Haizlip of Calverton. Okay. I get the drift of what's going on here. We have an industrial area and we have to have a special permit to let the kiddies in there. Now, my question is this, since this is an industrial area and a high impact and they have a lot of heavy vehicles and cement mixing and what have you there by this building, I want to inquire if any provisions have been made to fix these kids in because let's face it, when you keep kids tied up and you've got them in a room and you let them out, the first thing they want to do is like wild horses, open space and whoop and holler. I don't care how many teachers, you can't just keep them all together. So the only way you're going to control them and keep them from getting in these vehicle ways is have a fence in the area for them. And that's my main concern of safety."

Supervisor Villella: "Steve, would you like to-- please."

Stephen Carlo: "Yes, security-- I didn't touch on it before. But we have a full security system with cameras and monitors which is great for the program but it doesn't address that question so I will and the answer to that is the doors along the front of the building will be removed and it's going to be windows. The children aren't going to be able to leave the building on their own. The only place they'll be able to actually leave the building-- two places. One is through the front door which they have to get through two double doors which you will have to have a key to get out just like in our current facility, and the second is through the back which enters into a playground that's roughly 6,000 square feet with a six foot stockade fence around it."

Supervisor Villella: "Oh, it has a fence. Thanks. Anyone else? Rolph?"

Rolph Kestling: "Rolph Kestling, Wading River. About eight, ten years ago it seems to me the town spent big bucks on Stotsky Park putting up a day care center. How's it going to impact that? Last time when that center opened up in Stotsky Park, half a dozen -- not a half a dozen, a few other day care centers went out of business. Riverhead's got a lot of money invested up there, too,

unless we can close it up."

Supervisor Vilella: "They're doing too good to close up up there."

Rolph Kestling: "Well, how will it impact that? I mean I'm not for-- I can't say I'm for or against it, I'm just thinking what's going to happen up there? Why did we bother spending the money?"

Supervisor Vilella: "That's a good question. I'd rather have Steve answer that."

Stephen Carlo: "My answer to that would be to start when we originally started talking about this and put our name out in the area, we received over 150 calls from families in the area. One of the things with Stotsky Park is they don't take children at six weeks old. That infant group is an area that isn't really covered anywhere in Riverhead. The larger portion of children which is the older age group, they're in Stotsky Park, and that's why we had the volume of calls that we had so far."

Supervisor Vilella: "Thank you. Anyone else like to speak? Yes. Yes, please. State your name."

Mildred Cowan: "My name is Mildred Cowan and I have industrial property in that area on Kroemer Avenue. I have about four, five acres there with two industrial buildings there for manufacturing. It's a highly traveled road. We have big trucks coming into our place. The trucks rumble up and down the road all the time. And if you want an industrial park, you don't put children into an industrial park. This is not safe. There's no guarantee that those kids aren't going to somehow get out, run in the street and be hit by a car. Now if you have an industrial park there that is being well developed and you don't have any true industrial park as you do in Nassau County, Hauppauge and all those areas, and you need industrial parks. You need industrial parks because it supplies employment for all the local people. And this is a very-- it's unprecedented; it's inappropriate and I don't see how you can even consider having a day care center in amongst a lot of industrial buildings. And I'm against it."

Supervisor Villella: "Thank you. Anyone else like to-- yes, in the back, please."

Pam Pallescni: "Hi, my name is Pam Pallescni and I've worked in Riverhead for the last 15 years, have two small children that currently attend the Miller Place facility and if I can allay some of the fears of some of the people that have spoken. Security is the number one issue of the parents above Town Board members. The Miller Place facility-- I have a three year old and a five year old -- and it's true when you let them loose, they run out. There is no letting them loose. I've had in home day care for the past-- for three years prior to enrolling them at Kiddy Academy. Even home day care has more risks and I work much-- with a clearer conscience knowing that my children are in a self-contained facility and, again, Miller Place is in an industrial park. In home day care, children can run in the street much less supervised.

The other thing, working in Riverhead and not living in Riverhead, both my husband and I have been at a loss to have our children close to us-- this area. And certainly having a facility in the Riverhead area where we can visit our children and we are dedicated professionals, would certainly be a benefit for us.

The other-- and I lost my train of thoughts-- but-- thank you, I'm very nervous."

Supervisor Villella: "You did a good job."

Pam Pallescni: "Thank you."

Supervisor Villella: "Thank you. Yes."

Greg Conrad: "Gentlemen, Greg Conrad. Riverhead. I had no strong feelings one way or the other about this facility but I don't hold much credence in the argument about traffic. My son goes to school on Roanoke Avenue at the Roanoke Avenue School and I would say that's one of the most heavily traveled roads in town. There are safeguards inherent in the building, you know, it's not really a concern I don't think. Traffic is really not an issue, in my opinion. Again, I don't think-- I don't know any of the parties; I don't have any stake in this whatsoever. I'm blessed. My kids are able to stay home with my wife. But as far as the

traffic issue, most of the schools in this town are on heavily traveled roads, Pulaski Street, Osborne Avenue. The only one that probably isn't is Riley Avenue. So if the only argument we have against this is traffic, I know the facility has a tremendous reputation, some of the people I work with bring their kids there. Again, I don't have any strong feelings one way or the other about it, but if traffic is the only real concern, I don't know if that should be a (inaudible) to let them open their business. Thank you very much for your time."

Supervisor Villella: "Thanks a lot, Greg. Anyone else like to speak on this? Yes, Sandy."

Sandra Mott: "Sandra Mott, Riverhead. I don't have any immediate need for this facility but I think some additional considerations should be made for the children who will possibly attend this. I just-- when I read this, I just (inaudible) off a few things for my own concern. Not only the traffic, we have an auto junkyard across the way, we have the Peconic River at the far end, we have a propane storage tank facility at one end, and in addition to the traffic to and from Tanger Mall-- in addition to its main entry on 58 as well as the heavy traffic. My presumption is there is going to be additional heavy traffic and I would presume more likely than not, once-- Riverhead Centre if it ever comes starts to be, that's going to be more heavily traffic as it is currently because people will want to avoid Route 58. So it's not a question of just traffic; we've got more than one issue."

I'd like to know what kind of evacuation plan they have. God forbid a child does go out-- get out in some manner even though they have these methods of control. I worked for a YWCA in Boston where we had very stringent controls, too, but when we had a fire drill a baby was inadvertently left behind and we had a full staff of very qualified people as well and this was a number of years ago. So no matter that you have locked doors on the inside and so on, children are very creative and very aware of what's going on. And if they want to get out, they might very well. I'd just like to know what kind of evacuation or emergency controls they would have in those circumstances. Perhaps the gentleman isn't from Riverhead and isn't familiar particularly with the town's location and concerns."

Supervisor Villella: "Steve would talk about that."

Stephen Carlo: "I'll be very honest with you. I'm not familiar with Riverhead's evacuation plans or needs but I can tell you that we're regulated by the state and we have an evacuation plan and the Kiddy Academy, any center like this with over 44 children has an evacuation plan that's in place approved by the state, by the fire marshall, everyone actually gets their hands in it and we have to have a fire drill once a month where we actually go through the entire process. That's not planned (inaudible). And that's how we handle it. Looks like there's something else-- "

Sandra Mott: "Well, in addition if the child gets out, what do you (inaudible). Have you ever had a child escape?"

Stephen Carlo: "No. We've never had-- "

Supervisor Villella: "Okay. We've got to control this-- you have to be at the podium. In the back, please."

Tanya Lachenmeyer: "Good evening. My name is Tanya Lackenmeyer. I currently work in Riverhead town in Calverton and I have a four year old son who attends in Miller Place. I live in Rocky Point, however, I am moving to Wading River so this facility is perfect for me in particular. It's a very well run facility, very safe, very clean. I have nothing but good things to say about Kiddy Academy and I feel that it would be a great asset for the town of Riverhead for them to be here.

I commend them on picking up a learning disability that my son has, they picked it up a year ago and he's getting treated for that. So they're professional in every way. Thank you."

Supervisor Villella: "Thank you. Anyone else like to speak?"

Councilman Cardinale: "Rick Hanley, could you approach? I have a question. It is my understanding that the special permit use comes under the non-nuisance industry special permit requirement."

Richard Hanley: "The original petition that was made was made under the non-nuisance industry portion of the Industrial A district. Correct."

Councilman Cardinale: "And the suggestion that the code itself be amended to include this use, you brought that up?"

Richard Hanley: "Yes. That came from my department. One of the reasons why we did that was-- suggested that was because in the early '90's there was a recognition by the Town Board at the time that there was a marked demand for day care centers in the Town of Riverhead, given changes in planning. And at that time, the town Board saw fit to amend all the business districts in the town to provide the day care center by special permit. For some reason we did not look at the industrial districts and it was our thought that if the Town Board desired, given the fact that there may be development of industrial parks in the Industrial A district which would employ great numbers of people which might require this service, that it would be a reasonable use within the district."

Councilman Cardinale: "If-- the reason I ask the question is I have some question as to whether this is a non-- maybe not nuisance, I have some question as to whether child care is an industry that could be granted a special permit as a non-nuisance industry. I want to know your opinion on that."

Richard Hanley: "Well, I'll agree that it is not certainly a non-nuisance industry. What I thought was more reasonable, more rational, was to actually call out the use specifically as a special permit use in the district. And that's what the hearing is on this evening."

Councilman Cardinale: "So your position as Director of Planning, you would say that the amendment to the-- "

Richard Hanley: "The Industrial A district."

Councilman Cardinale: "The Industrial A district could be granted properly but not the special permit."

Richard Hanley: "Yes. We have yet to analyze all of the special permit considerations and criteria relative to this-- "

Councilman Cardinale: "I'm focusing specifically on whether a special permit as a non-nuisance industry-- "

Richard Hanley: "I would agree, it should not be non-nuisance industry."

Councilman Cardinale: "Okay. That's what I'm-- thank you."

Supervisor Vilella: "Thank you, Rick. Anyone else like to speak on it? Pete."

Peter Danowski: "I just want to go back on the issue. It's sort of interesting, Rick and I always seem to get along even though we disagree from time to time. Certainly no one is suggesting that the child care/learning type of center is not an industry in this country. It certainly is and certainly if you talk about definitions in the Town code about non-nuisance, you are talking about factors such as pollution, air pollution, maybe you could say it's noise pollution, maybe, kiddingly, you could say kids are a nuisance. But I think it clearly meets the definition non-nuisance industry."

Obviously if this client is granted a special permit on an amended code provision, I have no objection because it's a special permit under either. But I really do think it's non-nuisance. That's why I've asked you to consider adopting the amendment, then we don't even have to get into the argument. All right. We do that tonight, we can consider it.

I think you-- one of the other issues which I failed to mention was that previously the Town Board had granted a special permit for a sand and gravel processing yard on this site. That use will be abandoned with a granting of a permit for this particular use and you're allowed two uses on the site. I just throw that out -- it's for the back area in the back. Someone questioned that at one time so there will be to that extent less trucks on the highway. Thank you."

Supervisor Vilella: "Thanks, Pete. If not, I'd like to-- "

Councilman Kent: "I have a question. Pete, I'm looking at this photo. You're saying that the sand and gravel pit behind-- "

Peter Danowski: "It's not a pit, actually it's a-- "

Councilman Kent: "Well, the processing yard."

Peter Danowski: "Right."

Councilman Kent: "Behind the property there, to the-- I guess that's the east of that parking lot, that use is going to be discontinued?"

Peter Danowski: "That's correct."

Councilman Kent: "Is that where the playground is going to be located?"

Peter Danowski: "That-- to the rear of the building but not to that far reach."

Councilman Kent: "So some of the parking lot is going to be taken out?"

Peter Danowski: "That's correct. We'll have to go through a site plan process-- "

Councilman Kent: "I understand. I'm just trying to get an idea here of what we're dealing with because, you know, I'm looking at this site and I think this property was developed as a trade shop for contractors."

Peter Danowski: "A trade shop, sand and gravel processing yard. That was the whole title. And you're allowed two uses. One of the earlier discussions that we may even have had at a work session with this Board was a question I think Mr. Hanley raised about how many uses will they have on this site and are you getting rid of one of the uses? And we said we very clearly are. And that parking area or the development in the back of that project may take place to the exclusion of the sand and gravel processing yard and we'll only have two uses and accessory uses on that site."

Councilman Kent: "How much of the building is going to be occupied by Kiddy Academy?"

Peter Danowski: "Approximately half the building."

Councilman Kent: "The south half or the north half?"

Peter Danowski: "And that's part of the application. The south half. I'd also point out that another client of mine is doing a magnificent job, Nicholas LTD (phonetic) is doing a (inaudible) paving system of interlocking blocks. They're doing sidewalks and parking areas around the existing building per a site plan approval and building permit and they'll have carefully screened off this location with a rather large, tall, and thick wall that I'll bring back before the Board and show you that site plan. And I think you'll be really impressed with that development next door. It's really been a major improvement compared to what existed three or four years back on that site next to it."

Supervisor Villella: "Thanks, Pete."

Rolph Kestling: "Rolph Kestling, Wading River. Sorry for the second time around but all of a sudden I'm starting to build an opinion on this. How far is the school-- how many feet is it from that propane installation?"

Councilman Kent: "I think that's at least two sites over."

Rolph Kestling: "Well, site doesn't mean anything."

Councilman Kent: "These are large sites. I would say-- I'm looking at a photo-- an aerial photo. It looks probably 800 feet."

Rolph Kestling: "Because I remember about two years ago they had that little fire-- where was it, in Southampton, by the propane installation and, boy, they-- it took me hours on the road. I was going down it and everything blocked up. I think the Town Board ought to consider the propane gas."

I remember the one they had down in Texas back in the '30's and how many-- I don't know if you remember, but over 100 kids were killed. So I would consider the propane gas installation a little closer. Thank you."

Councilman Cardinale: "Thank you."

Supervisor Villella: "Thank you. Yes. This is the last one."

Mildred Cowan: "I'm Mrs. Cowan again. How close-- I believe that property is right next to my property. I'm 48 Kroemer Avenue."

Councilman Kent: "Which property?"

Mildred Cowan: "The property that they're-- "

Councilman Kent: "I'm looking at an aerial photo. This is the subject premises, there's a-- some kind of a sand operation and then I think this is the gas-- "

Mildred Cowan: "The gas company. And we're in between the sand and the gas company."

Councilman Kent: "This is you, this building?"

Mildred Cowan: "And evidently he wants to go in back of us, that's what he wants to do. Now, you've got a raceway there-- "

Councilman Kent: "Back here, yes."

Mildred Cowan: "Yes. And I'd also like to know how, if you start changing all the zoning there, are you going to change the zoning for all the industry that's there? Because the minute you do, they're all going to move out."

Councilman Kent: "The proposal is not a change of zone but I understand what you're asking. This is a-- this would allow day care centers as a specially permitted use in this same zone."

Mildred Cowan: "I think day care centers are great. But it seems to me there's a lot of farmland around, there's a lot of vacant lots around that don't have traffic, that don't have industry. Now why was this specific plot chose for that?"

Councilman Kent: "You'd have to ask the applicant. That wasn't our doing."

Supervisor Villella: "You don't have to answer that."

Councilman Kent: "But I do think-- "

Supervisor VILLELLA: "You can answer it. Good."

Stephen Carlo: "Yes, I mentioned that earlier and that is primarily for the ability for the parents to get in and out of an area relatively quickly. You go into farmland, means they're traveling out of the area that they're looking to be in and making it longer to get to and from work. In addition, if you're going into an area that's residential, you're going to have the same problems. Look at the traffic problems you'd have there with roughly 200 cars in the morning and 200 cars in the afternoon. I don't think you want to live next door to that."

Mildred Cowan: "How are the children going to get to the school?"

Stephen Carlo: "Their parents would drive them."

Mildred Cowan: "So each parent is going to drive the child into the school and according to the way I figure it, you've got to go up a narrow driveway. There's a right of way there."

Stephen Carlo: "We have a circular driveway that you'd be entering on the south side-- "

Supervisor VILLELLA: "Excuse me, Steve. If you want to, we can do it after the hearing. You can explain it out in the hallway if you'd like."

Mildred Cowan: "Yes. Well, my main concern is what's going to happen to my property when you start-- you've already started downzoning or changing the zone on the property that they want to get."

Supervisor VILLELLA: "We're not doing anything to the zoning."

Mildred Cowan: "But you are changing something. Now, the next thing that's going to happen is that the industry there is going to be restricted from all kinds of operations there. Now, we're an international company. We sell all over the world and we don't have to be located there. We just happen to be located

there. And I think that what you need is an industrial area for industry with nothing else but industry there. You can't mix apples and oranges in that area."

Supervisor Villella: "It seems like what I'm hearing tonight so far is that everybody is for the Kiddy Academy; it's just that the location-- "

Mildred Cowan: "It's the location. Right. I think it's a very needed thing but a proper location with a nice lawn and a good entrance is what's needed. Not a sand pit."

Supervisor Villella: "Thank you very much."

Mildred Cowan: "Thank you."

Supervisor Villella: "The time is 8:10. I declare the public hearing closed. Both of them, sorry."

Public Hearing closed: 8:10 p.m.

---

Supervisor Villella: "Ray McKay, would you please come up?"

Raymond McKay: "My name is Raymond McKay. I live in Aquebogue. Boy, this is (inaudible) for me to come up here, I can't even walk now, my legs are so bad. But I said I can't stand anymore. There isn't many times I'm going to come up here because you won't see me very many more times. But, I'm 87 years old. Born in Aquebogue and I'm going to die there. But, meantime, I'll tell you one thing. I want to congratulate this Town Board and the Town Board prior to this in the last 10 years when they took so much interest in farming over here. They did a hell of a lot of talking about farming but they did nothing. When I say nothing I mean nothing. Like, for example, the (inaudible) farm up there. Joe over there was telling me-- I says how many times did you-- not only Riverhead, Southold and Southampton, been up there to see what could we help, you know. Not a damn one. Nothing. So I want to congratulate you, do nothing people."

Supervisor Villella: "We have a meeting-- we have a tour

that's being taking place there. We want to learn more about the facilities."

Raymond McKay: "I don't meant the committee (inaudible). I mean you Town Board members yourselves."

Supervisor Villella: "No. Us. We are going on a tour. We're going on a tour tomorrow to Brookhaven National Lab. We're doing -- we have another tour at the place you're talking about."

Raymond McKay: "For example, I'll tell you. They had here about 12, 14 years ago, maybe a little bit longer, they had a Dr. Jacobs (phonetic) up there, profession. Him and I we talked. And he said on this soil we could raise something else besides potatoes. For example, he came up with the theory of these Spanish onions. Oh, that thing was going good except one time they got a disease in there and it (inaudible) out. But he said-- but meantime he was working on some more disease resistant potatoes-- onions, but he was transferred from there. He went to the Dow Chemical Company. Because he wanted \$500 more a year and Cornell said-- because they got to get their money from Cornell-- Cornell said we can't afford no more money, no \$500 more. But he says because Cornell spending a fifty million dollar building program. So they can't afford \$500 more. I'm just saying, this is one of the little things, you know."

Supervisor Villella: "There's a few things. I know, I forgot the lady's name, but she's growing different types of vines there for the wine industry. There's a lot of good things happening there. We are going to take a tour to see what's going on. They invited us, so we are going."

Raymond McKay: "I tell you, this Town Board has a little power here. About 12 years ago-- 10 years ago, (inaudible). Why, because at 12:00 noon, on WRIV, (inaudible) that the county does not appropriate any money for the (inaudible) he says the state is not going to appropriate any. So I came down here and Joe Janoski sat up there and I was speaking to him and he said we will see what we can do. They sent a telegram up there and in two months they had the money for the appropriation for the (inaudible). We got some relatives down in Jersey and they are sod growers. And they were getting a little (inaudible) at that time down there. Said we're going to put an embargo on the Long Island sod growers

up there because there might be some (inaudible) in there. We don't know; they don't know, but it might be so we don't get any more sod from Long Island. This Town Board has a lot of power if you know it or not. So with that-- got to take care of that. But also one little thing.

The Riverhead beautification organization we have. Now in Aquebogue there, just before you get to the vet, there's a cone shape little building. That's a historical building. Now some of you go there 100 times and just pass it by. The hell with that. That don't mean nothing; that's an old abandoned old thing, you know. They do a lot of talking, historial organizations. But sometimes they're a little weak on the targets, you know. That's one of the little things-- it would be nice to see that thing rejuvenated. That's a historical building over there.

Now, I have some paper, anybody wants some, information on chlorine and the affects of chlorine on a human being. You people don't care; you know you're going to die anyway. You might as well die from chlorine. I've got the papers right there. Right there. Telling you how serious chlorine is in the water. Some people have an immune system the doctor said, they can overcome this."

Supervisor Villella: "I'd like to have-- Gary, would you like to talk about the chlorine in Riverhead's town water. Let Mr. McKay know how we're going it."

Raymond McKay: "Yeah, I know, I know, I drink it. I know what it is."

Supervisor Villella: "No, no. He's right-- he's going to explain."

Raymond McKay: "Well, I can tell you one thing though."

Supervisor Villella: "Yes, Mr. McKay."

Raymond McKay: "See I ain't got very much longer. But I know-- we go to-- my wife and I go to the doctor for a physical once a year and about two years ago, my wife and I went to the doctor and the doctor say, Ray, you're okay, you're pretty good physically standing, you know. And but he says how's your sex

life. I says (inaudible). Okay. He took my wife in there and they finished, Mrs. McKay you're in pretty good shape you know. But how's your sex life because your husband says that the first time is all right, nex time (inaudible). Yes, she says, first time in January, next time in July."

Supervisor Villella: "Thank you, Mr. McKay. Where's Pete Danowski? Can you top that one? Is Pete out there? All right, we'll get him next time. Okay. Steve."

Steve Haizlip: "Steve Haizlip of Calverton."

Supervisor Villella: "Excuse me, Steve. I forgot. We put up the signs on five minutes limited time. I went over-- I went six minutes for Mr. McKay because he was interesting on that joke there. I couldn't shut him off there."

Steve Haizlip: "You know, Vinny-- "

Supervisor Villella: "Go ahead, Steve."

Steve Haizlip: "At the-- in Wading River, meet the candidate night, I let you speak what you want. I mean, you're start backing off a little here. I think I can do it."

Supervisor Villella: "You can; you're good at it."

Steve Haizlip: "On Riley Avenue and Edwards Avenue where the sump was put in, (inaudible) and I submitted a poster, we wanted a (inaudible) there. Now, I read in the paper and I'm directing the comment to Jim because he addressed the reporter that was writing up that article. Now, my request is are you going to consider it or are you going to let it sort of fly away in the night like Elmo's fire?"

Councilman Lull: "No. We still have that, Steve. We haven't to start to work on that yet."

Steve Haizlip: "All right. Well, not after parking cars, a (inaudible) parking."

Councilman Lull: "Yes. I know what you mean."

Steve Haizlip: "Now, on the same line, I've had people that asked me about the picnic grounds at Grumman. Is any plans right now with the Town Board to preserve that picnic ground? There's been a million picnics there and there's been a lot of activity over the years and I think that they would like to be a lot more, like with the police department and the boy scouts and different organizations. But, there's no ride there anymore but the wood grove and tables and the housing for cooking up hot dogs and so forth. What is your plans on that?"

Supervisor Villella: "Do we have any plans on Grumman?"

Steve Haizlip: "(inaudible)."

Councilman Lull: "On the proposed use map, Steve, which is not a zoning map, but on the proposed use map for that property it does show a-- it does show public picnic areas but where that's going to be will determine-- be determined by the use of the property of our leasees or the people that purchase the property from us. But there will be part of that which will be used by the town."

Steve Haizlip: "All right. On resolution 236. It says the Supervisor is authorized to execute a license agreement between Northrup Grumman Corporation and East End Aircraft. I thought Northrup Grumman, mainly Northrup, not Grumman, but mainly Northrup, they just took our name because of the weaponry system and good aircraft manufacture that we (inaudible) and so they capitalize on it. But also I thought Northrup abandoned it. In other words, they didn't want to pay taxes; they pulled up and left us, and say, you've got it now. So how does Northrup come into this. I want to tell you as far as I'm concerned, Northrup does not answer any correspondence that I send to them and I do write to them and asking them different questions and I never get an answer back. So even though my middle initial is "O", but they take it as outcase."

Councilman Kent: "Steve, this is about that plane that they're letting us have to put on the pedestal."

Supervisor Villella: "This is the pedestal that we're having for the plane."

Steve Haizlip: "Oh, I understand, Chris, but how does Northrup get into the act? I don't think Northrup should be in the act."

Councilman Lull: "They own the pedestal."

Steve Haizlip: "They own what?"

Councilman Lull: "The pedestal."

Adam Grossman: "The pedestal that the plane is going to be placed on."

Steve Haizlip: "They own it? How did they get a hold of it?"

Adam Grossman: "There is a design-- "

Councilman Lull: "They own the design, Steve."

Adam Grossman: "-- the design for a pedestal. And the pedestal is going to hold the plane up and so the town is getting the design for free and this is essentially the (inaudible) agreement authorizing-- that's what it is, the transfer of the design for the pedestal holding the F-14 to the Town of Riverhead. That's all this resolution authorizes."

Steve Haizlip: "Okay. So in other words, they design it, they own it, but they are going to let us have it here in the town the drawings to build one free."

Supervisor Villella: "Yes, that's it."

Adam Grossman: "Yes. They give the design to us for nothing."

Steve Haizlip: "All right. You know, Mr.-- "

Supervisor Villella: "This is the last question. Go ahead, Steve."

Steve Haizlip: "I'm finished."

Supervisor Villella: "No, no, no, go ahead. I know you've got one more in there."

Steve Haizlip: "You know, Mr. McKay he came up with a good one. Now, on resolution-- "

Supervisor Villella: "Was that the joke?"

Steve Haizlip: "On resolution 239, I see the Town Clerk is authorized to advertise for acrylic paint and that's for traffic. You know there's three good things in this world, one of them is money and the other one is love and the third one is this paint. When I'm out there at night on a foggy night, a dark night, if I don't have that white line, I can't (inaudible)."

Supervisor Villella: "Okay. All right, Steve. Next one is Sal Mastropolo. Sal."

Sal Mastropolo: "Good evening. My name is Sal Mastropolo, 95 Gregory Way, Calverton. My mother owns a home on the west side of Hulse Landing Road, 19th Street, right across from the firehouse. Every time it rains really hard, that street gets flooded. She's owned the property for 50 years, never had a flood in the basement until about eight years ago when Sunset Homes filled the corner lots after it bought it from the previous owner. I'd like to know when the town plans on putting in a storm sewer on 19th Street so that when it rains, the street doesn't flood right up to her house?"

Supervisor Villella: "Sal, as a matter of fact we're working on this now with Ken and Charlie, the town engineer and highway department. We are working on putting-- it's two areas on that street, right before where Mrs. Guarino lives."

Sal Mastropolo: "Yes. Well, Mrs. Guarino is my mother's sister and my mother is in the process of moving up from Ft. Meyers and moving into the house so she's doing some major renovations and-- "

Supervisor Villella: "Okay. We're putting three rings by-- in the front-- so that's-- Rose Guarino lives, and then two on the other side, I guess, where you're talking about."

Sal Mastropolo: "Okay. Any kind of time frame?"

Supervisor Villella: "Is Ken here? Ken Testa. No. We're

working-- Jack, the bond issue. That's what we're waiting for? You're waiting to get figures so we can do a bond-- yes. Part of it is but the rest is also got to be on the bond issue. We are taking care of that. The time frame, I have to get Ken Testa to get a hold of on that."

Sal Mastropolo: "Okay. Could you have him send me something? So at least I know when the problem will be resolved?"

Supervisor Vilella: "Well, we're in the process of doing it so it's not just-- there's about 20 proposals in the town that we are going to be taking care of and we have to figure out how much it's going to cost and make one bond issue on that. Let me have your phone number, Sal."

Sal Mastropolo: "929-3058."

Supervisor Vilella: "3058?"

Sal Mastropolo: "Yes."

Supervisor Vilella: "Okay."

Sal Mastropolo: "Thank you."

Supervisor Vilella: "Thank you, Sal. John Dunn."

John Dunn: "My name is John Dunn. I live at 266 Baywood Drive. I'm a resident of the Country Farms Estates. I was under the impression that you would receive the original letter from Mr. Stark about two weeks ago. I wonder if the present counsel could bring us up to (inaudible)."

Supervisor Vilella: "That's one of-- this is for the road improvement?"

John Dunn: "Correct. Correct."

Supervisor Vilella: "Okay. This is also being looked at within that package. As I say, there's about 20 proposals so here again, we're going to have to get back to you on this but let me have your phone number, John."

John Dunn: "It's 369-2324."

Supervisor Villella: "2324?"

John Dunn: "Yes."

Supervisor Villella: "Maybe you could just explain to the rest of the Board members."

John Dunn: "I don't know the exact time frame, but I'm going to guess it's maybe about six years ago that there was a first lift of asphalt that was brought in after the original development and now we're-- I'm going to say it's about 95% complete. The development. But what is happening now is the present layer of asphalt which is just your first lip which is basically your blacktop on a stone base and it's crumbling-- it's falling apart. I know that the drainage was set to grade for a final grade of blacktop to be put on. It hasn't happened and actually a lot of the drainage covers are now, in fact, slipping and moving. That's something you might want to get some of your town engineers to take a look at (inaudible) approximately maybe 25 feet drop and there's a lot of kids in the neighborhood and they're playing in the street, we're concerned and this is an ongoing problem. We went through it with the previous administration and unfortunately nothing seemed to come of it."

Councilman Cardinale: "Are these town roads?"

John Dunn: "Well that's my next question. We had a situation that the school buses were not permitted to come in there up to about six months ago and then the town gave us permission to get the school buses in there."

Councilman Cardinale: "Who is the developer?"

John Dunn: "It was under (inaudible) Properties, Mr. Frank (inaudible)."

Councilman Cardinale: "Did the-- can I ask the town attorney something? Is this a second lift situation where the bond expired?"

Adam Grossman: "I believe so."

Councilman Cardinale: "Another bond expiration. Wonderful."

Adam Grossman: "And I believe this is in litigation and it's one of the files that I'm in the process of reviewing with the Town Board members-- "

Councilman Cardinale: "You understand the basics of the problem, right? The developer did not put the second lift down. The town had a bond to secure that he would do that-- the performance bond-- the town permitted the performance bond to expire, and now we're going to have to either go chase him or figure out something to do to make the people's road work."

John Dunn: "Well, unfortunately, that's the way it was going back maybe about a year ago and nothing has come of this and we're a bit surprised that the town has continued to give building permits to another builder in there to do business. And we're amazed that, you know, the regular town inspectors will come in and inspect the foundations, they'll inspect the different construction stages in building, and yet they'll drive with their town owned vehicles right over these drainage basins that are six, eight inches above grade."

Councilman Cardinale: "Yes. The problem-- correct me if I'm incorrect, Adam-- is that these aren't town roads."

John Dunn: "Well, that's my next question because the town highway department came, in fact, and marked each one of the drainage basins with a steel pipe so that when they came through with the town plows they would know to lift it. And the town sweepers come in there and it's on the Hagstrom. I was never told it was a private road."

Councilman Cardinale: "Let-- Adam, you know more than I about this situation. Would you explain this to him?"

Adam Grossman: "What I would like to do is I have to have more of a chance to review the file completely. But I know the previous town attorney worked very hard in initiating litigation (inaudible) and I'm in the process of doing that and I'll be happy

to have you come in and go over it with you as to what's currently been done and what can be done."

John Dunn: "Can we (inaudible) at the next meeting, if possible?"

Adam Grossman: "Well, I can-- "

Supervisor Villella: "We can do it before that. Might as well take advantage, meet with him right a way."

Adam Grossman: "Sure. I guess you gave your phone number."

Supervisor Villella: "It's right there. I gave it to you right on the card; that's all his information."

Adam Grossman: "I will be in touch with you on that."

John Dunn: "Okay. Great. Thank you. And you'll let us know if it's the town's responsibility, a town road?"

Adam Grossman: "Absolutely."

John Dunn: "Okay, thank you."

Supervisor Villella: "Thanks, John. William Roth."

William Roth: "Hi. My name is William Roth. I also live in the town of Wading River and I addressed this problem the last time with you guys about the town roads flooding into my yard. Since then, they have done a little digging and as of April 1st, it has flooded out for the second time coming into my yard and the town (inaudible) I got a hold of them by 12:00 at night and they were pumping. They pumped a total of 22,000 gallons of water off the two streets. All right. I don't know what a couple of drywells or street drains are going to do for 22,000 gallons."

Supervisor Villella: "It won't do anything for that."

William Roth: "My second problem is is the 24 emergency hot-line. It's a tape recorder. I know you guys check these things supposedly, but 12:00 at night, any respectable person will be in

bed. There has to be something done about this emergency hotline. I mean the only way I can get somebody out there is if I call the police and the police officer won't even go down these roads. Okay. So something has to be done.

This watershed area that is adjacent to my area is also three-quarters of the way fenced in and I addressed this problem to you the last time, two weeks ago, still nothing has been done about it. There's still standing water six to eight feet deep across from the school bus stop. Something has to be done. You know, the kids walk around it, boys will be boys. They play in the puddles and stuff like this. Somebody is going to fall in there and, you know, like I said, this is just a lawsuit waiting to happen for the town and, you know, I don't want to see this happen."

Supervisor Villella: "Since we met in the office, have you done anything about looking for another piece of property or did you do any of the homework you were supposed-- "

William Roth: "I've looked for pieces of property but, you know, the cost of moving a house, the grades have to be brought up, everything around there is not cheap. I mean, you know, like I said, everything I looked at is a valley, you know, everything has to be built up, filled in, and probably is just going to be basically the same problem wherever you go."

Supervisor Villella: "And to raise up the house two blocks, that costs-- "

William Roth: "I mean, to raise up the house, yes. You'd probably stop the flooding in my house, but the yard is still going to flood out."

Supervisor Villella: "Did you get in touch with the person that sold the house to you to see if you could get your money back? Him selling you the house with that problem, with the drainage?"

William Roth: "The problem-- the drainage problem is not a yard problem or my house problem. It's the town's problem with-- because I have a two by eight nailed across the end of my driveway. This April 1st storm, I had four inches of water coming-- eight foot wide, coming down my driveway. I have three huge drywells in

my yard. Once I stop the water from coming down by putting that two by four and taking the dirt out of my flower plants to make a dam, you can see the water going down my drainage. All right. It's not my problem with the house. It's the town's problem because the watershed area is flowing into my backyard and I've got the street flowing down my driveway. I mean there's only so much my three drainwells can do for my yard."

Supervisor Villella: "Who was the fellow that was with you at the meeting?"

William Roth: "That was the civic association (inaudible) on the Sound. He's the vice-president."

Supervisor Villella: "Okay. That's who-- Ken and I when we were talking to him, we said we were going to put rings in a separate area where he had those arrows being drawn."

William Roth: "What are these rings going to do? 22,000 gallons of water. How many rings are you going to put in?"

Supervisor Villella: "Well the guy that was with you, the engineer, he said that it's coming from this certain area so we were going to put them up there and then put them down by your house to try and take care of the problem."

William Roth: "Well, how many-- you know, I know Ken's not here now but I distinctly remember him saying they're not going to control 22,000-- it's like-- "

Supervisor Villella: "There's no way. There's no way. Right."

William Roth: "It's like putting a bandaid on an open wound."

Supervisor Villella: "Well, this is something we can't take care of it right here, but this is something we have to address again, but-- "

William Roth: "Well-- "

Supervisor Villella: "I mean, the problem is, well, you know what the problem is. You bought a house with the CO saying there

was a problem with-- "

William Roth: "Yes, I bought a house with a CO that the town approved."

Supervisor Villella: "No. The town approved it with the exception of it saying on there that there is a problem with drainage on it."

William Roth: "Yeah, and the drainage problem, the letter you gave me saying-- by an engineer, states that it can handle a five inch rainfall. Not the town's water running into my property. That's what the problem is."

Supervisor Villella: "And that's what we're trying to correct for you. I know we're working on it. You were in the office."

William Roth: "I understand that. And then when is this going to happen. You know, every time it rains I'm expecting-- "

Supervisor Villella: "I can't control the rain but, I mean-- "

William Roth: "I'm expecting three days of rain and, you know, what am I going to do? I've got to call the town and, you know, like I said-- "

Supervisor Villella: "Yes. You have to get that pumper there again if it happens until we take care of the problem."

William Roth: "What happens if it happens at 12:00 at night again? They were there at 2:00 in the morning. I had water up to my back door. And if I didn't call the police department to get them down here, you know, this is the 24 emergency hot line. There's got to be a better way of doing this."

Supervisor Villella: "I feel sorry-- I've been trying to help the situation. We just can't-- what else can I say? We're trying to move you to a different place."

William Roth: "Nobody ever gets back to me. You know, I call, I left messages."

Supervisor Villella: "Who did you leave messages with?"

William Roth: "I'm trying to get the file on my house and it's been over-- it's been about a week now and still nobody is getting back to me on this."

Supervisor Villella: "Lynn, do you want to take care of-- talk to my executive assistant please and we'll take care of that again."

William Roth: "Like I said, the watershed area, something has to be done. It's three-- "

Supervisor Villella: "That's the other side of the sump?"

William Roth: "Yes."

Supervisor Villella: "Okay."

William Roth: "And that's not even, you know, that's not even my property. That's the town's property. It's only three-quarters of the way fenced in. I mean when it rains, it overflows."

Supervisor Villella: "It overflows into it."

William Roth: "And, you know, it's just not safe for the kids to be 100 feet away from this on the school bus stop."

Supervisor Villella: "Just mention that to Lynn and we'll get back to Ken on this. I know he was working on that for you when you came in the office."

William Roth: "I know you were working on it and we sat down and talked but-- "

Supervisor Villella: "We have to do a-- we don't have the money, the funds to do it, we have to go out for bond in order to get the funds so we can do this for you."

William Roth: "I mean the last time I talked to Ken he says the highway department has enough for two new storm drains."

Supervisor Villella: "That's not going to help."

William Roth: "That's not going to help nothing. All right."

Supervisor Villella: "Thank you. Sandra. Sandy."

Sandra Mott: "Hi. I'm Sandra Mott, Riverhead. I just have four quick things. One about the special permit for the fireworks at the race track. I remember bringing it up at the second meeting of the new Town Board and Mr. Kwasna looked into it. I was wondering-- I'm going to rehash my concerns. One is that the fireworks that they use are so large that houses rattle in Glenwood because we're adjacent to their property more or less. The canisters fall in the woods and there's a potential fire hazard there in addition to the fact that the houses all have large propane tanks attached to them. And it's a senior citizen community. In addition to the fact that if they are going to have these things, which I don't find any sense in fireworks at all, as I said before, could they have perhaps a ground display rather than an aerial display? I know that they have ground displays; I know they put them on the barges in the East River for Macy's. I mean if it's good enough for Macy's, it should be good enough for the people attending the race track festivities. And if they're not going to even do that, if that can't be adjusted, although I don't understand why it might not be able to, could they limit the time and the intensity? I mean I know that they've been doing it for years and years and I know the people have been complaining for years and years and I know that we've just been there five years and it has reduced in intensity, thanks to calling the previous Supervisor's office, they were able to adjust this. But it really is a danger.

My second concern-- "

Supervisor Villella: "I just want to see is there anyone here from the fire department? I think the fire department is on call when the fireworks go off. So they are-- "

Sandra Mott: "Yes. I understand."

Supervisor Villella: "They're on standby."

Sandra Mott: "But in the house, the house literally shakes

for the intensity-- "

Supervisor Villella: "They can't do anything-- "

Sandra Mott: "But you can ask them to use a smaller size canister perhaps. Because the thing falls behind the wooded area and if it's a dry season which, you know, we could possibly have again, just smaller canisters and a shorter display, if they are going to do it or a ground display. That would be considered a good neighbor."

Supervisor Villella: "We'll check into that."

Sandra Mott: "I appreciate that. My second concer. Can you tell me what they're doing on Mill Road? They had engineers out there marking off different coloration of-- I'm not quite sure what they're doing on Mill Road from the Riverhead Animal Hospital up to 58. Do you know what kind of work that is supposed to be happening there?"

Supervisor Villella: "I have no idea. Gary?"

Sandra Mott: "There's nothing marked."

Councilman Kent: "What's coming down Mill Road?"

Councilman Lull: "Is that Lilco's gas line?"

Sandra Mott: "It's-- no (inaudible) was marked in any way. But they were out there the past few days."

Gary Pendzick: "Gary Pendzick, Superintendent of Riverhead Water District. Lilco is going to be placing a gas main off Mill Road from the animal hospital all the way to Route 58 and then further north on Mill Road-- "

Supervisor Villella: "That's right. To the new housing that's going up there, seniors. Thanks, Gary."

Sandra Mott: "Well, maybe I shouldn't have asked that question. My third and fourth question are together. It's regarding the dog shelter and I just wanted to let you know that

with Mr. Lull's help and Kathleen Hagermiller (phonetic) and some calls I've made, there's an animal shelter sign at the corner of Mill Road and 24 I guess it is-- or 25, whatever the road is, it's going to be relocated during the week. It's pointing directly to the animal hospital. (inaudible) from out of town I was told they felt the animal hospital was the animal shelter. It's pointing right at the animal hospital rather than up Mill Road. They are going to move it over. Thanks to Mr. O'Connor at DOT. In addition WRIV has offered to give some time weekly, or twice weekly, once I can get a list of the animals that come in so that we can get immediate contact to the families who have lost their animal so that there won't be this long duration of time for these poor things to be up there.

And my third concern was regarding the RSVP group. (inaudible) my understand, Mr. Lull said that the previous administration has the incorporation papers of RSVP, the group that helps with the fostering of the animals. Would that be available for my review?"

Councilman Lull: "Sure. It has to be."

Sandra Mott: "Okay. So who would I see?"

Supervisor Villella: "Where would that be on file at? Would that be in your office, Alan? Barbara's office, I guess."

Adam Grossman: "The Town Clerk's Office. Fill out a freedom of information request and we can provide that information."

Sandra Mott: "Okay. And in conjunction with that, I understand that they have their-- they have a trailer that was donated to them which was a very kind thing to do, but is it acceptable to have a privately owned and in a sense personal piece of property on public land without any kind of hearing? Is that all right? Because I understand they're going to hook it up and put a \$3,000 pole in to get lighting. (inaudible) Is that okay for them to have that on public land?"

Supervisor Villella: "Adam, do you know?"

Adam Grossman: "Well-- "

Councilman Lull: "Adam, I guess I'll take you off the hook. That was done with the previous-- "

Sandra Mott: "There's no hook involved."

Councilman Lull: "No, it was done with the previous town attorney, that's why I mention it. Yes, that was done with the approval of the town attorney and with the approval of the Supervisor and the Town Board and it was also done with the understanding that it was to provide-- to be in existence to provide two specific uses that we can't provide in our own pound with the way it is constructed. If we were to construct a new pound or an addition to the pound, what we would need which is recommended by the state is to have an isolation room for sick animals so they don't spread illnesses to other animals and also a puppy room. Because we have had several situations up there where we have had animals-- dogs who have had puppies, especially during the winter time when the puppies do not all live simply because of exposure. And so within that trailer, we are being able to provide that kind of life saving situation. It is not a permanent situation but rather it's a temporary situation until we can replace it with a new pound."

Sandra Mott: "Okay, very good."

Supervisor Villella: "Thank-- is there anything else?"

Sandra Mott: "No. That was the four concerns."

Supervisor Villella: "Okay, thanks a lot."

Sandra Mott: "Thank you very much."

Supervisor Villella: "Appreciate it. Terri Fenton."

Terri Fenton: "Terri Fenton, Jamesport. I'd like to thank you with proceeding with the cleanup of the old Lebanon site. But I'd also like to-- is that going to be going out for bids (inaudible)."

Councilman Cardinale: "You just opened with the cleanup. Did they clean up anything on the Lebanon site?"

Terri Fenton: "No. (inaudible)."

Councilman Cardinale: "Yes. There is a resolution we are about to pass which we had given them until today to clean it up. The last I checked, it wasn't cleaned up and the resolution will be passed indicating time's up. We'll clean it up and put it on your tax bill."

Terri Fenton: "Okay. Will that be going out for bid?"

Councilman Cardinale: "Yes. Correct. And that's what the resolution we're about to pass will say, time's up; we're going to get bids to, in fact, clear it ourselves and put it on tax bill of the owner."

Terri Fenton: "Would it be possible in the bids to specify (inaudible)."

Councilman Cardinale: "Well, there is a question-- would it be possible-- we can't specify what the waste is. We certainly could indicate to them if they see any hazardous waste or if there is any indication that the waste is of hazardous nature, that they should immediately notify the town so that precautions can be appropriately taken. You know, I guess you received the letter of the Health Department? The position of the Suffolk County Health Department which I hardly endorse but acknowledge at least, is that the, as you know, that the soil and the water are safe and that there is no hazard in that area. They may be wrong-- what is the word? There may be an error there not in doubt. And as you know, we are all invited to a meeting on April 14th with County Legislator Carrociola (phonetic) and I am looking forward to your colloquy with him because I know you know a great deal about this and have opposing opinion about whether there is hazardous waste. But certainly whoever goes out on that site we will advise and if there is any indication of hazardous waste they should immediately notify the town so that appropriate hazardous material precautions can be taken."

Terri Fenton: "Okay. Because the fact that they were housing chemicals (inaudible) and the residue is in the wood that burned. That would be my concern."

Councilman Cardinale: "Right. Yes. That position as you

know is that the residue within the building is not hazardous. Your position is otherwise and I think it's going to be an interesting debate. Too bad the public can't be invited on the 14th between you and County Legislator Carrociola. Thank you, Terri."

Supervisor Villella: "Thanks, Terri. Bill Roberts."

Bill Roberts: "Bill Roberts, Baiting Hollow. I'm not going to talk a full five minutes or beyond. I want to talk about two subjects, one is parking. Swezey is going to be moving across the street. Swezey had a very large parking lot in back of the store on Main Street, when it moves across the street they will require a lot more parking than there are spaces."

Supervisor Villella: "Are you talking about the new 60,000 square foot building or where they are in Woolworths now?"

Bill Roberts: "No, no. The new one-- "

Supervisor Villella: "Okay. Right."

Bill Roberts: "I think-- the town redesign that or the district did, redesign that parking lot and there's a lot of wasted space. I think we may have to go to the same type of striping that Tanger has because if you put all-- try to put all those cars in and go to Swezey's especially for promotions or holidays, there's going to be a problem."

Supervisor Villella: "You're right about that. We know about the parking problem and has it been brought up in your committee? It will be in the next committee meeting they'll be bringing that up."

Bill Roberts: "Okay."

Supervisor Villella: "But there's a lot of empty parking back there. I don't know if it will be-- "

Bill Roberts: "A lot of it is not being used especially when you get back where the bank is and also where (inaudible). And also they're not supposed to be parked there, but people drive with

the school buses-- park buses there and they don't belong there."

Supervisor Villella: "You're right."

Bill Roberts: "There's been a lot of concern about empty stores along 58 that they should be occupied or be businesses planned for Riverhead Centre should occupy them before we consider changing the (inaudible) as Riverhead Centre. But I'm talking about buildings that are occupied now, that will probably become vacant once Riverhead Centre opens up. Or possibly. First of all, there's 84 Lumber. The products that they handle will be handled by Home Depot. Waldbaums currently the square feet of their store, 34,000-- "

Supervisor Villella: "There is something in the process for that, Bill. I can't say what."

Bill Roberts: "Oh, okay. But the building that they're going to be building in Riverhead Centre is going to be 65,000 square feet, double the size."

Supervisor Villella: "You're right. It's big. It's huge. The whole center is huge."

Bill Roberts: "And then, let's consider-- let's say Waldbaum's moves out, you said there are plans for it, but let's say those plans do not materialize, then Rite-Aid would probably close because Waldbaums super store will have probably the biggest pharmacy section in any one that rivals let's say CVS or even King Kullen. So then Rite-Aid may (inaudible). Also, what happens with Pergament? Pergaments is dead. And if Waldbaums opens up with a 65,000 square foot store, what do you think will happen to King Kullen? They will not be able to compete because I know someone who lives-- family who lives in Centereach and Pathmark there has a store which is probably 65,000, 70,000 square feet and they run promotions that no one else can meet and the prices are so low, it's really criminal because the other supermarkets cannot match them.

If Circuit City opens up, and PC Richard is dead."

Supervisor Villella: "That one, I'm not going to give you."

Bill Roberts: "Okay, but Home Depot, we're talking about Pergament, it'll impact Agway."

Supervisor Villella: "It's going to impact a lot of stores."

Bill Roberts: "It'll impact Carl's."

Supervisor Villella: "Just like the way Tanger impacted quite a few stores at one time."

Bill Roberts: "It'll probably cause Paints Plus to close and (inaudible) because everything that they have, paints and wallpaper, Home Depot does a good job on that. Possibly Long Island Shade & Blinds may fold, too. And I don't know about Aid Auto Store."

Supervisor Villella: "No one's going to move, Tony. Don't worry about that. He's too big."

Bill Roberts: "All right. Well, everybody is talking about vacant stores but-- "

Supervisor Villella: "But, you're right. You're absolutely right what's going to happen. But that's our job to try and fill up those stores. Thank you. Pete."

Peter Danowski: "I had been at the last Town Board meeting and I didn't wait around until the very end. I recognize-- "

Supervisor Villella: "I called you."

Peter Danowski: "-- no, I'm saying the last meeting. I recognize that the Appleby's resolution had been typed and previous to that I had attended the work session and I thought when I left the work session later when I saw the written resolution that the Appleby's special permit resolution was still subject to a finalized site plan to get approved. It did not; it got tabled, then recently I attended another work session at the very end of your session when I was called in to answer a question, and I was told that the Board was going to ask for a title search to discover any possible grant of scenic easements or covenants and restrictions and I think that work has been completed and the only covenants and restrictions are your normal boilerplate site plan resolutions

to deal with dumpsters and lighting and whatever. So I would just ask you to pull off the table the resolution that previously was written and ask you to approve the special permit tonight for Appleby's so we can get on with the idea, finishing off the site plan process."

Supervisor Villella: "Pete, we were going to do that, but in the meantime, this past week, something else popped up within that same shopping center. I guess the Teamsters own that?"

Peter Danowski: "(inaudible) are the owners (inaudible) Holding."

Supervisor Villella: "Well, it's the Teamsters. There's something that's in the works that he might want to-- the stores where North Fork Bank is, that whole area up to where, I think, Cheap Johns wherever that store is, that whole area, there's a group that's interested in doing something with that whole wing and if they do that, he would like to move those stores maybe down to where Appleby's is going to be. So we're not sure-- when was the last time you spoke to the owner?"

Peter Danowski: "I called him today and everyone is curious about whatever happened to the permit because, as you know, it's a carry over from last year and been kicking around for a year."

Supervisor Villella: "Because I've been working on certain things, you know, to get the empty buildings taken care of downtown and those on Route 58 since November and for some reason this seems to be something that's real that could happen. That's why it's tabled."

Peter Danowski: "I would just ask you to pass the special permit. Obviously, if the owner of the property and the prospective tenant choose not to go forward, they don't have to go forward and the special permit is still subject to a final site plan resolution which is there but at least it gets us to the next step. If they choose not to exercise it and you have a better idea of what happens with the property, you know, we can go in a different direction after tonight's meeting. But at least it gets me to the next step and, as you know, I think no one has criticized that I know of Appleby's. If you look at the other centers around Long

Island or out of state, they're very attractive, well maintained centers and in this particular case we came back with an amended conceptual plan that gave back landscaping. There's plenty of landscaping around the building."

Supervisor Vilella: "No, the planning and everything is fine. I'm just wondering-- "

Peter Danowski: "I would just ask the Board to adopt the resolution of approval-- and that should not stop you from continuing on."

Supervisor Vilella: "Why don't you just find Appleby's a different spot? There's lots of empty stores."

Peter Danowski: "I think a lot of those empty stores would find a lot of business because Appleby's is located at the site."

Supervisor Vilella: "Yes, but I think those empty stores in that area are going to be already taken care of from what I've been hearing and you know."

Peter Danowski: "Well, I, you know, I can't break your arms to have you-- "

Supervisor Vilella: "No, no."

Peter Danowski: "What I'm asking you to vote-- and I know the resolution has been approved-- "

Supervisor Vilella: "Am I still invited tomorrow for the-- "

Peter Danowski: "It's a general invitation. The world is invited. We're grinding horseradish tomorrow. An all day affair. And no tie and jacket. I would just ask you to consider voting. Thank you."

Supervisor Vilella: "Thanks, Pete. Bill."

William Kasperovich: "Grinding horseradish is an ancient traditional family thing that's come here from Europe. I used to dread the time to come home to my mother's house because she would

save that chore for me. A man of the house had to do that. It was symbolic of strength. It comes from the farm areas where the people had to have strength in order to survive. I'll have to get my share of good strength so I can come up here and talk to you gentlemen (inaudible). I get angry and I lose my perspective but I gain nothing but satisfaction to work for the people that live in Riverhead.

Sometimes past, I presented to the Town Board work session (inaudible) information with regards to the roads in the area that I live in. To date, I have heard nothing official. I thought I made it quite clear what is driving me is that you are taking away my American citizenship, that you are denying me New York State law. Now with three attorneys in the room at the time, I didn't think that there would be any question as to what I was striving for. But if the Town Board becomes aware of such a situation and sits still and does nothing all these election day speeches and words become very hollow. I expect some movement in the near future by the Town Board. They want any further of my assistance, do you want me to continue what I had planned to do, in a few days from now, right now I'm occupied with something more serious. I would be very happy to assist.

Secondly, can you hear me now? Okay. I'll talk a little louder because when I was on the telephone today, I didn't need a telephone, you could hear me down in the Town Hall without a telephone. This afternoon around two, three o'clock, I tried to reach an official in this Town Hall. There was nobody that could be reached. Nobody. So I said okay, then I'll call the police. Well, instead of getting into the official channel, I'll call Chief Grattan via the Town Hall phone. Chief calls me back, says I'm not going to send a man to your house and hangs up. Now damn it to hell, I know Chief Grattan for many, many years and whatever is in his craw to do such a thing, I don't know. Now, I did call 911 and went through channels and I got a response. By this time, Sharon Kloss came to the scene with as much misinformation and lack of knowledge that did not qualify her to get there."

Supervisor Vilella: "Did you want to set up a meeting with Sharon? Is this the time to speak about it, or-- "

William Kasperovich: "Now, the police-- "

Supervisor Villella: "I'll give you two more minutes, Bill, go ahead."

William Kasperovich: "The police officer I asked to stand by me while I talk to Sharon to testify of my confronting her. And he stepped out of line taking not what I asked of the service of a police officer at my home, but in an opinionated man in blue. Totally inappropriate. And damn it to hell, I've lived here for 50 years, I'm not going to take this crap."

Supervisor Villella: "Just relax, Bill."

William Kasperovich: "All right."

Supervisor Villella: "Relax."

William Kasperovich: "I can't relax."

Supervisor Villella: "Try it. George, show him how to relax. You're sleeping. I'm sorry, Bill. Go ahead."

William Kasperovich: "One of the things I thank God, man came up here and talked to you gentlemen about (inaudible). Maybe he reached you. I certainly didn't."

Supervisor Villella: "Yes, you did. Because that following couple of days I went to Gary to find out what's going on and the chlorine levels and everything. Everything seems to be working pretty fine now."

William Kasperovich: "So you say."

Supervisor Villella: "What the state says, they have to regulate it, the testing."

William Kasperovich: "There is a lack of knowledge on the Town Board with regard to this matter. I'm not going to go into it now."

Supervisor Villella: "No, I'm not saying-- thank you."

William Kasperovich: "But, you people lack a knowledge of

water supply and distribution. You have to catch up yourselves and-- "

Supervisor Villella: "We have professional people give us that information, Bill. We rely on our department heads and they are professionals."

William Kasperovich: "I had a community rely on H2M and they were led up the (inaudible) path on this contamination business. So you can depend on certain people you look for for assistance and professional advice but the last word is yours, you are responsible. You are our elected officials that are representing us. And if you don't know, damn well, you've got to find out. And that's all."

Supervisor Villella: "Thank you, Bill. Anyone else like to speak? George?"

George Schmelzer: "The first time I get more than five minutes. Others came up two or three times; I didn't at all. Yes."

Supervisor Villella: "George, just relax and get going. You just woke up. I know you just woke up."

George Schmelzer: "Okay. A lady wrote a book of hazardous waste. Well, it reminds me about chlorine. Putting poison gas in the drinking water. Isn't it hazardous?"

Supervisor Villella: "A lot of it is, yes."

George Schmelzer: "Yeah, it is. So that's how I look at it. Ordinary fertilizer isn't hazardous because you treat it with (inaudible). You eat the damn stuff anyway so what's the difference? I have no-- I didn't write down what to speak about. I'll talk about roads. Look at-- you've got six or eight places where you are going to extend town water but maybe I can't read it right, but I don't see anything coming from Edwards Avenue to River Road. I guess that's coming later, huh?"

Supervisor Villella: "I think that's what the-- yes, the master plan in the water district."

George Schmelzer: "Okay. Highways now. (inaudible) Riverhead school, I started in '32, Old Country Road was a wagon path from 25 east to the water tower, the water tower there now. And Mill Road from 25 north was a sand (inaudible) if you got stuck, you'd get stuck. In the mid '30's, they put tar on there, or road oil, passable. Both roads from 25 in Calverton west to (inaudible) with Pulaski Street. And also this Mill Road. Then the traffic started to pile up at Main Street. All the traffic from the city went through Main Street, too damn much. So to relieve it, the county bought more land and made 58. Part of the road was Old Country Road and they bought the rest as a bypass to Main Street. That solved the problem, no more jam up in Main Street. Now we got another problem. (inaudible) jammed up. So the answer to that would be to put an extension to the expressway to 105. Nobody gives a damn. There's no money for it. They look all over the rest of the island; they've got money for everything they don't need-- "

Supervisor Villella: "You might need that when Riverhead Centre comes on line and other things. You might need something like that."

George Schmelzer: "Riverhead Centre itself won't need it but really to relieve 58 that's what's needed. And all this nonsense I hear all kinds of double talk and excuses. I'm not mentioning any names. You haven't been here long enough see to get blamed for a lot of stuff. But stay here long enough, you'll get blamed. That's natural, see. Like when stuff is discussed; first it's discussed, then it's cussed, see. Or cussed and discussed. One or the other. Huh?"

Supervisor Villella: "One more minute."

George Schmelzer: "One more."

Supervisor Villella: "Make it good, George."

George Schmelzer: "So I suggest you do something to push them to extend the expressway. It wasn't intended to stop off where it is like cutting a tree down about four, five feet from the ground, leaving a long stump useless. Really. And they said Southold town doesn't want it. Well, 105 is not in Southold town."

Southold town wants the tourists but they don't want any traffic. How the hell can they get one without the other. And, so, we relieve that even to the people that shop on 58. How can they shop there if they can't get into it the damn store, really. And down here by the park-- "

Supervisor Villella: "Okay, George."

George Schmelzer: "Wait a minute. I didn't come here three times. I'm only the first time. Each one had five minutes, that's 15 minutes."

Supervisor Villella: "Just finish this one up, please."

George Schmelzer: "Yeah, okay."

Supervisor Villella: "We've got a lot of resolutions tonight plus-- "

George Schmelzer: "I ain't going to stay here for that. So, the park down there, about two years back a child got drowned and where the (inaudible) is, I think the water gouged out the dirt underneath it about 15 feet deep. I suggested to the town they put rocks in there, first sized rocks or coconut size. I don't mean their heads; they're heads are bigger than coconuts. That would make it safe and where the rest of the water is, put large gravel to low tide level, it would be perfectly safe. You've done nothing. I wish you'd consider that and also-- "

Supervisor Villella: "George, George, thank you very much. I mean, I love it. You give me a history lesson every time. I appreciate that."

George Schmelzer: "Yeah, but I'm not a history professor."

Supervisor Villella: "You're better than a history professor."

George Schmelzer: "Yeah, but they get paid; I don't. I'll see you next time."

Supervisor Villella: "Seriously. All right. I appreciate it. Thanks a lot, George."

George Schmelzer: "Okay. I ain't going to listen to all these resolutions."

Supervisor Villella: "Joe, you're next, please."

Chief Grattan: "Good evening. I'm Chief Grattan from the police department. I would just like to take a couple moments to give a little redirect to what Mr. Kasperovich said and not to leave the impression on the people tonight that we do not make house calls, because we do. Mr. Kasperovich called me this afternoon and raving on the telephone that the man across the street from him was building a driveway and he wanted me to send police to the scene immediately. I told-- asked him if he had called the building department and he said yes, I called Barnes. He won't be back until the 17th of the month. It sounds like he's in Florida. He's not, in fact, he's at a seminar until the 13th, taking out Good Friday, Holy Saturday and Easter Sunday. Sharon Kloss was on the road and Mr. Gadzinsky (phonetic) was someplace else. Mr. (inaudible) is tied up in a meeting with the Board and he won't talk to me. They won't pull him out of the meeting. So I said, well, let me get a hold of the building department, which I called over there. They were most gracious. They said that Sharon Kloss would be there in 20 minutes. I called Mr. Kasperovich back. He told me that-- when I told him that-- when I told him that Sharon Kloss would be there in 20 minutes, he said I don't want any building inspector; I want the police here. He was correct. I did hang up on him. I told him I'm not getting the police, it's not a police matter. Not to digress, but I went to a graduation of new policemen the other day, they told us that during your career you'll be doctors, lawyers, and psychologists and nurses and priests and so forth and so on. But they did not mention building inspector. So what I know about the building code, I could write on a postage stamp. And that is the truth.

Mr. Kasperovich at that point in time decided to back door me and he called 911, tying up lines where people could be calling about accidents, oxygen calls, etc. But he did knowing that we have to answer 911 calls because that's my policy. At that point, I did send a police officer up there and Sharon Kloss arrived just before him and the matter, I believe, is resolved. I just wanted to clear the air a little bit. I do not refuse to send policemen to help you. Thank you."

Supervisor Vilella: "Thanks a lot, Joe. Jim."

Jim Flood: "Jim Flood, Aquebogue. I just wanted to discuss the current confusing situation in the Town Board-- I'm sorry, the town Recreation Advisory Committee. Since you've taken office, Chris Kent has been to what? Was it one meeting that we had since you've been in office. Chris can testify to the fact that the town Recreation Advisory Committee is a group of citizens that has one thing and one thing only in mind. And that's the creation of ideas to put forward to the Town Board. And since you've come into office, Vinny, there's been a lot of confusion because all of a sudden there are projects being spoken about, projects that are being researched right now including some projects down at Reeves Beach with a prospective boat ramp down there.

We've-- the Recreation Committee has hashed this over many, many times and you and I have discussed this also, and it was my request to you not too long ago to-- it was my understanding that there is a purchase order right now for about \$1,700 to \$2,000 for an engineer to look into how much it's going to cost to put a boat ramp down there.

It was the feeling of the Recreation Advisory Committee after much thought that boats and bathers at the same time do not mix. And, I mean, I can't help which way the boat ramp-- I mean ramp that goes down to the beach is facing right now and perhaps it's not-- it's not the best direction to put it in. However, when you talk about putting another boat ramp down there and facing it toward the east and having boats and trailers at the same time that you have kids on the beach during bathing season, is a bad mix. Plus the fact that just the expenditure of that \$1,700-- "

Supervisor Vilella: "Jim, I don't mean to interrupt, but you've got to get your facts straight and then we can discuss it."

Jim Flood: "Well, tell me if I'm wrong. There's a purchase order right now-- "

Supervisor Vilella: "Oh, no, correct. We're looking into it."

Jim Flood: "That's to look into. Am I right? That's to look

into? That's-- "

Supervisor Villella: "Get the rest of the facts right, though."

Jim Flood: "I have most of my facts correct. I mean, I researched this."

Supervisor Villella: "You know more than I do."

Jim Flood: "Well, you know, the fact is that-- "

Supervisor Villella: "Let's not discuss it here. If you have something else to say about that, fine, but do you have any other questions?"

Jim Flood: "Well, the fact is that you've been ignoring the Recreation Committee completely. You're talking about putting a building up-- "

Supervisor Villella: "No, this is something that the town engineer, myself, we've been checking into because the previous administration was stubborn and didn't want to put it where it was supposed to be and they had it facing the wrong way and spent \$440,000 of the town's money doing it the wrong way. I'm concerned. I'd rather spend another \$50,000, \$60,000 and give what the people want in that area."

Jim Flood: "Well, what they don't want is to have their children run over by boaters."

Supervisor Villella: "That's the reason why we're doing it because the swimmers are on the west side and the boaters are on the east side. It makes it nice and simple."

Jim Flood: "When was the last time you told a kid to stay away from those boats? You know, it's ridiculous to spend any extra money-- "

Supervisor Villella: "It's been that way for 35 to 50 years and-- "

Jim Flood: "Well, we're talking about an expenditure between \$50,000 and \$100,000 more-- Recreation Committee-- Recreation funds."

Supervisor Villella: "Oh, that's what you're worried about. I'm sorry. I didn't know. I thought you had your concern of the kids."

Jim Flood: "Well, it certainly is part of it but the second part of it is the expenditure of funds without even speaking to the Recreation Committee. You're talking about a boat-- you know, don't well me to death here, Vinny, because-- "

Supervisor Villella: "I'm not welling you-- I'm not even going to-- I mean, continue. Continue. You've got another minute and a half, so continue, please. I'm done."

Jim Flood: "You're done. Well, I'm not going to get into that, but what I'm saying is you pretty much ignored-- we want to know in the Recreation Committee what are status is? Are we going to start having meetings again? Am I still Recreation Chairman or -- "

Supervisor Villella: "No. I took you off that Committee if you remember right."

Jim Flood: "Well, you know, I've never gotten anything in writing. The only thing that I was told was out in the hallway here in front of Tim Kelly and his photographer that because I wrote a letter-- "

Supervisor Villella: "That's not the reason why. That's part of it."

Jim Flood: "Well, you know what? I'm expressing my first amendment right to free speech."

Supervisor Villella: "And you're welcome to it."

Jim Flood: "And, well, then you take away a chairmanship of a committee because of that? And I don't understand that. Because for the last four years, I think I've spent-- enjoyed the committee

and I spent a lot of time and effort in forwarding-- "

Supervisor Villella: "And you did a great job. I'm not saying anything wrong with that."

Jim Flood: "Well, you know, if I did a great job, Vinny, if I did a great job-- "

Supervisor Villella: "It's just time for other people to get on board. There's a change."

Jim Flood: "I'm asking you, Vinny. If I did a great job, why should I be embarrassed out in the hallway and get fired?"

Supervisor Villella: "Fired?"

Jim Flood: "Why should I get dismissed from a committee standing in a hallway? You could have taken me in your office, away from the press-- "

Supervisor Villella: "Jim, what you're doing-- this is all-- I mean, you're absolutely still mad, you won't give up, what happened during the election. You've got a vendetta against me."

Jim Flood: "You know, you're totally wrong here, Vinny."

Supervisor Villella: "You're telling everybody that you want to get rid of me so let's not make it in here or anything. Let's not make it political. All right. I'm sorry."

Jim Flood: "You know, that's always your thing. Let's not make it political. There was nothing political in that committee. And to (inaudible) me, I think you owe me an apology for dismissing me in such a manner."

Supervisor Villella: "I'm sorry. I apologize to you. You did a great job and it's time for other people to come on board and do the work that you did. It's time for a change. It's time for a change. Don't you get it? The people out there spoke. They want change in this Town Hall. And that's what I'm doing, so I'm sorry if I offended you."

Jim Flood: "Well, then I'd like to consider, you know, how are you going to spend this money? Are we going to waste another \$75,000 to \$125,000 on a boat ramp that we don't need. If we keep the boats off-- "

Supervisor Villella: "We're looking into it, Mr. Flood. We're looking into it. It's not a done deal or anything."

Jim Flood: "You're talking taking \$2,000 out of a consultant's budget from the town engineer and then just to design it-- "

Supervisor Villella: "Yes, because I want it done right this time because your crew blew it last time."

Jim Flood: "Well, to tell you the truth I wasn't even on the committee at that time but, you know what? I agree with their findings that during the time that there are people on the beach, there shouldn't be people down there with boats launching. All right."

Supervisor Villella: "Your time's up. Thank you very much, Jim."

Jim Flood: "And that's my concern. It's a safety concern."

Supervisor Villella: "Next."

Jim Flood: "I have another question."

Supervisor Villella: "Your time is up. You can sit down and come back up again, please."

Jim Flood: "Okay."

Sal Mastropolo: "Sal Mastropolo, 95 Gregory Way. I don't know what's going on here but I just offer one comment. I'm a boater. Reeves Beach is advertised that you could launch a 22 foot boat there. There's no way that you can get up and down the grade at Reeves Beach. Okay. And I'd like to just make a statement that any money spent at Reeves Beach is a waste to make that a boat ramp. The money should be either spent in Wading River Creek or at Pier Avenue where the road is level with the waterway."

Supervisor Villella: "We ought to do Wading River Creek, too."

Sal Mastropolo: "Thank you."

Supervisor Villella: "Okay. Yes."

Pastor Robert Wilson: "Pastor Robert Wilson. New Life Ministry, Riverhead, New York, 1186 East Main Street. I just wanted to make a-- I'm doing a study on racism and I just wanted to make a statement concerning our community because it seems as if racism and drugs is actually destroying our community. My grandfather and my father were born in this community. It's on the third generation. And it seems to me that Riverhead is actually concerning racial relations about 20 years behind. Just to-- and I'm only going to take a minute-- but I'm doing a study on racism and I would really like to talk about it a little bit more sometime, but I read the article on the Town of Riverhead that they (inaudible) some months ago, it's really great. Then I read another article on racism charge at K-Mart shopping center and then there's several other racist events that have happened in our community. And it seems that the concern that I have for our community once again is that racism and drugs are destroying it. I know you know that. And why I believe the statement that it seems as if we're 20 years behind in racial relations, everytime the newspaper talks about Riverhead, it talks about injustice, it talks about drug addiction. Really, the last couple of months a couple of articles have been on the front page about mistakes that have been made.

So what I am working towards is a better Riverhead, racially. And I think Riverhead was formed to be a leader not only economically and politically but also socially and racially. So I'm just a little nervous here tonight. I think that when I say Riverhead was supposed to be a leader not only politically and economically, but racially, it would be nothing wrong with us having the first black Supervisor, having the first Hispanic Supervisor, or even the first woman, not even the first woman Supervisor, but the first woman Supervisor. And I think that-- and Italian is great. It is great. White is great. Italian is great."

Supervisor Villella: "I'm a minority, too, you know."

Pastor Robert Wilson: "Great. It's great. Because I believe

that this is the type of community that we are called to be and we can take racial relations to the level, just like we take economic and political, we want prosperity to come in our community. I believe we can take racial relations in the next four years."

Supervisor Villella: "Zippy, are you on the anti-bias task force?"

Pastor Robert Wilson: "Uh-- "

Supervisor Villella: "You should be."

Pastor Robert Wilson: "I was asked to be on that task force."

Supervisor Villella: "You should be."

Pastor Robert Wilson: "Thank you. And I-- you can call me Zip because that's my-- you're third generation; I'm third generation here. But one thing-- "

Supervisor Villella: "I didn't mean any disrespect but that's how I remember you from high school."

Pastor Robert Wilson: "That's okay, Mr. Supervisor. That was 20 years ago."

Supervisor Villella: "For you. Thirty-five for me."

Pastor Robert Wilson: "But, I want to say that-- "

Supervisor Villella: "Would you like to-- you were asked to be on it, right?"

Pastor Robert Wilson: "Yes, I was approved."

Supervisor Villella: "Would you like to be on it?"

Pastor Robert Wilson: "Yes. I would-- "

Supervisor Villella: "I think you should be. Really. You would be a big help for it."

Pastor Robert Wilson: "Oh, yes. One thing that we are or as I said, we sometimes we can skim over it and as I said earlier when Mr. Stark was in the administration, I don't believe that the foundation of Riverhead is prejudiced but I believe that sometimes we're set in our ways and so what we're working towards is just making relations, race relations, better and not only (inaudible) economically and politically but also, you know, trying to lead racially. Just some comments I wanted to make."

Supervisor Villella: "Very good comments. Thank you."

Pastor Robert Wilson: "As time goes on, I'd like to get more relaxed here; make some more comments."

Councilman Cardinale: "Rev. Wilson, I want you to know you're stuck now. I'm-- "

Pastor Robert Wilson: "I'm stuck. Okay. You've got so much knowledge-- "

Councilman Cardinale: "Councilman Kwasna is about to introduce resolution #233. We are going to ask that your name be added to the resolution establishing the Riverhead anti-bias task force."

Pastor Robert Wilson: "Oh, thank you."

Supervisor Villella: "Would anyone else like to speak before we go into the resolutions? Sandra."

Sandra Mott: "Sandra Mott, again. Riverhead. Can you tell me under your application special permit it has construction of two restaurant buildings. Which ones are they? Is that at the area on 58 by Tanger?"

Councilman Kent: "We've received applications for permits to build restaurants at that location that you are aware of."

Sandra Mott: "No specific restaurant?"

Supervisor Villella: "No. I don't think they have anyone-- "

Councilman Kent: "Not yet."

Sandra Mott: "Not yet. Okay. Thank you."

Supervisor Villella: "If no one else would like to speak, we'll get the resolutions going. We are going to adjourn the Town Board meeting. All in favor."

The vote (Collective response): "Aye."

Meeting adjourned 9:28 p.m.

Meeting re-opened: 9:29 p.m.

Supervisor Villella: "I would like to re-open the meeting--  
Town resolutions."

Councilman Kent: "First I want to call one of the tabled resolutions. It's Resolution #149 which I believe was handed to you marked "tabled". This adopts fee schedule for the electrical inspections under Chapter 52 of our Town code. Amended to read that the public hearing was held on February 17, 1998. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The resolution is adopted."

Resolution #223      Resolution #216

Councilman Lull: "Excuse me, let's take the other one off the table first. The ACA resolution."

Resolution #262

Councilman Lull: "This is a-- this is resolution 216, which was tabled at the last meeting. And we're taking it off the table. Before we can move forward on another resolution on the same topic, so that we bring this resolution off the floor."

I move that we bring the resolution off the floor."

Councilman Cardinale: "I'll second it."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes-- "

Councilman Kent: "You mean to bring it to the floor."

Barbara Grattan: "To bring it to the floor."

The Vote (Cont'd.): "Kwasna, yes; Lull, yes; Villella, yes.  
The Resolution is brought to the floor."

Councilman Lull: "It's the resolution 216, which is a resolution authorizing discussions with the ACA which we put on the table last time and I renew the resolution at this time."

Councilman Cardinale: "You want to vote on it, correct?"

Supervisor Villella: "Yes."

Councilman Cardinale: "Seconded."

The Vote: "Cardinale, no; Kent, no; Kwansa, no; Lull, yes; Villella, no. The resolution is not adopted."

Resolution #223

Councilman Kent: "Authorizes the Supervisor to take all necessary steps to join the litigation with the Town wherein the Town would become a party petitioner for the creation of Peconic County. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #224

Councilman Cardinale: "This resolution appoints park attendant to the Riverhead Recreation Department, Robert Makowski. So moved."

Councilman Kwasna: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #225

Councilman Kwasna: "Appoints a park attendant to the Riverhead Recreation Department. The name is Geoff Herzog. So moved."

Councilman Lull: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #226

Councilman Lull: "226 appoints park attendant, Ken Turbush, to the Recreation Department. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #227

Councilman Kent: "Resolution 227 appoints Melvin Stilley Park attendant to the Riverhead Rec Department. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #228

Councilman Cardinale: "This resolution appoints a program leader to the Riverhead Recreation Department, Jennifer Donoghue. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #229

Councilman Kwasna: "This appoints James Woodson as part time fill in kennel attendant. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #230

Councilman Lull: "Authorizes the Town Clerk to publish and post a help wanted ad for seasonal laborers in the Buildings and Grounds Department. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #231

Councilman Kent: "Resolution 231 appoints the law firm of Twomey, Latham, Shea & Kelley as special counsel to the town. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #232

Councilman Cardinale: "This resolution approves the rate schedule submitted by John J. Raynor, PE & LS, P.C. consulting engineer for the Planning Department. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #233

Councilman Kwasna: "I'll move 233 with the change of the addition of Rev. Woodson on the bias task force. This resolution establishing anit-bias task force membership. So moved."

Councilman Lull: "Also to make sure that it's clear that this-- as well as an advisory committee, this particular part of the advisory committee is a governing board of the task force, so stated so it will not in any way limit membership beyond that. This is the governing board of this. Second."

Supervisor Villella: "Moved and seconded."

Councilman Kent: "This is Rev. Robert Woodson. Is that correct?"

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #234

Councilman Lull: "Authorizes the Receiver of Taxes, Diane M. Stuke, to attend a seminar. So moved."

Councilman Kent: "Seconded."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #235

Councilman Kent: "Resolution 235 authorizes the Riverhead Fire Department use of the training grounds located on Route 58 in Riverhead. So moved."

Councilman Cardinale: "Seconded."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #236

Councilman Cardinale: "This resolution authorizes the Supervisor to execute a license agreement between Northrup Grumman Corporation and East End Aircraft LI Corp. and the Town of Riverhead to obtain the free of charge, the designs for the F-14 pedestal. So moved."

Councilman Kwansa: "And seconded."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #237

Councilman Kwasna: "Authorizes the Town Clerk to publish and post notice to bidders for annual construction contract. So moved."

Councilman Lull: "Second."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #238

Councilman Lull: "Authorizes the Town Clerk to publish and post notice to bidders for snack vendors. So moved."

Councilman Kent: "Seconded."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #239

Councilman Kent: "This Authorizes the Town Clerk to advertise for bids on the third greatest thing in life, acrylic latex paint. So moved."

Councilman Cardinale: "Seconded."

Supervisor Vilella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Vilella, yes. The Resolution is adopted."

Resolution #240

Councilman Cardinale: "This resolution awards the bid for the repairs on the Benjamin/Corwin house at 133 and 141 East Main Street. So moved."

Councilman Kwasna: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #241

Councilman Kwasna: "This awards bid for the roof replacement on the George M. Young Community Center in Jamesport. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #242

Councilman Lull: "242 declares lead agency and determines significance of action for the special permit of Charles Hydell, North Fork Wood Design. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #243

Councilman Kent: "Resolution 243 approves the site plan of

Adchem Industries, Inc. building addition. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #244

Councilman Cardinale: "244 authorizes the Town of Riverhead to secure or demolish unsafe buildings or structures owned by Somarga, LLC pursuant to Chapter 24 of the Code of the Town of Riverhead entitled-- 54 of the code of the Town of Riverhead entitled unsafe buildings and collapsed structures. This will allow the Town to take away the fire debris at that site as discussed earlier. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #245

Councilman Kwasna: "Authorize the Town Clerk to publish and post public notice to consider the demolition of buildings owned by Maryann Kulp located at 7 Park Street in Wading River pursuant to Chapter 54 of the Town code of Riverhead entitled unsafe buildings and collapsed structures. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #246

Councilman Lull: "Authorizes the Town Clerk to publish and post notice to consider the demolition of buildings owned by the County of Suffolk pursuant to Chapter 54 of the code of the Town of Riverhead entitled unsafe buildings and collapsed structures. This particular building at 66 Lewis Street in Millbrook Gables. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna."

Councilman Kwasna: "I would also like to say on that the County has already agreed to come out and demolish this building for us. It's in a very poor condition and being used by drug dealers so the County has agreed to take it down for us. I vote yes."

Councilman Kent: "Yes. We're working together with them. We're providing certain-- I believe we're providing the rollofts so we are working with County to demolish this building."

Supervisor Villella: "That's the way it should be. Team work."

The Vote (Cont'd.): "Lull, yes; Villella, yes. This Resolution is adopted."

Resolution #247

Councilman Kent: "This adopts an amendment to Chapter 108 entitled Zoning of the Riverhead Town code. This is the result of work done by Councilman Kwasna and the Handicapped Committee-- Advisory Committee. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes;

Villella, yes." The Resolution is adopted."

Resolution #248

Councilman Cardinale: "This amends Resolution 198 of 1998 and accepts the Suffolk County National Bank certificate of deposit from Schembri Enterprises in regard to Country Vue Estates. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #249

Councilman Kwasna: "This accepts irrevocable standby letter of credit of Northside Estates, Inc. for road and drainage improvements. So moved."

Councilman Lull: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #250

Councilman Lull: "Extends the townwide stormwater drainage contract (Patrick Bistran, Jr., Inc.) for 90 days. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #251

Councilman Kent: "Resolution 251 authorizes the filing of an application for New York State Assistance from the Household Hazardous Waste State Assistance Program and signing of the associated State Contract, under the appropriate laws of the State of New York. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #252

Councilman Cardinale: "This resolution authorizes the issuance of \$350,000 in serial bonds of the Town to pay for preparation of a comprehensive master plan for the Town. I might note that we're hoping to do that for somewhat less than that but we are bonding -- budgeting for that amount. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Before I move and second it, this was at one time up to \$500,000-- \$450,000 to \$500,000-- we would think the proposals were coming in. So with negotiation going on and everything, we got it down to this figure so I want to thank everybody that-- saving money for the people in Riverhead. So I appreciate the people who were on that Board helping out with that. So second and moved-- moved and seconded, excuse me."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #253

Councilman Kwasna: "It's an order calling for a public hearing for acquisition and installation of new water mains in conjunction with the establishment of Extension No. 48 Riverhead Water District, which is West Main Street. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #254

Councilman Lull: "In the matter of establishment of proposed extension to the Riverhead Water District in the Town of Riverhead, Suffolk County, New York to be known as Extension 48, West Main Street, for the Riverhead Water District for the Town of Riverhead. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #255

Councilman Kent: "Resolution calling for a public hearing in the matter of the increase and improvement of the facilities to the Riverhead Water District in the Town of Riverhead. Public hearing scheduled for April 21st at 7:30 p.m. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #256

Councilman Cardinale: "This resolution calls for an order calling for a public hearing rehabilitation of district public supply well No. 4-2 in Riverhead Water District. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #257

Councilman Kwasna: "Resolution calling for a public hearing for a lateral water main extension Country Vue Estates at Wading River. So moved."

Councilman Lull: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #258

Councilman Lull: "Awards bid for installation of water mains and appurtenances Extension No. 50 Wendelken Subdivision, Riverhead Water District. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #259

Councilman Kent: "Resolution calls for a public hearing for a lateral water main extension in Wading River, scheduled for April 21st at 7:40 p.m. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #260

Councilman Cardinale: "This resolution authorizes the Town Clerk to advertise for bids Riverhead Water District Meadowcrest III at Hidden Acres. So moved."

Councilman Kwasna: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #261

Councilman Kwasna: "Authorize the Town Clerk to advertise for bids Riverhead Water District Extension No. 41, Northside Estates. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #262

Councilman Lull: "It's a general fund budget adjustment. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #263

Councilman Cardinale: "This resolution and there is an initial motion to amend including the second and third line of the description. This resolution authorizes-- is authorizing and directing the Town of Riverhead to negotiate-- the Town of Riverhead Community Development Agency to negotiate the sale of the urban renewal parcel located on East Main Street being the site of the former Okeanos Ocean Research Foundation Preview Center to the Atlantis Seaquarium of Riverhead as a preliminary measure in determining whether the Atlantis Seaquarium of Riverhead should be designated the sponsor of the redevelopment of such parcel.

I'd like to move to amend this proposed resolution in the following manner: at lines two and three of the description of the resolution, deleting the words from prepare on line two through the last word or on line three and inserting in its place the word negotiate and the word the.

The next amendment is at the bottom of the first page. To delete the words period of time significantly shorter than the period of time in which, going to the next page, and to insert the words manner more beneficial to the Town than. On the second line of the second page delete the words could be financed and constructed.

The next amendment is at Section 1 at the fourth line. Delete the words and to prepare the most advantageous lease or sale agreement and related documents and replace with the words and prepare documents as requested by the Supervisor.

At line 12 of Section 1, delete the words Jack Hansen as financial director at line 13. At the last line of the second page add after the word provide within 30 days from this date. That completes the requested amendments and I would move that those amendments be made a part of the proposed resolution. I need a second on that amendatory proposal."

Councilman Kwasna: "I second it."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull."

Councilman Lull: "I voted in favor of the previous resolution which was for the ACA but I am most interested in moving forward and that is the issue here, let us move forward. I think there are certainly questions of dealing with the amounts of money and so forth that need to be dealt with but that can be done in negotiations as it well should be. So I vote yes."

The Vote (Cont'd.): "Supervisor?"

Supervisor Villella: "Yes, and the negotiations will start and we are hoping that we get what we want for the taxpayers in this town. We are going to stay firm. If negotiations don't come in like we like it, we would go back to the ACA. If we don't like what the ACA has, we'll throw away both of them and reopen it and get something else. Negotiate."

Barbara Grattan: "This resolution is adopted as amended."

(unidentified): "Is it Atlantic or Atlantis?"

Councilman Cardinale: "Atlantis."

(Unidentified): "Would you correct it then? (inaudible) spellings in the resolution."

Councilman Cardinale: "Thank you. And to be precise about our vote, the motion that I just moved was to amend the proposed resolution. I would ask that I would like to amend it to reflect Atlantis Seaquarium and I will take that vote to be-- to the extent that it is incorrect, correct it. I think we should also call a vote on the actual moving of the resolution, as amended."

Barbara Grattan: "As amended?"

Councilman Cardinale: "Yes."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. As amended, the Resolution is adopted."

Resolution #264

Councilman Kwasna: "It's a master plan update capital project budget adoption. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #265

Councilman Lull: "Recreation programs fund budget adjustment. So moved."

Councilman Kent: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #266

Councilman Kent: "Recreational capital improvement project budget adjustment. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #267

Councilman Cardinale: "This resolution regards the '97 Stotzky Park improvements capital project budget adjustment and I move to approve that adjustment."

Councilman Kwasna: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwansa, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #268

Councilman Kwasna: "This is a Community Development Agency budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #269

Councilman Lull: "269 ratifies authorization for attendance of a police sergeant at a seminar in Albany entitled Steps to Fair Policies and Effective Procedures. So moved."

Councilman Kent: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #270

Councilman Kent: "Resolution 270 grants a leave of absence to George Malahias for personal reasons. So moved."

Councilman Cardinale: "Seconded."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes;

Villella, yes. The Resolution is adopted."

Resolution #271

Councilman Cardinale: "This resolution reduces the letters of credit of Manzi Construction, Inc. for recreation and water district key money fees in lieu of the fact that they have paid them on certain loss. So moved."

Councilman Kwansa: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwansa, yes; Lull, yes; Villella, yes. The Resolution is adopted."

Resolution #272

Councilman Kwasna: "I make a motion to pay the bills."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, yes; Kent, yes; Kwasna, yes; Lull, yes; Villella, yes."

Councilman Cardinale: "There is a motion on 195, which I'm looking at which is special permit of Appleby's. There is some indication we want to take this off the table. Does anybody want to move to take it off the table?"

Councilman Lull: "I'll move to take it off the table."

Councilman Cardinale: "Any second?"

Councilman Kent: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale, abstain."

Councilman Cardinale: "Oh, wait a minute. Wait a minute. Take it off the table, I vote yes."

The Vote (Cont'd.): "Kent, yes; Kwasna, yes; Lull, yes; Villella, yes. Resolution to take off the table has been adopted."

Councilman Cardinale: "Discussion. Have you seen the title report, Adam, on this?"

Adam Grossman: "Yes, I have."

Councilman Cardinale: "Could you inform the Board whether there's any covenants?"

Adam Grossman: "We updated the covenants and restrictions at the subject premises and I received the updated title report over the last couple of days and there's no additional information on the current covenants and none of them include the activity as outlined in the resolution (inaudible)."

Councilman Kent: "I'll move the resolution."

Councilman Lull: "Second."

Supervisor Villella: "Moved and seconded."

The Vote: "Cardinale."

Councilman Cardinale: "I am inclined to abstain on this. I have some reservation because of the length of time between the public hearing and this vote. So accordingly, I'll abstain."

The Vote (Cont'd.): "Kent, yes; Kwasna, no; Lull, yes; Villella, yes. So we have three yes, one no, and one abstention. The Resolution is adopted."

Peter Danowski: "Might I not be obnoxious and just ask you one further thing before you break for the night? I know it's the end of the process. I may have forgotten to say on the public hearings that we've closed on the proposed amendment to the Town code on the Kroemer Avenue-- the project for the Kiddy Academy, they've got certain time deadlines to reply to the Education Department and we're about to move the project (inaudible) the town. I recognize the Town Board may not be in a position tonight to vote yes or no on the special permit but if we don't vote on the

amendment to the code which allows the use by special permit, I'll not only lose a month, I'll lose a further period of time because I won't be able to file an application for a special permit until after you adopt the amendment to the code. So I was hoping with that limited-- that you would grant an amendment to the code. Still won't give me a special permit tonight, you'll hear from whoever you want to hear from whether say (inaudible) but at least I'd have the code in place so you can consider a special permit application under the amended code or the non-nuisance. Without that, Steve Carlo and his family here tonight, they're telling me, they are going to go away. And I've got to get-- what they have to do with the Education Department in Albany is to indicate zoning in the town. Right now we (inaudible) process with Albany. So if you just verbally say be it resolved that the use as contained in the public notice is approved, then I could at least be able to say I can file an application (inaudible)."

Councilman Cardinale: "But the other effect of that, Pete, would be, would it not, that you would be in a position-- a far better position legally because with a special permit, we would have to justify not giving the special permit. Since you don't have zoning at the moment, we don't have to justify anything."

Peter Danowski: "Well, I mean-- I don't think this is a case where we're going to litigate this issue. I think we'd litigate the non-nuisance industry definition if you want to litigate regardless of Rick's opinion. And all I'm doing is trying to save the time. Without this, I mean, let's just say you wait two weeks to amend the code. Okay. If you want to amend the code. And you may wait longer than that. Then you're going to say, okay, now we've adopted an ordinance that allows you to begin by filing a petition for a special permit. Then you're going to say, let's have a public hearing on the special permit under the new amended code. Then you're going to say after the hearing, maybe now-- maybe we can adopt the thing. This way at least you are going to hear from whoever, Planning, whoever you want to hear from say yes or nay. Without the adoption tonight, you really put us back a long period of time and I, you know, I can't (inaudible)."

Councilman Cardinale: "But there was-- what I was concerned about on this issue is that there is some evidence out there in the public that having a child care center-- child day care center use

within an industrial zone as a special permit use is a bad idea."

Peter Danowski: "That may be a bad idea for one person and you may choose to deny the special permit under either way, whether it's non-nuisance industry or whether it's the amended code provision. And, you know, we can pack the audience here with hundreds and hundreds of people, I didn't think you wanted us to do that because we don't think necessarily that carries the weight here. We all know that you don't want traffic going into residential neighborhoods, you know, the special permit process. So."

Adam Grossman: "I just want to say a couple of things. Pete, you know, it may be that that action on the part of the Town Board (inaudible) appropriate but I think any change to the Town code has got to be seriously considered as full indications of that action by the Town Board and at this point I don't really think that's been fully addressed at least to my satisfaction and other Town Board members (inaudible) speak with them, to take this action at this time. It may be we will take an action at the next meeting but I-- "

Supervisor Villella: "We could even have a special meeting if we have to."

Peter Danowski: "My next question, whether you could perhaps -- let me ask you this as a second thought as a follow up to what you just said, since the media is here and the press is here and it's a public meeting. You know, perhaps what we could do whether you choose to actually act on this or not, is to say that we'll discuss this at the next Town Board work session which is a week away on a Tuesday. All right. So that if you wanted to you could take that next step, if you wanted to."

Supervisor Villella: "I think we're pretty well filled up, the work session."

Peter Danowski: "It doesn't need my presence there; it just means you could if you chose (inaudible) to save the time and you could tell the world tonight because we're here in the world, that you would be maybe discussing that. So if you want to come down and listen to that discussion at a work session, you can be there. That at least, you know, gets us not a month away on that one-- "

Adam Grossman: "I have no objection (inaudible)-- "

Peter Danowski: "-- (inaudible) I understand you have many work sessions these days, so I understand."

Adam Grossman: "Okay. It certainly will-- "

Supervisor Villella: "We'll take that into consideration. But not tonight."

Peter Danowski: "All right. Thank you."

Supervisor Villella: "Thank you. Meeting adjourned."

Meeting adjourned: 10:02 p.m.
