Mrs. Dorothy Barone, Aquebogue, dated 5/20/71, listing research on facts brought out at meeting of May 18, 1971 - relating to assessments of various stores and pointing out that the reduction in the downtown shopping area naturally resulted in the rise of the tax rate per taxpayer so that in effect not the merchants but the taxpayer absorbed the cost of these parking areas. Further stating that in all fairness these assessments should be raised to their original valuations. Regarding Master Plan adopted by Town - says that to base the fact of denying the shopping center on the Master Plan which is totally unworkable is beyond belief. Feels it is time the elected officials started working for the small taxpayer. Filed.

Town Justice Costello suggested Supervisor Zaloga make reply to above communication.

PERSONAL APPEARANCES

Mr. Joseph Coleman, Division Manager of Lebanon Chemical Corp. and George Crusier, Esq., appeared before the Board in connection with the application to amend Ordinance No. 26 by Petitioners I. M. Young & Co., Inc., Bushwick Commission Co. Inc. and Lebanon Chemical Corp.

Judge Costello informed Messrs Coleman and Crusier that the residents of the area fear that the petitioners may be contemplating some change in structure of the building for the purpose of blending fertilizer and an asphalt mix company.

Mr. Coleman assured the Board that Lebanon Chemical Corp. has no intention of making any changes in its operation. That although Jamesport has been a fertilizer mixing plant since 1929, there has been no mixing done there for three years.

PERSONAL APPEARANCES continued:

Mr. Coleman further stated that fertilizer is being manufactured in Baltimore and brought here in bulk by rail and distributed. That I. M. Young contemplates no changes. That Bushwick contemplates no changes - they will continue to be a packer, grader and shipper of potatoes. They will sell some chemical and fertilizer in pre-packed packages. There will be no hauling of ammonia and chemicals.

Mr. Cruser spoke on the vacant land on the other side of the railroad and stated that definitely no asphalt plant is being considered. They intend to erect a building for storage of equipment. That I. M. Young has a contract (pending change of zone) with Mr. Trojanowski and John Anderson who are in the asphalt business - they are not contemplating mixing asphalt on this property but are buying it to erect a building to store their present road building equipment and they will landscape the property and maintain it.

Dr. A. H. Smith, Sound Shore Road, Jamesport, informed the Board that last Saturday there was a spillage of oil on the beach due to carelessness of the Northville Dock Corp, however, this was cleaned up.

Dr. Smith also called attention to the application of Northville Industries Corp. for Army Permit to construct a mooring facility in L. I. Sound and asked what this operation involved.

Supervisor Zaloga explained that the Army Corps of Engineers call for the hearing and if there are any objections - a hearing will be held by them, the Town does not issue permits for this.

A. W. Brophy, 586 Sound Shore Road, asked if the State has to give approval.

Supervisor Zaloga stated there will probably be many agencies involved.

Dr. Smith asked about the pipeline.

Supervisor Zaloga stated the pipeline is already there - this has nothing to do with this application.

C. DeWitt Seymour, Sound Shore Road, asked if Northville Industries have an application to expand its facilities and was informed they did not.

Dr. Smith stated they originally had eleven tanks to build - they own property on Sound Avenue and they can put tanks anywhere.

Edward R. Munson, Building Inspector, advised that the zoning has been changed to Industrial B - which use has no grant for tank farms or tank storage of any type.

HIGHWAY DEPARTMENT

Alex E. Horton, Supt. of Highways reported that the work on the drainage area at Hulse's Peach Orchard is completed.

Mr. Horton also reported that Mr. Aldrich informed him that according to an agreement, the Town was obligated to put in a drain on 30 acres of his land.

BUILDING DEPARTMENT

Edward R. Munson, Building Inspector, talked to the Board on the matter of hot dog wagons, farm stands, noise problems and groupers, which he cannot squeeze in the meaning of the context of the zoning ordinance and asked that something be done to put it in the zoning ordinance or by a separate ordinance.

The Town Board requested Mr. Munson to submit recommendations and report to the Town Attorney.

Judge Costello suggested that these problems could be solved by amending the Peddlers Ordinance.
