**Re: Riverhead Water District
Installation of Water Mains & Appurtenances
Water Distribution System Improvements
H2M Project No.: RDWD 16-53**

Dear Board Members:

In July 2017, a portion of the referenced project which included water main related work on Pulaski Street, Mill Road and Osborn Avenue was awarded and subsequently constructed. The original bid also included water main work on Pier Avenue and Peconic Bay Boulevard which was removed from the awarded contract due to budgetary considerations.

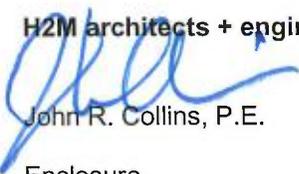

Of the five (5) bids originally received by the Town, Bancker Construction Corp. submitted the lowest bid pricing for the water main work on Pier Avenue and Peconic Bay Boulevard for a total lump sum bid amount of \$99,525.00. A cost savings of \$70,475.00 will be achieved by awarding this contract separate. A copy of the bid tabulation is attached for your reference.

We have investigated the qualifications submitted by Bancker Construction Corp. and have found him to be a qualified and responsible contractor. Bancker Construction Corp. has successfully completed similar projects for various water utilities across Long Island over the past few years. It is our opinion that Bancker Construction Corp. is qualified and his bid prices are fair and reasonable. Therefore, we recommend this portion of the contract be awarded to Bancker Construction Corp. for the total lump sum amount of \$99,525.00.

Should you have any questions regarding this recommendation, please contact our office.

Very truly yours,

H2M architects + engineers
