TOWN OF RIVERHEAD BID SPECIFICATION

DISPOSAL AND RECYCLING OF MUNICIPAL SOLID WASTE

The Town of Riverhead (“Town”), Suffolk County, New York, is seeking bids from qualified firms for Disposal and Recycling of Municipal Solid Waste. Capacity is sought for up to 350 tons per year of Municipal Solid Waste (MSW) generated at various Town offices, recreational facilities and Town owned property. The Town or others will deliver the Solid Waste in Town- owned compactor-equipped vehicles. The bid price shall include acceptance of the Solid Waste at the Transfer Station, any processing provided, and transfer to and final disposal at permitted solid waste disposal facilities for the Contract Term. The bid requests a price per ton of Solid Waste delivered to the Transfer Station for the contract term.

WASTE CHARACTERISTICS: The waste is MSW generated by Town offices, recreational facilities and Town owned property including bulk waste items. The MSW should not contain any regulated medical, special or Hazardous Waste, however, the Town will not guarantee that the aforementioned waste items will not be present in the waste stream.

DEFINITIONS: As used in this Specification, the following terms shall have the following meanings:

“Town” shall mean the Town of Riverhead.

“CONTRACTOR” shall mean the party contracting to provide and perform the specified work, including the heirs, executors, administrators, agents or successors thereof.

“NYSDEC” shall mean the New York State Department of Environmental Conservation.

“Bulk Items” shall mean large, residentially generated items which cannot be place in the Town required garbage bags. These items can include, but are not limited to, furniture. Bulk items do not include C&D debris.

“Transfer Station” shall mean a permitted solid waste management facility, owned and operated by the CONTRACTOR, where solid waste is received for the purpose of subsequent transfer to another permitted solid waste management facility for processing, treatment, transfer or disposal. Note, the Transfer Station shall be located within 30 miles of Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York.

“Hazardous Waste” shall mean a hazardous waste as defined in the Resource Conservation and Recovery Act at 42 U.S.C. 6903(5).

“Contract Term” shall mean a one-year period commencing on the Contract Effective Date. The Contract Term shall also include one (1) consecutive one (1) year extension upon the mutual agreement of the parties and resolution of the Town Board.

“Contract Effective Date” shall be May 1, 2015.

“MSW” shall mean solid waste from Town offices, parks and facilities.

SOLID WASTE GENERATION DATA: The Town’s historical MSW quantities data for the years 2009, 2010, 2011, 2012 and 2013 are presented herein. Bidders are cautioned that actual quantities during the Contract Term may vary from the historical data. The Town will not make any guarantees relative to the quantities of MSW delivered to the Transfer Station. The CONTRACTOR shall accept from the Town, during the Contract Term, up to 350 tons of MSW per twelve-month cycle from the Contract Effective Date. This quantity of MSW may be increased during the Contract Term upon the agreement of both parties.

TRANSFER STATION LOCATION AND RECEIVING HOURS: The proposed Transfer Station must be located within 30 miles of Town Hall 200 Howell Avenue, Riverhead, NY.

The Town transfer trucks shall be accepted at the Transfer Station for the off-loading of waste from Monday through Saturday between the hours of 6:00 AM and 4:00 PM. The Town and CONTRACTOR may, subject to applicable permit conditions, mutually agree to extend, reduce or modify the foregoing from time to time. It is understood that the Town may occasionally request access to the Transfer Station on a Sunday.

TRUCK SCALE: The Facility shall have operational on the Contract effective date, a certified truck scale of a length capable of weight a Town tractor truck and trailer simultaneously. The scale shall be certified by an approved CONTRACTOR. The current certification shall be provided to the Town, upon request, during the Contract Term. The driver of the Town truck shall be given a scale receipt ticket upon leaving the Transfer Station. The scale ticket shall have the following information: Date, time, truck identification number, gross weight, tare weight and net weight.

WEIGHING RECORDS: Prior to the effective date, if determined by the parties to be desirable, the Town will cooperate with the CONTRACTOR to establish tare weights for the Town trucks and transfer trailers. The CONTRACTOR, with the assistance of the Town, shall develop a system to create and maintain a weight record containing the tare weight, date and vehicle identification number of each Town vehicle entering and exiting the Facility.

MAINTENANCE OF FACILITY: The Town shall not be charged for any routine repair or maintenance expenses, and shall not bear any responsibility for the routine maintenance or repair of the Transfer Station or any facility of CONTRACTOR. The Transfer Station may, in a manner consistent with applicable law and good safety practices, establish and maintain operating and safety rules for the Transfer Station. Such rules may include, but need not be limited to, restricting access to certain areas, limiting access for disposal to Town vehicles, establishing traffic queuing and dumping procedures for vehicles, establishing procedures for examination for the content of loads of waste, and establishing rules governing the health, safety, neatness and cleanliness of the Transfer Station. The Town agrees to comply with such operating and safety rules of which the Town has received notice in a timely manner. The CONTRACTOR shall be responsible for securing and maintaining in effect all federal, state and local permits and approvals necessary for the operation of

the Transfer Station and the receipt of the quantities and types of solid waste from the Town that are provided for in this bid specification. The CONTRACTOR shall promptly notify the Town if it has been notified that it is in violation of any such permit of approval, and of the resolution of any such notification.

TRANSFER STATION TRUCK ACCESS: The Transfer Station must have acceptable truck access to the tipping floor. This access shall not require the Town trucks to complete unsafe or excessive maneuvers for tipping of MSW. A Town representative will inspect the facility prior to award of Contract. If the facility truck access has been deemed unsafe or excessive, the Town reserves the right to reject such bid.

DISPOSAL FACILITY: The CONTRACTOR shall provide disposal capacity for the MSW generated by the Town and delivered to the Transfer Station under the terms of the Contract. At all times throughout the Contract Term, the waste disposal site used by the CONTRACTOR must be available to the Town of Riverhead and be in compliance with all applicable local, state and federal laws and regulations. The waste disposal site must have valid construction and operating permits in accordance with all laws applicable in the jurisdiction in which it is located. The waste disposal site's operating permit(s) shall permit disposal of the quantities and types of waste from the Town that are provided for in this bid specification, without resulting in any violations of such permits. The disposal site shall meet the design, construction and operating requirements of all applicable laws in the jurisdiction where the disposal site is operating. The disposal site shall be located within 30 miles of Town Hall, 200 Howell Avenue, Riverhead, New York.

The CONTRACTOR shall provide to the Town a list of all disposal sites intended to be used by the CONTRACTOR for disposal of the Town's MSW during the Contract Term. The CONTRACTOR shall give to the Town prior written notice of any changes to the list of disposal sites made during the Contract Term. Should the CONTRACTOR, during the Contract Term, become aware that any disposal site utilized for disposal of the Town's MSW under the Contract has or will receive notice of violation of any applicable law or regulation, CONTRACTOR shall promptly provide the Town with written notice of such event. In the event that any disposal site fails to maintain or loses its current valid state permit licenses or other authorization (either permanent or temporary) allowing the lawful use of the designated disposal site, or the site becomes unusable or inaccessible to the Town of Riverhead, then the CONTRACTOR will be solely responsible for obtaining the utilization of an alternate disposal site at no additional cost to the town, including any additional hauling cost because of the location of the alternate disposal site or, in the alternative, the Town may terminate the contract effective immediately. Under no circumstances shall such a change in disposal site or failure or inability to obtain permits by the CONTRACTOR be considered a change of conditions warranting modification of the express terms of the Contract. In the event the CONTRACTOR is unable to find an alternate disposal site not to exceed 30 miles from Town Hall, it shall be in default of the Contract and liable for damages, bond forfeitures and other expenses as provided in the Contract.

RECYCLING FUND: The Town has created a Recycling Fund wherein a percentage of the revenues realized by the CONTRACTOR in the sale of the Recyclables collected from the Town MSW are returned to the Town. The Town hereby requires that the CONTRACTOR maintain

accurate records of the sale (positive or negative) of the collected Recyclables and submit a quarterly report of said sales to the Department. The Town further requires the CONTRACTOR to provide 20 percent of the net revenues to the Town in the form of a check made out to the Town of Riverhead Recycling Fund with said quarterly report. No payment is required if the net amount for the quarter is a negative number. Reports for negative quarters must be submitted also.

OPERATIONAL PLAN: The CONTRACTOR is required, prior to the commencement of performance, to provide the Town with an Operational Plan pertaining to the management of Town MSW, for review and acceptance by the Town. All revisions, modifications and updates shall be forwarded promptly to the Town throughout the Contract Term in triplicate. At a minimum, the Operational Plan shall include the following items:

- Transfer Station operating days and hours;
- Any changes in Transfer Station operating procedures necessary for the CONTRACTOR to comply with the terms of the Contract;
- Disposal site(s), including alternates, intended to be utilized by the CONTRACTOR for disposal of the Town's MSW;
- Copies of all applicable permits and local approvals issued to the CONTRACTOR for operation of the Transfer Station.

CONTRACTOR COMPENSATION: The Town will compensate the CONTRACTOR for MSW satisfactorily received, processed and disposed of on a net tonnage (2,000 pounds) basis. The per ton bid rate shall include all specified services. The CONTRACTOR shall receive monthly payments for services performed during the prior calendar month calculated by multiplying the annual per-ton rate times the tons satisfactorily received at the Transfer Station during the calendar month. The CONTRACTOR shall submit a monthly invoice and a Town approved voucher form, which shall include a daily summary of tonnage received from the Town, including applicable weigh slips, truck identification number and time of day. The Town shall be entitled to deduct from any payment owing to the CONTRACTOR any sums expended by the Town to cure any default or other contract non-compliance by the CONTRACTOR or to protect the Town from loss on account of claims filed or reasonably anticipated to be filed in connection with CONTRACTOR's performance or failure to perform.

PERFORMANCE BOND: The Bidder will be required to submit a performance bond acceptable to the Town of Riverhead upon execution of the Contract. This performance bond shall be in an amount equal to \$250,000.00.

ANNUAL RATE ADJUSTMENT: In the second and subsequent years of the Contract Term, the base per-ton rate shall be determined in accordance with the following formula: the current rate per ton increased by "the cost of living measured by the consumer price index for the New York, Northern New Jersey, Long Island for the base period 1982-84=100" annual index for the current

year divided by annual index for the previous year.
