**Re: Riverhead Water District
Hydraulic Control Valve Maintenance
And Emergency Services Contract
H2M Project No.: RDWD 1701**

Dear Supervisor Walter:

On Thursday, December 7, 2017, the Riverhead Water District received bids for their Hydraulic Control Valve Maintenance and Emergency Services Contract. One contractor submitted bids, with the low bid being submitted by Harper Haines Fluid Control, Inc. of Milford, Connecticut. A summary of the bids received is shown below:

Contractor	2018 Bid	2019 Bid	2020 Bid
Harper Haines Fluid Control, Inc. *	\$65,142.30	\$56,033.16	\$61,869.60

** - Upon evaluation of Harper Haines Fluid Control, Inc. submitted bid, an error in calculation was reported within the Bid Comparison section. The values above represent the corrected figures.*

Harper Haines Fluid Control, Inc. has successfully completed similar work for various water utilities over the past few years including the Riverhead Water District. Additionally, the bid prices submitted by them compare to projects similar in size and nature. It is our opinion that Harper Haines Fluid Control, Inc. is qualified and their bid prices are fair and reasonable.

It should be noted that this contract is for system maintenance and emergency services. The total bid amounts were used as means of selecting a low bidder. The actual construction value is unknown at this time and will depend on the number of emergency and maintenance situations that occur during the year. Based on this, we recommend that the Town/District award the contract to Harper Haines Fluid Control, Inc. for the 2018 calendar year in the amount of **\$65,142.30**. The award for the years 2019 and 2020 shall be made separately prior to the start of the respective year if the extension of the contract is deemed to be in the best interest of the District.

Should you have any questions or comments, please contact this office.

Very truly yours,

H2M architects + engineers
